Rubia And Central Asia By Road:

Unravelling the Silk Road Christopher Alexander, 2023-06-15 Three textile roads tangle their way through Central Asia The famous Silk Road united east and west through trade Older still was the Wool Road of critical importance when houses made from wool enabled nomads to traverse the inhospitable winter steppes Then there was the Cotton Road marked by greed colonialism and environmental disaster At this intersection of human history fortunes were made and lost through shimmering silks life giving felts and gossamer cottons Chris Aslan who has spent fifteen years living and working in the region expertly unravels the strands of this tangled history and embroiders them with his own experiences of life in the heart of Asia

The Deserts of Central Asia Mikhail Platonovich Petrov, 1966 *Chemicals and Methods for Conservation and Restoration* Johannes Karl Fink, 2017-06-15 Before the 1970s most information concerning the conservation and restoration of paintings wood and archaeological artefacts were focused on the history of the artefacts previous attempts of conservation and the future use of these artefacts The technical methods of how the restoration and conservation were made were dealt with only very briefly Today sophisticated methods of scientific analysis such as DNA are common place and this encourages conservators and scientists to work together to work out the development of new methods for analysis and conservation of artefacts This book focuses on the chemicals used for conservation and restoration of various artefacts in artwork and archaeology as well as special applications of these materials Also the methods used both methods for cleaning conservation and restoration as well as methods for the analysis of the state of the respective artefacts Topics include oil paintings paper conservation textiles and dyes for them archaeological wood fossils stones metals and metallic coins and glasses including church windows

Natural Products of Silk Road Plants Raymond Cooper, Jeffrey John Deakin, 2020-08-31 The Silk Road a complex network of trade routes linking China with the rest of the Eurasian continent by land and sea fostered transformation of the ethnic cultural and religious identities of diverse peoples In *Natural Products of Silk Road Plants* there is a treasury of plants many indigenous to countries along the trading routes of the Silk Road that yielded medicines cereals spices beverages dyes and euphoric and exotic compounds previously unknown to the rest of the world This entry in the *Natural Products Chemistry of Global Plants* series has been prepared for university students of chemistry and ethnobotany and for those wishing to broaden their knowledge It opens a window on a vast region of Asia not well described for its flora and provides new and fresh insights on Significant plants some endangered Traditional and modern applications of extracts The biochemical and pharmacological properties of extracts Contains over 150 full colour figures The significance of the Silk Road is being revived today through immense investment by China and other eastern countries in major schemes of transport infrastructure
