Creating Eartheaven in Your Life Profound Transformation of Your Soul David H. Fastiggi, 2014-05-17 Creating Eartheaven in Your Life is unique and it is innate in all human beings Humanity s quest for a wholesome peaceful life goes unabated Our search for our better self that identifies with the reality of the world we live in all too often filled with grief and stress is juxtaposed with faith and hope for change or a miracle Do we just have faith expecting God will deliver humanity from the ills we have caused Should we just buckle down and be practical seeking solution with our rational self What kind of God do we actually know or are we seeking a relationship with an image of God taught to us What is the divine matrix and does a personal God speak to us Science stands for one view of creation and faith stands for another Is there a joining point of the two Has our species Homo sapiens stalled out in evolutionary development Is the world becoming a village of cooperation and mutual peace seeking Can we continue the way we have been and survive our own

arrogance What is the future of faith religion and spirituality The author in a comprehensive way takes us on a journey to explore answers to these questions and much more Eartheaven is a paradigm of integration between the souls development and our biological body and by extension all creation He delves into scientific reality while preserving in the beginning God created Creating Eartheaven in Your life is a deep exploratory of the souls life in the experience of hurt and suffering and the potential for there to be personal divine human embodiment and therefore earth peace Through ten fundamental teaching combining Jesus words of two thousand years ago an Aramaic understanding the authors revelatory experience in an apparition of Jesus his 44 years life experience psychology and science your reading and learning experience will be a challenge and liberation of the soul Profound transformation is needed and this codex offers the leverage needed to shift our life course towards personal awakening and transformation as well as providing a blue print for future generations Creating Eartheaven in Your Life brings us into universal principles of life a meeting for humanity without walls This volume of two addresses specifically transformation of the soul heaven unfolding Volume two addresses transformation of the body representing the earth and thus eartheaven Granted this book is not an easy read but proves to be a strong mirror reflecting back to us our lives and what we can become fulfilling humanitys evolutionary life potential and perhaps vital to our survival as a people

Temiar Religion, 1964-2012 Geoffrey Benjamin, 2014-09-12 The Temiars a Mon Khmer speaking Orang Asli society living in the uplands of northern Peninsular Malaysia have long attracted popular attention in the West for reports that ascribed to them the special psychotherapeutic technique known as Senoi Dreamwork However the reality of Temiar religion and society as studied and recorded by Geoffrey Benjamin is even more fascinating than that popular portrayal which he shows to be based on a serious misrepresentation of Temiar practice When Benjamin first lived in the isolated villages of the Temiars between 1964 and 1965 he encountered a people who lived by swidden farming supplemented by hunting and fishing They practised their own localised animistic religion in an area where the main religion was once Mahayana Buddhism and is now Islam Half a century later the Temiars have become much more deeply embedded in broader Malaysian society while retaining their distinctive way of life and maintaining their complex animistic religious beliefs Benjamin s ongoing fieldwork in the 1970s 1990s and 2000s followed the Temiars through processes of religious disenchantment and re enchantment as they reacted in various ways to the advent of Baha i Islam and Christianity Some Temiars even developed a new religion of their own In addition to its rich ethnographic reportage the book proposes a novel theory of religion and in the process develops a deeply insightful account of the changing intellectual framework of anthropology over the past half century

Being, the Radiant Force Within Nathan Mathewson Shippee, 2008-07-10 AWAKENING AWARENESS During the course of preparing for publication many personal interviews were made in a test of the present stage of awareness of an individuals sense of self of who the I am really is These interviews were generally spontaneous conducted in a natural setting during a conversation in which I would take advantage of a pause and quietly say I am going to ask you three questions

which will change your awareness of who you really are You will simply give me one word answers and by doing so you will begin to think of yourself in a new way First Are you more than a body Yes I am more than a body Second Since you are more than a body what is the more What is the more than my body My Soul Third Since your soul is more than your body think now are you a body with a soul or are you a soul in a body Which has domain your body or your soul Which is the real you Longer pause Most replied by saying I am a soul in a body With or in is determinative and the one you choose like a fork in the road will control your path ahead If one chooses with it is an admission that Darwin is right we are Homo sapiens intelligent animals descended from the ape As Donald Trump said Life is what you do when you are waiting to die If one chooses in then one believes we cannot die We are Human Beings ascended from within on the earth but not of it destined to graduate when our bodies die and we return to the universe from whence we came as Souls in the form of radiant energy The key to the fork in the road is awareness for we become as we think Who we think we are is that which we become Descended from the ape or ascended from within there is magic in the awakening of awareness of who is in control during our time of life on earth and the personal awareness of who I am ignites the presence of enthusiasm within us theos God within BEING is Nathan Shippees autobiography of his Soul following his out of body experience A Treatise of the Soul of Man John Flavel, 1698 Music of the Soul Joy S. Berger, 2012-10-12 Music of the Soul guides the reader through principles techniques and exercises for incorporating music into grief counseling with the end goal of further empowering the grieving person Music has a unique ability to elicit a whole range of powerful emotional responses in people even so far as altering or enhancing one's mood as well as physical reactions This interdisciplinary text draws in equal parts from contemporary grief loss theory music therapy research historical examples of powerful music case studies and both self reflecting and teaching exercises Music is as much about beginnings as endings and thus the book moves through life's losses into its new beginnings using musical expression to help the bereaved find meaning in loss and hurt and move forward with their lives With numerous exercises and examples for implementing the use of music in grief counseling the book offers a practical and flexible approach to a broad spectrum of mental health practitioners from thanatologists to hospice staff at all levels of professional training and settings **Supernatural, Humanity, and the Soul** Susan A. George, 2014-09-03 Through nine seasons the TV show Supernatural has delved into social philosophical literary and theological themes that not only add depth to the show but reflect our era's intellectual concerns This book contextualizes Supernatural within the renaissance of the fantastic in pop culture and traces its roots in folklore and Biblical narrative Supernatural Out of the Box Lisa Macklem, Dominick Grace, 2020-07-31 Supernatural is one of the most successful horror TV shows ever providing fifteen seasons of the adventures of Dean and Sam Winchester as they hunt monsters and save the world It has nurtured a passionate fan base which has been far more directly integrated into the show than is typical Wry and self aware Supernatural repeatedly breaks out of the televisual box to acknowledge its fans and its own fictionality Though there have

already been several studies of Supernatural this volume is the first to focus extensively and intensively on the show's metafictional elements This essay collection argues that Supernatural is not merely a horror show but is a show about how horror works as a genre and how fans interact with their favorite material From exploring how the show has equated authorship with divinity to considering its incorporation of fandom and closely reading several key episodes the essays in this volume seek to examine the multiple layers of textuality found in Supernatural *Feeding Your Soul with Food from the Father's Table* Dr. Willie R.
