Rodger,2022-07-22 This book provides extensive and critical engagement with some of the most recent and compelling arguments favoring abortion choice It features original essays from leading and emerging philosophers bioethicists and medical professionals that present philosophically sophisticated and novel arguments against abortion choice The chapters in this book are divided into three thematic sections The first set of essays focuses primarily on unborn human individuals zygotes embryos and fetuses In these chapters it is argued for example that human organisms begin to exist at conception and that zygotes embryos and fetuses are persons These chapters also explore questions about whether or not zygotes embryos and fetuses are part of their mothers bodies The second set of essays focuses primarily on elective abortion and the debates surrounding it These chapters consider whether or not opponents of abortion are commonly hypocritical how opponents of abortion should think about adoption how emerging technologies may affect the current debate and whether or not those participating in the debate should rely on analogies to support their case Finally the third set of essays shifts focus

from the legal and moral status of elective abortion to its place in medical practice In these chapters it is argued that elective abortion embodies a kind of ableism that elective abortion is medically unnecessary harmful to women s mental health and that telemedicine abortion poses significant risks to women s health Agency Pregnancy and Persons offers an up to date examination of unborn human beings the debates surrounding elective abortion and the place of elective abortion within medical practice It will be of interest to medical professionals and those who work in philosophy bioethics and medical ethics alike
