Sea Full Of Sharks:

Sharks of the Open Ocean Merry D. Camhi, Ellen K. Pikitch, Elizabeth A. Babcock, 2009-01-21 This important and exciting title represents the first authoritative volume focussed on pelagic open ocean sharks as a group. Virtually every pelagic shark expert in the world has contributed to this landmark publication which includes the latest data and knowledge on pelagic shark biology, fisheries management and conservation. Pelagic sharks face unprecedented levels of exploitation in all the world's oceans through both direct fisheries and bycatch, and effective management for these species is contingent upon solid science and data which this book brings together for the first time. All those involved in shark biology will need to have a copy of this book.

A Sea Full of Sharks Betsy Maestro, 1990 Describes the varieties, habitats, behavior and physical characteristics of sharks.

Close Encounters with Deadly Dangers Kendall Haven, 1998-12-15 The sounds of an anaconda slithering along the steamy jungle floor in search of prey, a lion's breath rippling through the dry savannah grass as it crouches waiting to spring, the frantic thrashing of a seal pup's tail as it recoils from the vicious attack of a tiger shark—these are part of the natural drama of the animal world and daily events when deadly predators come face to face with their prey. This book includes 15 exciting tales that are packed with accurate scientific information. Students will thrill to the dramatic spine-tingling accounts of natural predators in the wild. As they read the stories, they will learn about many of the world's ecosystems from tropical rain forests to the Arctic tundra, from African watering holes to the Pacific reef, from Siberian forests to the Midwest prairie. Each story is followed by suggestions for research and other activities. References on predators and ecosystems are also listed.

Paradise Once Olive Senior, 2025-06-03 A historical novel that brings to life the resiliency of the indigenous Ta'no people in the Caribbean whose culture was virtually destroyed within two generations of their discovery by Christopher Columbus in 1492. *Paradise Once* is a sweeping historical novel that brings to life the resiliency of the indigenous Ta'no people of the Caribbean whose culture was virtually destroyed within two generations of their discovery by Christopher Columbus in 1492. In 1513 in Cuba, an entire village is wiped out by Spanish forces for no discernible reason. Had the villagers offended their spiritual guides, the *cem'es*, as one faction claimed, by incorporating foreign practices? Four youthful survivors escape the massacre: three indigenous and one African runaway. They start off on separate perilous paths, not knowing they have been chosen by the *cem'es* to carry out a sacred mission to ensure the survival of a Sacred Bundle that will enable a Ta'no revival in future generations. But first, an epic spiritual battle must be played out. In this love song to the Caribbean, Olive Senior authentically evokes the physical and spiritual worlds of its First Peoples and the survivors: indigenous and African who will become the resistance fighters known in history as Cimarrones or Maroons.
