Levity of Design Wit Píetrzak, 2012-12-05 How can poetry embrace morality through focusing on metaphrasts What is the relation between an allumette and the alpha rhythm Why is it that money has turned into a metonym of goodness and success And above all is it still possible to think of the human subject as a viable category in late modernity These are some of the questions that J H Prynne's poetry addresses Levity of Design voices a critique of present day society very much from within and seeks to demonstrate how Prynne has contrived to single handedly overcome the impasse created by the legacy of poststructuralism In a milieu of avant garde linguistic experiment developed from the modernist techniques of Pound and Olson but also from the early Eliot as well as Velimir Khlebnikov and against the background of the writings of Heidegger and Adorno these poems develop a language in which the notion of man can be restituted

Rethinking Philosophers' Responsibility Lydia Amir, 2017-11-06 Calling on philosophers as the custodians of rationality to reconsider their responsibility toward their communities and the state of civilization at large this book considers philosophy to be a practical discipline Largely foreign to

philosophers and non philosophers alike this conception of philosophy discloses the relevance of its unique contributions to contemporary society The book offers a compelling and accessible analysis of philosophy also in relation to religion psychology the New Age Movement and globalization and exemplifies through a wide range of current problems how philosophers can fulfil their responsibility Its argument that responsibility lies where one is capable of doing what is needed and even more so when no one else can do it targets philosophers However its innovative study of contemporary philosophy coupled with its original contributions to the problems at hand will engage academics and students from other disciplines as well as a general readership

Aesthetics of Displacement in Jhumpa Lahiri's Fiction Nadia Anwar,2015-03-23 This study is a new exploration of Lahiri s fiction through the lens of postmodern aesthetics with reference to the main text The Lowland and the secondary text The Namesake The Lowland is a narrative of home displacement and a vague attempt of resettlement in a new world yet the prime objective of this thesis is to explore how the desire to break with the barriers of tragic past and seeking survival in another world gives a new perspective of Diaspora The Lowland and The Namesake explore the aesthetics of displacement rather than touching upon the pains of displacement and dislocation It is not the existence in the new world which causes the disaster of individuals rather it is the tragic past which destroys their lives totally Moreover the rejection of old habits traditions and conditioning and a merging with the culture of the new context is an existing issue of the post modern transcultural world The new world not only offers professional opportunity and financial betterment but also provides a chance to oblivate the haunted memories of the tragic past And immigration or displacement is a kind of rebirth in a new culture The feeling of home is like something haunting and dark which frightens the people Their quest of survival in a transcultural world and their will to sacrifice their relations for that reason is an insight into situations of fast changing social fabric in India This research explores how the male and the female agency works in order to build an individual identity and it constructs individual realities based on personal experiences of the old world and the changing perceptions of the new world
