**The Australian Nexus** Randall Doyle, 2018-06-18 In 2018 Australia finds itself at the center of a geopolitical storm within the Indo Pacific region With the meteoric rise of China and the perceived decline of U S influence and power in East Asia Australia is faced with some rather difficult and uncomfortable questions concerning its economic future and its national security Historically Australia has always had a major power as its key ally especially in terms of its national security In 1901 Australia became a self governing nation However Great Britain continued to protect Australia from potential external enemies because Australia remained an important and valued commonwealth nation within the British empire However at the beginning of the Pacific War during WWII Australia reached out to America after the British colony Singapore collapsed in the face of the oncoming and powerful Japanese imperial military forces in February 1942 With the empire of Japan marching southward in the Pacific region Australian prime minister John Curtin anxiously requested in late December 1941 that America come save the nation from being invaded by the Japanese imperial army and naval forces Due to its own strategic needs against Japan the U S agreed to send its military forces to Australia Thus began a geostrategic relationship that has lasted for seventy five years Hence Australia has remained one of America s most reliable allies throughout the post WWII era But at the end of the second decade of the 21st century the geostrategic dynamics of the Indo Pacific have changed dramatically China s unprecedented rise to power economically militarily and diplomatically has forced Australia to reevaluate its policies and position within the East Asian hemisphere And to further complicate Australia s current predicament America itself is experiencing a major political upheaval with the stunning election of Donald Trump as its new president in 2016 Henceforth Australia increasingly finds itself in uncharted waters geopolitically Australians are confronted with the irrefutable reality that they are living not only in the most pivotal region of the world but one that is in the midst of an historic transformation In essence Australia finds itself at the center of a geostrategic storm

**Travel Writing from Black Australia** Robert Clarke, 2015-11-19 Over the past thirty years the Australian travel experience has been Aboriginalized Aboriginality has been appropriated to furnish the Australian nation with a unique and identifiable tourist brand This is deeply ironic given the realities of life for many Aboriginal people in Australian society On the one hand Aboriginality in the form of artworks literature performances landscapes sport and famous individuals is celebrated for the way it blends exoticism mysticism multiculturalism nationalism and reconciliation On the other hand in the media cinema and travel writing Aboriginality in the form of the lived experiences of Aboriginal people has been exploited in the service of moral panic patronized in the name of white benevolence or simply ignored For many travel writers this irony the clash between different regimes of valuing Aboriginality is one of the great challenges to travelling in Australia Travel Writing from Black Australia examines the ambivalence of contemporary travelers engagements

with Aboriginality Concentrating on a period marked by the rise of discourses on Aboriginality championing indigenous empowerment self determination and reconciliation the author analyses how travel to Black Australia has become for many travelers a means of discovering new and potentially transformative styles of interracial engagement **In search of castaways: South America, Australia, New Zealand** Jules Verne,1911 The Search for Security in the Pacific 1901-1914 Neville Meaney,2009 First published in 1976 The Search for Security in the Pacific 1901 1914 is the first volume in a pioneering two volume history of Australia s relations with the world from the founding of the Commonwealth to the Great War and its immediate aftermath This book is based on wide ranging research in collections of personal and official papers in Australia Britain the United States and Canada and offers original insights into Australia s political culture In taking the story up to the outbreak of the European conflict it shows the great impact that the looming presence of East Asia had on Australia s perception of the world and on the evolution of a distinctive defence and foreign policy It tells the story of how in an age of race nationalism the fear of Asia led first to the making of the Commonwealth and the White Australia policy and then after Japan s defeat of Russia in 1905 to the potential prospect of a military invasion from the north This sense of an Australian Crisis pervaded the whole society and found expression in poetry plays novels cartoons at least one film newspaper editorials as well as political speeches To meet this threat Australian leaders against all the advice from the British authorities introduced compulsory military training and established a navy and a fledgling air force The outbreak of the European war found the Australians resentful about the British betrayal and anxious to know what the Empire s involvement in that conflict might mean for the Pacific This divergence of security concerns created tension between Australia s community of culture and its community of interest between its British identity and its geopolitical circumstances
