Rubian Bible:

A History of Muslim Views of the Bible Martin Whittingham, 2020-11-23 This book is the first of two volumes that aim to produce something not previously attempted a synthetic history of Muslim responses to the Bible stretching from the rise of Islam to the present day It combines scholarship with a genuine narrative so as to tell the story of Muslim engagement with the Bible Covering Sunn Im m Sh and Ism l perspectives this study will offer a scholarly overview of three areas of Muslim response namely ideas of corruption use of the Biblical text and abrogation of the text For each period of history the important figures and dominant trends along with exceptions are identified The interplay between using and criticising the Bible is explored as well as how the respective emphasis on these two approaches rises and falls in different periods and locations The study critically engages with existing scholarship scrutinizing received views on the subject and shedding light on an important area of interfaith concern

أحمد بن محمد Sayyārāi, 2009 For all Muslims the QurE3 4an is the word of God In the first centuries of Islam however many individuals and groups and some ShiEis believed that the generally accepted text of the QurE3 4an is corrupt The ShiEis asserted that redactors had altered or deleted among other things all passages that supported the rights of EAli and his successors or that condemned his enemies One of the fullest lists of these alleged changes and of other variant readings is to be found in the work of al SayyArA 3rd 9th century which is indeed among the earliest ShiEi books to have survived In many cases the alternative readings that al SayyArA presents substantially contribute to our understanding of early ShiEi doctrine and of the early and numerous debates about the QurE3 4an in general

Is The Bible Necessary? Al Provost, 2022-04-19 Can the Bible Be Defended An intriguing attempt to eliminate the printing and distribution of the Bible anywhere in the world is the pivotal theme of this novel The antagonists of the Holy Scripture in this book are varied but they represent powerful and well funded individuals and organizations These adversaries choice of weapon to destroy the Bible is a common one the lawsuit The first two chapters provide background information before the in depth jury trial begins Then mystical events add to the heightened atmosphere surrounding these proceedings What arguments will the prosecuting attorney use in his line of attack How will the unorthodox defense attorney counter the onslaught of accusations What will the witnesses pro and con have to say Will the verdict be what the reader expects or not How will the whole world which is watching react What about the Bible Can it speak for itself Is the Bible and the gospel message really necessary in our science based technological world where most people do their own thing Proverbs 21 2 NKJV says Every way of a man is right in his own eyes But the Lord weighs the hearts What are the consequences of a world without God s Word Or without God Hopefully the answers to these questions and others will be provided to your satisfaction in this book For even though it is a fiction novel there are many references to nonfictional truths

The Holy Bible, Containing the Old and New Testaments: ..., 1756 **Dr. William Smith's Dictionary of the Bible**

William Smith, 1873 **The Arabic Historical Tradition & the Early Islamic Conquests** Boaz Shoshan, 2015-09-07

The early Arab conquests pose a considerable challenge to modern day historians The earliest historical written tradition emerges only after the second half of the eighth century over one hundred years removed from the events it contends to describe and was undoubtedly influenced by the motives and interpretations of its authors Indeed when speaking or writing about the past fact was not the only nor even the prime concern of Muslims of old The Arabic Historic Tradition and the Early Islamic Conquests presents a thorough examination of Arabic narratives on the early Islamic conquests It uncovers the influence of contemporary ideology examining recurring fictive motifs and evaluating the reasons behind their use Folklore and tribal traditions are evident throughout the narratives which aimed to promote individual tribal and regional fame through describing military prowess in the battles for the spread of Islam Common tropes are encountered across the materials which all serve a central theme the moral superiority of the Muslims which destined them to victory in God's plan Offering a key to the state of mind and agenda of early Muslim writers this critical reading of Arabic texts would be of great interest to students and scholars of early Arabic History and Literature as well as a general resource for Middle Eastern History

Shaping a Qur'anic Worldview Vanessa De Gifis, 2014-04-16 Exploring the subjectivity of the Qur'an's meaning in the world this book analyses Qur'anic referencing in Muslim political rhetoric Informed by classical Arabic Islamic rhetorical theory the author examines Arabic documents attributed to the Abbasid Caliph al Ma'mun r 813-833 whose rule coincided with the maturation of classical Islamic political thought and literary culture She demonstrates how Qur'anic referencing functions as tropological exegesis whereby verses in the Qur'an are reinterpreted through the lens of subjective experience At the same time socio historical experiences

are understood in terms of the Qur'ān's moral typology which consists of interrelated polarities that define good and bad moral characters in mutual orientation Through strategic deployment of scriptural references within the logical scheme of rhetorical argument the Caliph constructs moral analogies between paradigmatic characters in the Qur'ān and people in his social milieu and situates himself as moral reformer and guide in order to persuade his audiences of the necessity of the Caliphate and the religious moral imperative of obedience to his authority The Ma'mūn case study is indicative of the nature and function of Qur'ānic referencing across historical periods and thus contributes to broader conversations about the impact of the Qur'ān on the shaping of Islamic civilization This book is an invaluable resource for those with an interest in Early Islamic History Islam and the rhetoric of contemporary Middle East regional and global Islamic politics
