The Sign of the Cross Daniel Rancour-Laferriere,2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion *The Publishers' Circular and Booksellers' Record* ,1929 The Friend, ed. by R. Smith, Vol. [1st and 2nd eds. of vol.1. The 1st ed. of vol.1 wanting no.7, 14-17, 25, 26]. Robert Smith,1829

Climate Change in the Age of Artificial Intelligence Alexandru Balasescu,2025-06-14 This book invites the reader to follow seemingly unrelated paths towards the same goal making sense of what it means to be human in a world that casually blends discourses on nature technology and biology with ideas of progress optimization and their capitalization at the centre The author critically analyses current thinking which often looks at technological solutions to the challenges posed by climate change and where artificial intelligence is instrumental in fulfilling the promise of ecological capitalism He instead advocates that we take a closer look at the politics of optimization within and outside managerial perspectives which

could reveal that one of the main sources of our repeated failures related to governance and climate change lies not intrinsically in the qualities of the tools we use but in the underlying assumptions with which we design and in the scope of their use. Therefore the book looks at possible solutions for humanity that may lie between the rock of technology and the hard place of nature. That is it asks for a revision in our implicit assumptions for building our tools, critiques the thinking about our relationships with them and re-assesses their use. Richly documented, imaginatively argued and captivatingly written, this book explores unexpected entanglements of nature, culture and technology that emerge in AI's unruly and unforeseen trajectories. George Paul Meiu, Professor of Anthropology, University of Basel, Balasescu develops wide-ranging thick descriptions that provocatively draw together lotus flowers and data banks, snakes and algorithms to delve into how bodies, cultures and power are invisibly ensconced in every aspect of the digital realm. Susan Ossman, Distinguished Professor of Anthropology, University of California, Riverside. This important work traces the evolution and development of the paradigms that made artificial intelligence possible and perhaps even inevitable. Guy Nasmyth, Associate faculty, Royal Roads University. Alec Balasescu skillfully broadens our horizons for not just nuanced thinking and diverse ways of knowing but in a fast-changing landscape how we might more consciously choose to act and relate to nature. Wanda Krause, award-winning author, program head, Global Leadership and associate professor, Royal Roads University.

Peg Entwistle and the Hollywood Sign Suicide James Zeruk, Jr., 2013-11-08. This is the first complete biography of actress Peg Entwistle, known as the Hollywood Sign Girl, because of her suicide fall from the HOLLYWOODLAND sign in 1932. It details her childhood, stage and film career, marriage and divorce, and her suicide, and almost cult-like pop culture status today. Extensively researched and written with the complete cooperation of the Entwistle family, this work includes excerpts from interviews with Peg Entwistle's brother Milton and her cousin Helen Reid, both of whom recalled much of Peg's years living in Hollywood, her career and private life, and her final weeks. It also features many of Peg Entwistle's own words from extant letters to her family and newly discovered interviews with theatrical reporters. Nearly 30 previously unpublished images from the author's collection, the Entwistle family, and a number of other sources complete an intimate look at a life that was defined by far more than its famously unhappy end.

Irish Literature Mary Ketsin, 2004. Irish literature's roots have been traced to the 7th-9th century. This is a rich and hardy literature starting with descriptions of the brave deeds of kings, saints and other heroes. These were followed by generous veins of religious, historical, genealogical, scientific and other works. The development of prose, poetry and drama raced along with the times. Modern well-known Irish writers include William Yeats, James Joyce, Sean Casey, George Bernard Shaw, Oscar Wilde, John Synge and Samuel Beckett.

Antiquarian Bookman, 1960 The Sign Language of Astronomical Mythology Gerald Massey, 2008-01-01. The origin of a saviour in the guise of a little child is traceable to Child Horus, who brought new life to Egypt every year as the Messu of the inundation. This was Horus in his pre-solar and pre-human characters of the fish, the shoot of the papyrus or the branch of the endless years. In a later stage, the

image of Horus on his papyrus represented the young god as solar cause in creation But in the primitive phase it was a soul of life or of food ascending from the water in vegetation as he who climbs the stalk ranging from Child Horus to the Polynesian hero and to Jack ascending heavenward by means of his bean stalk from The Sign Language of Astronomical Mythology It goes unappreciated by modern Egyptologists but it is embraced by those who savor the concept of a hidden history of humanity and those who approach all human knowledge from the perspective of the esoteric Gerard Massey's massive *Ancient Egypt The Light of the World* first published in 1907 and the crowning achievement of the self-taught scholar redefines the roots of Christianity via Egypt proposing that Egyptian mythology was the basis for Jewish and Christian beliefs Here Cosimo proudly presents the combined Books 5 and 6 of *Ancient Egypt* in which Massey discusses the primeval iconic representations that link the Earth and the heavens and ties the oldest understandings of astronomy with the mythology of the creation of the universe and humanity From the symbols and myths of water drowning and floods to those of light and darkness blindness and sight and many others Massey shows how that imagery plays out in the Egyptian zodiac and in turn indelibly influenced modern religion Peculiar and profound this work will intrigue and delight readers of history religion and mythology British author GERALD MASSEY 1828-1907 published works of poetry spiritualism Shakespearean criticism and theology but his best known works are in the realm of Egyptology including *A Book of the Beginnings* and *The Natural Genesis* **The Missionary's Curse and Other Tales from a Chinese Catholic Village** Henrietta

Harrison, 2013-06-01 *The Missionary's Curse* tells the story of a Chinese village that has been Catholic since the seventeenth century drawing direct connections between its history the globalizing church and the nation Harrison recounts the popular folk tales of merchants and peasants who once adopted Catholic rituals and teachings for their own purposes only to find themselves in conflict with the orthodoxy of Franciscan missionaries arriving from Italy The village's long religious history combined with the similarities between Chinese folk religion and Italian Catholicism forces us to rethink the extreme violence committed in the area during the Boxer Uprising The author also follows nineteenth-century Chinese priests who campaigned against missionary control up through the founding of the official church by the Communist Party in the 1950s Harrison's in-depth study provides a rare insight into villager experiences during the Socialist Education Movement and Cultural Revolution as well as the growth of Christianity in China in recent years She makes the compelling argument that Catholic practice in the village rather than adopting Chinese forms in a gradual process of acculturation has in fact become increasingly similar to those of Catholics in other parts of the world *The Publishers Weekly*, 1912 *Bookseller and the Stationery Trades' Journal*, 1889 **Catalogue of the Library of Walter Theodore Watts-Dunton, Esq...** Theodore Watts-Dunton, 1917
