African Immigrants in Contemporary Spanish Texts Debra Faszer-McMahon, Victoria L. Ketz, 2016-03-09 Around the turn of 21st Century Spain welcomed more than six million foreigners many of them from various parts of the African continent How African immigrants represent themselves and are represented in contemporary Spanish texts is the subject of this interdisciplinary collection Analyzing blogs films translations and literary works by contemporary authors including Donato Ndongo Equatorial Guinea Abderrahman El Fathi Morocco Chus Guti rrez Spain Juan Bonilla Spain and Bahia Mahmud Awah Western Sahara the contributors interrogate how Spanish cultural texts represent idealize or sympathize with the plight of immigrants as well as the ways in which immigrants themselves represent Spain and Spanish culture At the same time these works shed light on issues related to Spain s racial ethnic and sexual boundaries the appeal of images of Africa in the contemporary marketplace and the role of Spain s economic crisis in shaping attitudes towards immigration Taken together the essays are a convincing reminder that cultural texts provide a mirror into the perceptions of a society during times of change

Aggressive and Violent Peasant Elites in the Nordic Countries, C. 1500-1700 Ulla Koskinen, 2016-12-28 This book investigates the forms that the aggression and violence of peasant elites could take in early modern Fennoscandia and their role within society The contributors highlight the social stratification inner divisions contradictions and conflicts of the peasant communities but also pay attention to the elite as leaders of resistance against the authorities With the formation of more centralised states the elites status and room for agency diminished but regional and temporal variations were great in this relatively drawn out process and there still remained several favourable contexts for their agency Even though the peasant elite was not a homogenous entity the chapters in this collection present us one

uniting feature the peasant elites tendency to assert themselves with an active and aggressive agency even if this led to very different outcomes

Bellido, 2023-03-03 This book delves into the conceptual changes produced by the Spanish constitutional debate held between 27 August and 9 December 1931 Taking place at the beginning of Spain's Second Republic those parliamentary deliberations brought about significant novelties in the political vocabulary Concepts such as democracy sovereignty reform revolution and freedom among others were re signified This study investigates the conceptual contributions made by Spanish MPs in the course of the constitutional debate of 1931 by assuming as a research approach an interdisciplinary stance combining conceptual history political theory and parliamentary constitutional history By doing so it selects five determining issues the pervasive discussion about two competing meanings of a democratic state the rhetorical uses of reform and revolution conceptual controversies about religious freedom the disputed idea of property rights and the functions of parliament and the president of the republic in a semi presidential regime The constitutional debate was largely inspired by interwar European constitutionalism which constituent representatives used to update the Spanish constitutional tradition With that goal in mind this book is aimed at undergraduate and graduate students and scholars working in the fields of conceptual history political philosophy parliamentary history European political history and European constitutionalism Licence line The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Country Life**, 1998 **Panama Odyssey** William J.
