## **Rubbings Of Maya Sculpture:**

**Rubbings of Ancient Maya Sculpture by Joan W. Patten** Carl D. Callaway, Joan W. Patten, 2012 *Rubbings of Maya Sculpture* Merle Greene Robertson, 1998-09-01 This packet of twelve CD ROM disks and printed instructions provides the first easy access to 2 000 of Merle Greene Robertson's rubbings of low relief sculpture from ninety Mesoamerican sites. Many of the rubbings are irreplaceable records of monuments since destroyed by deterioration or looting and some have never before been published. Access to the images carved on memorial Maya sculpture has always presented problems. Many of the Classic Maya sites are difficult to get to and in those that can be visited easily the sculpture is often difficult to see. Since nearly every trace of the original paint has eroded the viewer is dependent upon the sun or artificial light to produce contrasts between the background and the carved surfaces. The rubbings preserved at the Latin American Library at Tulane University can be viewed by scholars only on special occasions because of their size and the difficulties of unwrapping and rewrapping them. This easy to use compilation of high resolution scans makes it possible to enhance and manipulate images and print them out as needed. The Viewer CD allows the user to interact with low resolution versions of the imagery and the extensive cataloging system. **Merle Greene Robertson's Rubbings of Maya Sculpture** Merle Greene

Robertson, Martha J. Macri, Christi Vieira, 1993 Maya Sculpture Merle Greene Robertson, Robert L. Rands, John Allen Graham, 1972 Maya Imagery, Architecture, and Activity Maline D. Werness-Rude, Kaylee R. Spencer, 2015-05 *Maya Imagery Architecture and Activity* privileges art historical perspectives in addressing the ways the ancient Maya organized, manipulated, created, interacted with, and conceived of the world around them. The Maya provide a particularly strong example of the ways in which the built and imaged environment are intentionally oriented relative to political, religious, economic, and other spatial constructs. In examining space, the contributors of this volume demonstrate the core interrelationships inherent in a wide variety of places and spaces, both concrete and abstract. They explore the links between spatial order and cosmic order and the possibility that such connections have sociopolitical consequences. This book will prove useful not just to Mayanists but to art historians in other fields and scholars from a variety of disciplines including anthropology, archaeology, geography, and landscape architecture. *The Long Silence (2)* Stephan Merk, 2016-04-22 In *The Long Silence* first published 2011, Stephan Merk described the standing Maya Puuc architecture of a 100 square kilometer wide area in Northern Campeche, Mexico. *The Long Silence 2* presents the results of the architectural survey of an equally large and almost untouched region immediately south and compares the results of both projects. With additional contributions by Nicholas Dunning and Eric Weaver, Daniel Graa, Behrens Guido Krempel, and Karl Herbert Mayer. **The Maya** Megan E. O'Neil, 2022-07-06 An illuminating look at the myriad communities who have engaged with the ancient Maya over the centuries. This book reveals how the ancient Maya and their buildings, ideas, objects, and identities have been perceived, portrayed, and exploited over five hundred years in the Americas, Europe, and beyond. Engaging in interdisciplinary

analysis the book summarizes ancient Maya art and history from the preclassical period to the Spanish invasion as well as the history of outside engagement with the ancient Maya from Spanish invaders in the sixteenth century to later explorers and archaeologists taking in scientific literature visual arts architecture world's fairs and Indigenous activism It also looks at the decipherment of Maya inscriptions Maya museum exhibitions and artists responses and contemporary Maya people's engagements with their ancestral past Featuring the latest research this book will interest scholars as well as general readers who wish to know more about this ancient fascinating culture *Ancient Maya Relief Sculpture: Rubbings* by Merle Greene Merle Greene Robertson, Museum of Primitive Art (New York, N.Y.), 1967 **Handbook to Life in the Ancient Maya World** Lynn V. Foster, 2005 This comprehensive and accessible reference explores the greatest and most mysterious of civilizations hailed for its contributions to science mathematics and technology Each chapter is supplemented by an extensive bibliography as well as photos original line drawings and maps **Lifeways in the Northern Maya Lowlands** Jennifer P. Mathews, Bethany A. Morrison, 2006 The flat dry reaches of the northern Yucatán Peninsula have been largely ignored by archaeologists drawn to the more illustrious sites of the south This book is the first volume to focus entirely on the northern Maya lowlands presenting a broad cross section of current research projects in the region by both established and up and coming scholars To address the heretofore unrecognized importance of the northern lowlands in Maya prehistory the contributors cover key topics relevant to Maya studies the environmental and historical significance of the region the archaeology of both large and small sites the development of agriculture resource management ancient politics and long distance interaction among sites As a volume in the series Native Peoples of the Americas it adds a human dimension to archaeological findings by incorporating modern ethnographic data By exploring various social and political levels of Maya society through a broad expanse of time *Lifeways in the Northern Maya Lowlands* not only reconstructs a little known past it also suggests the broad implications of archaeology for related studies of tourism household economies and ethno archaeology It is a benchmark work that pointedly demonstrates the need for researchers in both north and south to ignore modern geographic boundaries in their search for new ideas to further their understanding of the ancient Maya *Ancient Maya Relief Sculpture. Rubbings* by Merle Greene. *Introd. and Notes* by J. Eric S. Thompson Merle Greene, J. Eric S. Thompson, 1967 *Mesoamerican Mythology* Kay Almere Read, Jason J. Gonzalez, 2002-06-13 Illustrated with scores of drawings and halftone photos this guidebook to the mythology of Mexico and Central America focuses mainly on Mexican Highland and Maya areas due to their importance in Mesoamerican history **War Owl Falling** Markus Eberl, 2017-11-21 An archaeological exploration of the role of creativity and invention in the ancient Maya civilization Drawing on archaeological findings from the Maya lowlands *War Owl Falling* shows how innovation and creativity led to social change in ancient societies Markus Eberl discusses the ways eighth century Maya and Maya commoners in particular reinvented objects and signs that were associated with nobility including scepters ceramic vessels ballgame equipment and the symbol

of the owl These innovations he argues reflect assertions of independence and a redistribution of power that contributed to the Maya collapse in the Late Classic period Eberl emphasizes that decision making the ability to imagine alternate worlds and to act on that vision plays a large role in changing social structure over time Contextualizing these decisions in his Garden of Forking Paths model Eberl shows how innovators were those individuals who imagined an array of possible futures and negotiated power to reach desirable outcomes He dissects the social underpinning of Maya creativity by illustrating their situated method of learning via observation and imitation stressing that societal constraints or opportunities dictated whether members ideas were realized Pinpointing where and when Maya inventions emerged how individuals adopted them and why War Owl Falling connects technological and social change in a novel way A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase
