**Ocean of Love, or Sea of Troubles?** Geoffrey Harris, 2016-12-22 The title of Dr Harris book suggests that life is like a two-sided coin it can be an Ocean of Love but can also be a Sea of Troubles The subtitle clarifies

this paradox first there are many signs of God's reality and activity in the world and the first section of the book examines ways in which people are aware of God as both a creative and immanent presence in life. The signs of God are not philosophical proofs but empirical realities accessible to all people. In the second section the biblical responses to suffering in the world are explored through both Old and New Testaments. In the third section the writings of two modern apologists C. S. Lewis and Philip Yancey are assessed and then finally there is a chapter of interviews with people who have known suffering in their lives.

**Russia on the Black Sea and Sea of Azof** Henry Danby Seymour, 1855      *Sea of Storms* Stuart B. Schwartz, 2016-07-26 A panoramic social history of hurricanes in the Caribbean. The diverse cultures of the Caribbean have been shaped as much by hurricanes as they have by diplomacy, commerce or the legacy of colonial rule. In this panoramic work of social history Stuart Schwartz examines how Caribbean societies have responded to the dangers of hurricanes and how these destructive storms have influenced the region's history from the rise of plantations to slavery and its abolition to migrations, racial conflict and war. Taking readers from the voyages of Columbus to the devastation of Hurricane Katrina, Schwartz looks at the ethical, political and economic challenges that hurricanes posed to the Caribbean's indigenous populations and the different European peoples who ventured to the New World to exploit its riches. He describes how the United States provided the model for responding to environmental threats when it emerged as a major power and began to exert its influence over the Caribbean in the nineteenth century and how the region's governments came to assume greater responsibilities for prevention and relief efforts that by the end of the twentieth century were being questioned by free market neoliberals. Schwartz sheds light on catastrophes like Katrina by framing them within a long and contentious history of human interaction with the natural world. Spanning more than five centuries and drawing on extensive archival research in Europe and the Americas, *Sea of Storms* emphasizes the continuing role of race, social inequality and economic ideology in the shaping of our responses to natural disaster.

*Sea of Poppies (PB)* Amitav Ghosh, 2009-06 *Sea of Poppies* is a stunningly vibrant and intensely human work that confirms Amitav Ghosh's reputation as a master storyteller. At the heart of this epic saga is a vast ship, the *Ibis*. Its destiny is a tumultuous voyage across the Indian Ocean to the Mauritius Islands. As to the people on board, they are a motley array of sailors and stowaways, coolies and convicts. In a time of colonial upheaval in the mid-nineteenth century, fate has thrown together a truly diverse cast of Indians and Westerners: from a bankrupt Raja to a widowed village woman, from a mulatto American freedman to a free-spirited European orphan. As they sail down the Hooghly and into the sea, their old family ties are washed away and they view themselves as *jahaj bhais* or ship brothers who will build whole new lives for themselves in the remote islands where they are being taken. It is the beginning of an unlikely dynasty.
