Parsons, 2021-12-12 *Susan Sontag An Annotated Bibliography* catalogues the works of one of America's most prolific and important 20th century authors Known for her philosophical writings on American culture topics left untouched by Sontag's writings are few and far between This volume is an exhaustive collection that includes her novels essays reviews films and interviews Each entry is accompanied by an annotated bibliography **Collected Poems of Lenore Kandel** Lenore Kandel, 2012-04-10 Jack Kerouac immortalized her

in his novel *Big Sur* A student of Zen she hung out with Gary Snyder and Allen Ginsberg and was a speaker at San Francisco's Human Be In But Lenore Kandel was no muse or hanger on she was a brilliant lyric poet often unabashedly erotic and that's where her legacy lies *Collected Poems of Lenore Kandel* contains 80 examples of her art from the holy erotica of her early years to later more contemplative works Many of the poems have never been published others only in rare ephemeral publications Some are explicit celebrating carnal love as part of the divine Others are humorous and cover more quotidian subjects A recurring theme is the divine animal duality The collection includes poems written from the early fifties up until Kandel's death The paradox of Lenore Kandel is that despite her prodigious talent she was one of the least read and critically appreciated of modern poets Kandel found her voice at a time when the Beat era was giving way to the countercultural age and though she straddled both eras it meant that she also fell through the cracks in terms of recognition Now for the first time the full range of her work appears in one volume

Baroness Elsa Irene Gammel, 2003-08-29 The first biography of the enigmatic dadaist known as the Baroness Elsa von Freytag Loringhoven Elsa von Freytag Loringhoven 1874-1927 is considered by many to be the first American dadaist as well as the mother of dada An innovator in poetic form and an early creator of junk sculpture the Baroness was best known for her sexually charged often controversial performances Some thought her merely crazed others thought her a genius The editor Margaret Anderson called her perhaps the only figure of our generation who deserves the epithet extraordinary Yet despite her great notoriety and influence until recently her story and work have been little known outside the circle of modernist scholars In *Baroness Elsa* Irene Gammel traces the extraordinary life and work of this daring woman viewing her in the context of female dada and the historical battles fought by women in the early twentieth century Striding through the streets of Berlin Munich New York and Paris wearing such adornments as a tomato soup can bra teaspoon earrings and black lipstick the Baroness erased the boundaries between life and art between the everyday and the outrageous between the creative and the dangerous Her art objects were precursors to dada objects of the teens and twenties her sound and visual poetry were far more daring than those of the male modernists of her time and her performances prefigured feminist body art and performance art by nearly half a century

Entheogens and the Development of Culture John A. Rush, 2013-07-30 *Entheogens and the Development of Culture* makes the radical proposition that mind altering substances have played a major part not only in cultural development but also in human brain development Researchers suggest that we have purposely enhanced receptor sites in the brain especially those for dopamine and serotonin through the use of plants and fungi over a long period of time The trade off for lowered functioning and potential drug abuse has been more creative thinking or a leap in consciousness Experiments in entheogen use led to the

development of primitive medicine in which certain mind altering plants and fungi were imbibed to still fatigue pain or depression while others were taken to promote hunger and libido Our ancestors selected for our neural hardware and our propensity for seeking altered forms of consciousness as a survival strategy may be intimately bound to our decision making processes going back to the dawn of time Fourteen essays by a wide range of contributors including founding president of the American Anthropological Association s Anthropology of Religion section Michael Winkelman PhD Carl A P Ruck PhD Boston University professor of classics and an authority on the ecstatic rituals of the god Dionysus and world renowned botanist Dr Gaston Guzman member of the Colombian National Academy of Sciences and expert on hallucinogenic mushrooms demonstrate that altering consciousness continues to be an important part of human experience today Anthropologists cultural historians and anyone interested in the effects of mind altering substances on the human mind and soul will find this book deeply informative and inspiring *Encyclopedia of Homosexuality* Wayne R. Reconsidering Drugs NA NA,2016-04-30 Lawrence Driscoll s fresh examination of the meaning of drugs from the Victorians to the present asks us to listen to historical and current voices whose positions on drugs are at variance with our truths Driscoll draws on the work of figures as diverse as William Burroughs Sigmund Freud Conan Doyle and Anna Kavan to shed light on different or silenced ways of talking about drugs and to offer us a historical counter memory The result of his work is to unsettle and disturb the familiar parameters that frame our discussion of drugs revealing that others are available positions which expose our own constructions as surprisingly limited *National Library of Medicine Current Catalog*
