The revival of the bronze statuette popular in classical antiquity stands out as an enduring achievement of
the Italian Renaissance These small sculptures attest to early modern artists technical prowess ingenuity and desire to
emulate or even surpass the ancients From the studioli or private studies of humanist scholars in fifteenth century Padua to
the Fifth Avenue apartments of Gilded Age collectors viewers have delighted in the mysteries of these objects how they were
made what they depicted who made them and when This catalogue is the first systematic study of The Metropolitan Museum
of Art s European Sculpture and Decorative Arts collection of Italian bronzes The collection includes statuettes of single
mythological or religious figures complex figural groups portrait busts reliefs utilitarian objects like lamps and inkwells and
more Stunning new photography of celebrated masterpieces by leading artists such as Antico Riccio and Giambologna

each work in this complex field International scholars provide in depth discussions of 200 objects included in this volume
revealing new attributions and dating for many bronzes An Appendix presents some 100 more complete with provenance and
references An essay by Jeffrey Fraiman provides further insight into Italian bronze statuettes in America with a focus on the
history of The Met s collection and Richard E Stone who pioneered the technical study of bronzes contributes an
indispensable text on how artists created these works and what their process conveys about the object s maker A personal

and lazy Russian prince Catherine mobilized support amongst the Russian nobles playing off of her husband's increasing corruption and abuse of power. She then staged a coup that ended with him being strangled with his own scarf in the halls of the palace and herself crowned the Empress of Russia. Intelligent and determined, Catherine modeled herself off of her grandfather in law Peter the Great and sought to further modernize and westernize Russia. She believed that the best way to do this was through a ravenous acquisition of art which Catherine often used as a form of diplomacy with other powers throughout Europe. She was a self-proclaimed glutton for art and she would be responsible for the creation of the Hermitage, one of the largest museums in the world, second only to the Louvre. Catherine also spearheaded the further expansion of St. Petersburg and the magnificent architectural wonder the city became is largely her doing. There are few women in history more fascinating than Catherine the Great and for the first time Susan Jaques brings her to life through the prism of art.
