Season Of The Machete:

Season of the Machete James Patterson,2006-06-01 Two killers are chasing an American man who s about to face cold blooded terror on a picture perfect vacation and discover a truth that could destroy them all Cool and glamorous they appear to be a successful couple on a holiday but Damian and Carrie Rose are psychopathic murderers for hire On this picture perfect vacation island their target is Peter Macdonald a dashing young American who forsakes a life of leisure to confront cold blooded terror But when they clash in a shocking endgame a hideous truth will emerge one that might destroy them all

Evil, Political Violence, and Forgiveness Andrea Veltman,Kathryn J. Norlock,2009-09-24 Until recently philosophers have discussed evil primarily in theodical contexts in pondering why a perfect God does not abolish evil Evil Political Violence and Forgiveness Essays in Honor of Claudia Card reflects a burgeoning interest among philosophers in a broader array of ethical and political questions concerning evils Written in tribute to Claudia Card_whose distinguished academic career has culminated in the development of a new theory of evil_this collection of new essays explores the concept of evil the multifaceted harms of brutal political violence and the appropriateness of forgiveness as an ethical response to evils Evil Political Violence and Forgiveness brings together an international cohort of distinguished philosophers who mediate with Card upon an array of twentieth century atrocities and on the nature of evil actions persons and institutions Contributors explore questions such as What distinguishes evil from lesser wrongdoing Is culpable wrongdoing a necessary component of evil How are we to understand atrocious political violence What are the best moral and political responses to atrocities Are there moral obligations to forgive contrite perpetrators of evils and Can anyone claim moral innocence amid a climate of evildoing *Worse Than War* Daniel Jonah Goldhagen,2009-10-06 Daniel Jonah Goldhagen s books are events They stir passionate public debate among political and civic leaders scholars and the general public because they compel

people to rethink the most powerful conventional wisdoms and stubborn moral problems of the day *Worse Than War* gets to the heart of the phenomenon genocide that has caused more deaths in the modern world than military conflict In doing so it challenges fundamental things we thought we knew about human beings society and politics Drawing on extensive field work and research from around the world Goldhagen explores the anatomy of genocide explaining why genocides begin are sustained and end why societies support them why they happen so frequently and how the international community should and can successfully stop them As a great book should *Worse than War* seeks to change the way we think and to offer new possibilities for a better world It tells us how we might at last begin to eradicate this greatest scourge of humankind

Phenomenologies of the Stranger Richard Kearney, Kascha Semonovitch, 2011 What is strange Or better who is strange When do we encounter the strange This volume takes the question of hosting the Stranger to the deeper level of embodied imagination and the senses It asks How does the embodied imagination relate to the Stranger in terms of hospitality or hostility given the common root of hostis as both host and enemy How do humans sense the dimension of the strange and alien in different religions arts and cultures How do the five physical senses relate to the spiritual senses especially the famous sixth sense as portals to an encounter with the Other Is there a carnal perception of alterity which would operate at an affective prereflective preconscious level What exactly do embodied imaginaries of hospitality and hostility entail And what finally are the topical implications of these questions for an ethics and practice of tolerance and peace Empire of Liberty Anthony Bogues, 2010 An original and stimulating critique of American empire **Final**

Solutions Sabby Sagal, 2013-10-09 What causes genocide Through an examination of four modern genocides the Native Americans the Armenians the Jews and the Rwandan Tutsis Sabby Sagal formulates a theoretical framework for understanding some of the darkest hours of humanity Drawing on the scholarship of a range of Marxist psychoanalysts from the Frankfurt School to Wilhelm Reich shows how genocides are enacted by social classes or communities that have experienced isolation and denial of human needs prostration and humiliation at the hands of major historical defeats or powerlessness These denials or degradations produce severe reactions hatred destructiveness and an impotent rage which is often projected onto a perceived other Through close analysis and theorising of the commonalities and differences between recent genocides Sagal hopes to produce greater understanding of the socio psychological rationale behind atrocities in order to prevent recurrences *Genocide, Mass Atrocity, and War Crimes in Modern History* James Larry

Taulbee, 2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law *Genocide Mass Atrocity and War Crimes in Modern History* Blood and Conscience is an easy to understand resource that

explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs

Unconscionable Crimes Paul C. Morrow, 2020-09-22

The first general theory of the influence of norms moral legal and social on genocide and mass atrocity How can we explain and prevent such large scale atrocities as the Holocaust In *Unconscionable Crimes* Paul Morrow presents the first general theory of the influence of norms moral legal and social on genocide and mass atrocity After offering a clear overview of norms and norm transformation rooted in recent work in moral and political philosophy Morrow examines numerous twentieth century cases of mass atrocity drawing on documentary and testimonial sources to illustrate the influence of norms before during and after such crimes

Embodied Difference Jamie A. Thomas, Christina Jackson, 2019-02-20 Focusing on the body as a visual and discursive platform across public space we study marginalization as a sociocultural practice and hegemonic schema Whereas mass incarceration and law enforcement readily feature in discussions of institutionalized racism we differently highlight understudied sites of normalization and exclusion Our combined effort centers upon physical contexts skeletons pageant stages gentrifying neighborhoods discursive spaces medical textbooks legal battles dance pedagogy vampire narratives and philosophical arenas morality genocide physician assisted suicide cryonic preservation transfeminism to deconstruct seemingly intrinsic connections between body and behavior Whiteness and normativity
