Timeless Journeys National Geographic, 2017-10-24 From Machu Picchu to the Pyramids of Giza and beyond this travel lover's delight takes readers on a breathtaking visual journey to the world's most historic wonderlands. Pack your bags for an extraordinary adventure with National Geographic to more than 50 places that have captivated our imaginations for centuries. In this visually stunning volume, the world's leading authority on cultural travel and history showcases bucket list ready destinations on every continent from Easter Island's haunting stone moai to Kyoto's breathtaking temples. Vintage photographs from the National Geographic archives tell the backstory of the discovery and earliest visitors to places like Carthage, Pompeii, Victoria Falls, and more, while showstopping contemporary photographs bring them to life in exquisite detail. Full spread features highlight lesser known hidden sites such as Pompeii's better preserved sister city Herculaneum and the less visited Maya city El Mirador in Guatemala's jungle, offering readers extraordinary opportunities to deepen their travel experience and discover places where the past can truly come to life. With practical travel tips to help readers get started planning their own legendary journey, this is the perfect gift to keep or share. *Reshaping Urban Conservation* Ana Pereira Roders, Francesco Bandarin, 2019-02-07 This volume focuses on the implementation of the 2011 UNESCO

Recommendation on the Historic Urban Landscape (HUL) approach designed to foster the integration of heritage management in regional and urban planning and management and strengthen the role of heritage in sustainable urban development. Earlier publications and research looked at the underlying theory of why the HUL approach was needed and how this theory was developed and elaborated by UNESCO. A comprehensive analysis was carried out in consultation with a multitude of actors in the twenty-first century urban scene and with disciplinary approaches that are available to heritage managers and practitioners to implement the HUL approach. This volume aims to be empirical, describing, analyzing, and comparing 28 cities taken as case studies to implement the HUL approach. From those cases, many lessons can be learned and much guidance shared on best practices concerning what can be done to make the HUL approach work. Whereas the previous studies served to illustrate issues and challenges, in this volume the studies point to innovations in regional and urban planning and management that can allow cities to avoid major conflicts and to further develop in competitiveness. These accomplishments have been possible by building partnerships, devising financial strategies, and using heritage as a key resource in sustainable urban development, to name but a few effective strategies. For these reasons, this volume is primarily pragmatic, linked to the daily work and challenges of practitioners and administrators, using specific cases to assess what was and is good about current practices and what can be improved in accordance with the HUL approach and aims. **Dr. Mathura Lal Sharma:**
