War on Sacred Grounds Ron E. Hassner, 2025-05-15 In *War on Sacred Grounds* Ron E. Hassner investigates the causes and properties of struggles over sites that are both venerated and contested and proposes ways for managing these disputes Holy places can create the potential for clashes not only between competing religious groups but also between religious groups and secular actors Hassner illustrates this complex violent dynamic through a series of case studies including the conflict over Jerusalem and competing Hindu and Muslim claims over Ayodhya He also analyses successful compromises that reduced conflict in Jerusalem in 1967 and in Mecca in 1979 In this updated edition of *War on Sacred Grounds* Hassner reevaluates his findings and conclusions and surveys ongoing conflicts over holy sites

Treading on Hallowed Ground C. Christine Fair, Sumit Ganguly, 2008-09-29 After America's Iraq adventure devolved into a debacle a chorus of commentators and analysts noted that the U.S. military had no plan to fight a counterinsurgency campaign Given the failure of conventional tactics America in the last two years has redoubled its efforts to develop a new strategy to fight the Iraqi insurgency and has gone so far to place our leading counterinsurgency expert General David Petraeus in charge of the Iraq theater In sum there seems to be a growing consensus that for better or worse counterinsurgency will be a core tactic in future American military campaigns Iraq of course presents special problems to the U.S. because of the intensity of religious belief and sectarianism How do we fight against an insurgency that so often strategically positions itself on hallowed ground mosques and shrines Yet Iraq is not unique As the contributors to *Treading on Hallowed Ground* show counterinsurgency efforts on religiously contentious terrain is a widespread phenomenon in recent times ranging from North Africa to Central and Southeast Asia Here C. Christine Fair and Sumit Ganguly have assembled an impressive group of experts to explore the most important counterinsurgency efforts in sacred spaces in our era churches in Israel mosques and shrines in Iraq the Sikh Golden Temple in India mosques and temples in Kashmir the Krue Se Mosque in Thailand and the Grand Mosque in Saudi Arabia Taken together the essays comprise the first comprehensive account of this increasingly pivotal component of contemporary war

Back Stories Amahl A. Bishara, 2013-01-09 Few topics in the news are more hotly contested than the Israeli Palestinian conflict and news coverage itself is always a subject of debate But rarely do these debates incorporate an on the ground perspective of what and who newsmaking entails Studying how journalists work in Jerusalem Bethlehem Ramallah and Nablus and on the tense roads that connect these cities Amahl Bishara demonstrates how the production of U S news about Palestinians depends on multifaceted collaborations typically invisible to Western readers She focuses on the work that Palestinian journalists do behind the scenes and below the bylines as fixers photojournalists camerapeople reporters and producers to provide the news that Americans read see and hear every day Ultimately this book demonstrates how Palestinians play integral roles in producing U S news and how U S journalism in turn shapes Palestinian politics U S objectivity is in Palestinian journalists hands and Palestinian self determination cannot be fully understood without attention to the journalist standing off to the side quietly taking notes Back Stories examines news stories big and small Yassir Arafat's funeral female suicide bombers protests against the separation barrier an all but unnoticed killing of a mentally disabled man to investigate urgent questions about objectivity violence the state and the production of knowledge in today's news This book reaches beyond the headlines into the lives of Palestinians during the second intifada to give readers a new vantage point on both Palestinians and journalism Light Force Brother Andrew, Al

Violence, Nonviolence, and the Palestinian National Movement Wendy Pearlman,2011-10-24 Why do some national movements use violent protest and others nonviolent protest Wendy Pearlman shows that much of the answer lies inside movements themselves Nonviolent protest requires coordination and restraint which only a cohesive movement can provide When by contrast a movement is fragmented factional competition generates new incentives for violence and authority structures are too weak to constrain escalation Pearlman reveals these patterns across one hundred years in the Palestinian national movement with comparisons to South Africa and Northern Ireland To those who ask why there is no Palestinian Gandhi Pearlman demonstrates that nonviolence is not simply a matter of leadership Nor is violence attributable only to religion emotions or stark instrumentality Instead a movement's organizational structure mediates the strategies that it employs By taking readers on a journey from civil disobedience to suicide bombings this book offers fresh insight into the dynamics of conflict and mobilization

Through My Enemy's Eyes Salim J Munayer, Lisa Loden, 2014-02-01 This book addresses the universal theological dimension of reconciliation in the context of the Israeli Messianic Jewish and Palestinian Christian divide. Palestinian Christians and Israeli Messianic Jews share a belief in Jesus as the son of God and Messiah. Often though that is all they have in common. This remarkable book, written in collaboration by a local Palestinian Christian and an Israeli Messianic Jew, seeks to bridge this gap by addressing head-on divisive theological issues as well as their political implications such as land, covenant, prophecy, and eschatology, which separate their two communities. The struggle for reconciliation is painful and often extremely difficult for all of us. This unique work seeks to show a way forward.

COMMENDATIONS In a world that wants to see only one side of every conflict and this one especially where people believe only their own propaganda and where many Christians inhabit hard shells of theological, political, and apocalyptic certainties, this book is a bravely different voice. Rather than two voices talking carefully, honestly, graciously, respectfully, and truthfully to each other as sisters and brothers in the Messiah should, this is a unique conversation in which each partner, Messianic Jewish, Israeli, and Palestinian Christian, gives full expression to all that they are and think and feel about themselves and the conflict in their land. We are treated to some stretching theological debate and some honest self-criticism. But above all, we come to share the hope and courage that shines through the pain and struggle.

Christopher J H Wright, International Ministries Director, Langham Partnership, UK. The Palestinian-Israeli divide may be the most intractable conflict of our time. With great courage, honestly facing the turbulent political, historical, and theological landscape, which authentic reconciliation must engage, Munayer and Loden open up fresh space. Given the divides between their communities, this book is a remarkable achievement, a cry of hope from the land where Jesus walked.

Chris Rice, Director of the Center for Reconciliation, Duke Divinity School, USA. **Hamas and Israel** Sherifa Zuhur, 2008. This monograph considers the changing fortunes of the Palestinian movement HAMAS and the recent outcomes of Israeli strategies aimed against this group and Palestinian nationalism external to the Fatah faction of the Palestinian Authority. The example of HAMAS challenges much of the current wisdom on insurgencies and their containment. As the author, Dr. Sherifa Zuhur, demonstrates, efforts have been made to separate HAMAS from its popular support and network of social and charitable organizations. These have not been effective in destroying the organization nor in eradicating the will to resist among a fairly large segment of the Palestinian population. It is important to consider this Islamist movement in the context of a region-wide phenomenon of similar movements with local goals which can be persuaded to relinquish violence or which could move in the opposite direction, becoming more violent. Certainly, an orientation to HAMAS and its base must be factored into new and more practical and effective approaches to peacemaking. At the same time, HAMAS offers a fascinating instance of the dynamics of strategic reactions and the modification of Israeli impulses towards aggressive deterrence as well as evolution in the Islamist movements' planning and operations. As well, the Palestinian-Israeli conflict bears similarities to a long-standing civil conflict, even as it has sparked inter-Palestinian hostilities in its most recent phase. The need for informed

and critical discussion of the future of Islamism in the region continues today We offer this monograph to those who wish to consider this particular aspect of the Palestinian Israeli Arab conflict Foreword
