Intermarriage and the Friendship of Peoples Adrienne Edgar,2022-05-15 Co winner of the Central Eurasian Studies Society s prize for best book in History and the Humanities in 2022 and 2023 and winner of the The Joseph Rothschild Prize in Nationalism and Ethnic Studies of the Association for the Study of Nationalities Intermarriage and the Friendship of Peoples examines the racialization of identities and its impact on mixed couples and families in Soviet Central Asia In marked contrast to its Cold War rivals the Soviet Union celebrated mixed marriages among its diverse ethnic groups as a sign of the unbreakable friendship of peoples and the imminent emergence of a single Soviet people Yet the official Soviet view of ethnic nationality became increasingly primordial and even racialized in the USSR s final decades In this context Adrienne Edgar argues mixed families and individuals found it impossible to transcend ethnicity fully embrace their complex identities and become simply Soviet Looking back on their lives in the Soviet Union ethnically mixed people often reported that the official nationality in their identity documents did not match their subjective feelings of identity that they were unable to speak their own native language and that their ambiguous physical appearance prevented them from claiming the nationality with which they most identified In all these ways mixed couples and families were acutely and painfully affected by the growth of ethnic primordialism and by the tensions between the national and supranational projects in the Soviet Union Intermarriage and the Friendship of Peoples is based on more than eighty in depth oral history interviews with members of mixed families in Kazakhstan and Tajikistan along with published and unpublished Soviet documents scholarly and popular articles from the Soviet press memoirs and films and interviews with Soviet era sociologists and

Contested Tongues Laada Bilaniuk, 2005 During the controversial 2004 elections that led to the Orange Revolution in Ukraine cultural and linguistic differences threatened to break apart the country *Contested Tongues* explains the complex linguistic and cultural politics in a bilingual country where the two main languages are closely related but their statuses are hotly contested Laada Bilaniuk finds that the social divisions in Ukraine are historically rooted ideologically constructed and inseparable from linguistic practice She does not take the labeled categories as givens but questions what Ukrainian and Russian mean to different people and how the boundaries between these categories may be blurred in unstable times Bilaniuk's analysis of the contemporary situation is based on ethnographic research in Ukraine and grounded in historical research essential to understanding developments since the fall of the Soviet Union Mixed language practices surzhyk in Ukraine have generally been either ignored or reviled but Bilaniuk traces their history their social implications and their accompanying ideologies Through a focus on mixed language and purism the author examines the power dynamics of linguistic and cultural correction through which people seek either to confer or to deny others social legitimacy The author's examination of the rapid transformation of symbolic values in Ukraine challenges theories of language and social power that have as a rule been based on the experience of relatively stable societies *Congressional Record* United States. Congress, 1999 The *Congressional Record* is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The *Congressional Record* began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824 the *Register of Debates in Congress* 1824-1837 and the *Congressional Globe* 1833-1873 *Military Review*, 2018 *The ^A Red Mirror* Gulnaz Sharafutdinova, 2020-10-01 What explains Putin's enduring popularity in Russia In *The Red Mirror* Gulnaz Sharafutdinova uses social identity theory to explain Putin's leadership The main source of Putin's political influence she finds lies in how he articulates the shared collective perspective that unites many Russian citizens Under his tenure the Kremlin's media machine has tapped into powerful group emotions of shame and humiliation derived from the Soviet transition in the 1990s and has politicized national identity to transform these emotions into pride and patriotism *Treaty Between U.S. and the Russian Federation on Further Reduction and Limitation of Strategic Offensive Arms (the START II Treaty)* *Treaty Doc. 103-1* United States. Congress. Senate. Committee on Foreign Relations, 1994 *The Hidden Minority* Helena Jerman, 2024-11-01 Looking at the Finnish Russian borderland as a transnational space and claiming that there is a need to understand the long term effects of migration a continuing process spanning several generations *The Hidden Minority* takes a multi temporal perspective on mobility and belonging The focus of this ethnographic study is the Russian minority in Finland which is socially economically politically and culturally heterogeneous The Russian minority in Finland is imbued with being hidden or hiding oneself The book explores informants' reflections together with the author on the mental and physical crossing of national borders Perceptions of belonging and or Otherness and lived experience reveal a complex

relationship of embodied memory history time and a multi national social space Information Wars Richard Stengel, 2019-10-08 A well told insider account of the State Department's twenty first century struggle to defend America against malicious propaganda and disinformation The Washington Post Disinformation is nothing new When Satan told Eve nothing would happen if she bit the apple that was disinformation But today social media has made disinformation even more pervasive and pernicious In a disturbing turn of events authoritarian governments are increasingly using it to create their own false narratives and democracies are proving not to be very good at fighting it During the final three years of the Obama administration Richard Stengel former editor of Time was an Under Secretary of State on the front lines of this new global information war tasked with unpacking disproving and combating both ISIS's messaging and Russian disinformation Then during the 2016 election Stengel watched as Donald Trump used disinformation himself In fact Stengel quickly came to see how all three had used the same playbook ISIS sought to make Islam great again Putin tried to make Russia great again and we know the rest In Information Wars Stengel moves through Russia and Ukraine Saudi Arabia and Iraq and introduces characters from Putin to Hillary Clinton John Kerry and Mohamed bin Salman to show how disinformation is impacting our global society He illustrates how ISIS terrorized the world using social media and how the Russians launched a tsunami of disinformation around the annexation of Crimea a scheme that would become a model for future endeavors An urgent book for our times now with a new preface from the author Information Wars challenges us to combat this ever growing threat to democracy A refreshingly frank account revealing Kirkus Reviews This sobering book is indeed needed to help individuals better understand how information can be massaged to produce any sort of message desired Library Journal

Translanguaging in Higher Education Catherine M. Mazak, Kevin S. Carroll, 2016-12-09 This book examines translanguaging in higher education and provides clear examples of what translanguaging looks like in practice in particular contexts around the world While higher education has historically been seen as a monolingual space the case studies from the international contexts included in this collection show us that institutions of higher education are often translingual spaces that reflect the multilingual environments in which they exist Chapters demonstrate how the use of translanguaging practices within the context of global higher education where English plays an increasingly important role allows students and professors to build on their linguistic repertoires to more efficiently and effectively learn content The documentation of such practices within the context of higher education will further legitimize translanguaging practices and may lead to their increased use not only in higher education but also in both primary and secondary schools
