A CRITICAL STUDY OF THE SELECT NOVELS OF SALMAN RUSHDIE Dr. Abhibunnisha Begum, 2019-03-26 Indian writing in English is the term which denotes the original creative writings by Indians It is the literature originally written in English by writers including the expatriate Indian writers like Salman Rushdie India's contribution to world literature especially of the twentieth century has been mostly in the field of fiction in English The novels reflected realistic picture of the period to which the novelist belongs

Historical Romance Fiction Lisa Fletcher, 2016-04-22 The first book length study of romance novels to focus on issues of sexuality rather than gender Historical Romance Fiction moves the ongoing debate about the value and appeal of heterosexual romance onto new ground testing the claims of cutting edge critical theorists on everything from popular classics by Georgette Heyer to recent bodice rippers to historical fiction by John Fowles and A S Byatt Beginning with her nomination of I love you as the romance novel's defining speech act Lisa Fletcher engages closely with speech act theory and recent studies of performativity The range of texts serves to illustrate Fletcher's definition of historical romance as a fictional mode dependent on the force and familiarity of the speech act I love you and permits Fletcher to provide a detailed account of the genre's history and development in both its popular and literary manifestations Written from a feminist and anti homophobic perspective Fletcher's subtle arguments about the romantic speech act serve to demonstrate the genre's dependence on repetition Romance can only quote and the shaky ground on which the romance's heterosexual premise rests Her exploration of the subgenre of cross dressing novels is especially revealing in this regard With its deft mix of theoretical arguments and suggestive close readings

Fletcher's book will appeal to specialists in genre speech act and performativity theory and gender studies

The Robotic Imaginary Jennifer Rhee, 2018-10-16. Tracing the connections between human-like robots and AI at the site of dehumanization and exploited labor, the word robot introduced in Karel Čapek's 1920 play *R.U.R.* derives from *rabota*, the Czech word for servitude or forced labor. A century later, the play's dystopian themes of dehumanization and exploited labor are being played out in factories, workplaces, and battlefields. In *The Robotic Imaginary*, Jennifer Rhee traces the provocative and productive connections of contemporary robots in technology, film, art, and literature. Centered around the twinned processes of anthropomorphization and dehumanization, she analyzes the coevolution of cultural and technological robots and artificial intelligence, arguing that it is through the conceptualization of the human and more important, the dehumanized, that these multiple spheres affect and transform each other. Drawing on the writings of Alan Turing, Sara Ahmed, and Arlie Russell Hochschild, such films and novels as *Her* and *The Stepford Wives*, technologies like *Kismet*, the pioneering emotional robot, and contemporary drone art, this book explores anthropomorphic paradigms in robot design and imagery in ways that often challenge the very grounds on which those paradigms operate in robotics labs and industry. From disembodied conversational AI and its entanglement with care labor, embodied mobile robots as they intersect with domestic labor, emotional robots impacting affective labor, and armed military drones and artistic responses to drone warfare, *The Robotic Imaginary* ultimately reveals how the human is made knowable through the design of and discourse on humanoid robots that are paradoxically dehumanized.

Mobility and Corporeality in Nineteenth- to Twenty-First-Century Anglophone Literature Jaine Chemmachery, Bhawana Jain, 2021-05-19. Mobility and Corporeality in

19th and 21st Century Anglophone Literature Bodies in Motion aims at exploring the intersection of literary mobility and body studies in Anglophone literature from the 19th century to the 21st century Corporeal mobility includes a variety of mobile bodies that have long been othered and marginalised due to issues pertaining to gender disability race and class Yet there is a relative lack of academic work on it despite the fact that Anglophone literature has increasingly portrayed the circulation of characters objects and information since the 19th century echoing the many types of mobility that have occurred through processes of colonisation decolonisation and globalisation This book therefore discusses the ways in which literatures produced in the English speaking world challenge normative depictions of bodies on the move and reconceptualise them by making corporeality an essential feature of movement across the world
