**Having** William Schweiker, Charles T. Mathewes, 2004 In today's market economies people constitute much of their identity in relation to the things they possess and communities facilitate social intercourse and survival by means of property

relations What if anything might the study of the biblical religions contribute to thinking about and responding to the basic reality of having In this book scholars in a variety of fields theology ethics economics and biblical studies address in new and penetrating ways the meaning of having in religious and social life and offer a number of compelling answers to challenging questions about property and possession in our present global age *History and Morality* Donald Bloxham,2020-07-02

Against majority opinion within his profession Donald Bloxham argues that it is legitimate often unavoidable and frequently important for historians to make value judgements about the past *History and Morality* draws on a wide range of historical examples and its author s insights as a practicing historian Examining concepts like impartiality neutrality contextualisation and the use and abuse of the idea of the past as a foreign country Bloxham s book investigates how far tacit moral judgements infuse works of history and how strange those histories would look if the judgements were removed The author argues that rather than trying to eradicate all judgemental elements from their work historians need to think more consistently about how and with what justification they make the judgements that they do The importance of all this lies not just in the responsibilities that historians bear towards the past responsibilities to take historical actors on those actors own terms and to portray the impact of those actors deeds but also in the role of history as a source of identity pride and shame in the present The account of moral thought in *History and Morality* has ramifications far beyond the activities of vocational historians *The Sense of the Past* Bernard Williams,2009-02-09 Before his death in 2003 Bernard Williams planned to publish a collection of historical essays focusing primarily on the ancient world This posthumous volume brings together a much wider selection written over some forty years His legacy lives on in this masterful work the first collection ever published of Williams s essays on the history of philosophy The subjects range from the sixth century B C to the twentieth A D from Homer to Wittgenstein by way of Socrates Plato Aristotle Descartes Hume Sidgwick Collingwood and Nietzsche Often one would be hard put to say which part is history which philosophy Both are involved throughout because this is the history of philosophy written philosophically Historical exposition goes hand in hand with philosophical scrutiny Insights into the past counteract blind acceptance of present assumptions In his touching and illuminating introduction Myles Burnyeat writes of these essays They show a depth of commitment to the history of philosophy seldom to be found nowadays in a thinker so prominent on the contemporary philosophical scene The result celebrates the interest and importance to philosophy today of its near and distant past *The Sense of the Past* is one of three collections of essays by Bernard Williams published by Princeton University Press since his death In the Beginning Was the Deed Realism and Moralism in Political Argument selected edited and with an introduction by Geoffrey Hawthorn and *Philosophy as a Humanistic Discipline* selected edited and with an introduction by A W Moore make up the trio **Managing Emotion in Byzantium** Margaret Mullett,Susan Ashbrook Harvey,2022-09-30 Byzantinists entered the study of emotion with Henry Maguire s ground breaking article on sorrow published in 1977 Since then classicists and western medievalists have developed new ways of understanding how

emotional communities work and where the ancient concepts of emotion differ from our own and Byzantinists have begun to consider emotions other than sorrow. It is time to look at what is distinctive about Byzantine emotion. This volume is the first to look at the constellation of Byzantine emotions. Originating at an international colloquium at Dumbarton Oaks, these papers address issues such as power, gender, rhetoric or asceticism in Byzantine society through the lens of a single emotion or cluster of emotions. Contributors focus not only on the construction of emotions with respect to perception and cognition but also explore how emotions were communicated and exchanged across broad multi-linguistic, political and social boundaries. Priorities are twofold: to arrive at an understanding of what the Byzantines thought of as emotions and to comprehend how theory shaped their appraisal of reality. *Managing Emotion in Byzantium* will appeal to researchers and students alike interested in Byzantine perceptions of emotion, Byzantine culture and medieval perceptions of emotion. **The**

**Enlargement of Life** John Kekes, 2018-07-05 Moral imagination according to John Kekes is indispensable to a fulfilling and responsible life. By correcting a parochial view of the possibilities available to us and overcoming mistaken assumptions about our limitations, moral imagination liberates us from self-imposed narrowness. It enlarges life by enabling us to reflect more deeply and widely about how we should live. The material for this reflection, Kekes believes, is supplied by literature. Each of the eleven chapters of the book focuses on a novel, play or autobiography that exemplifies the protagonist's reflective self-evaluation. Kekes shows the enduring significance of these protagonists' successes or failures and how we might apply what they teach to our very different characters and circumstances. Kekes discusses John Stuart Mill's *Autobiography*, the Oedipus tragedies by Sophocles, *Age of Innocence* by Edith Wharton, Henry James's *The Ambassadors* and *The Golden Bowl*, Montaigne's *Essays*, a story by Herodotus and Arthur Koestler's *Arrival and Departure*. Throughout, Kekes shows that moral thought must be concrete, not abstract; that good reasons for or against how we live and what choices we make are available but must be particular, not universal; and that the rigid separation of literature, psychology and moral thought is detrimental to all three.

**Compassion and Remorse** Steven Tudor, 2001 This book articulates in rich and complex ways the nature of two important moral emotions or ways of being: compassion and remorse. As an exemplar of the agent-centred tradition in normative ethical theory, it is a fine piece of work exhibiting one of the more admirable and enjoyable aspects of work in that tradition: the ability to build bridges between a variety of philosophical traditions. Steven Tudor makes excellent use of authors in both the analytic and continental traditions while maintaining an admirable clear style. The book elucidates in nuanced and quite sophisticated ways the various aspects of compassion and remorse and how they are distinguishable from neighbouring and less valuable states such as pity, empathy, guilt, feelings of shame and regret. At the same time, it acknowledges and combats various criticisms of compassion and remorse as moral responses by distinguishing between distorted and undistorted forms of these states. *Compassion and Remorse: Acknowledging the Suffering Other* is an interesting and intelligent work of philosophy. Dr Christine Swanton, University of Auckland, New Zealand, author of *Freedom: A Coherence*

Theory winner of Johnsonian Prize 1990 Steven Tudor's book examines two important features of moral experience compassion and remorse both of which deserve a central place in the contemporary revival of virtue theory Both involve the recognition of other people's suffering while the second also involves a personal recognition of in some cases responsibility for that suffering Drawing on a number of sources phenomenology theology postmodernism and the philosophy of Wittgenstein Tudor interprets these important moral responses not as bare cognitions but in terms of understanding feeling and practical engagement Following a path of clear and cogent arguments he develops a number of moral themes so as to sketch an illuminating conception of the moral life This is a book for the thoughtful and reflective participant in those moral debates which touch on our personal relations with and responsibility for each other What it offers the reader in the end is a strong defence of moral universality and a common human nature Professor Brenda Almond University of Hull author of Exploring Ethics A Traveller's Tale 1998 and Vice President of the Society for Applied Philosophy Dr Steven Tudor studied philosophy and law at the University of Melbourne Australia where he is currently a Senior Fellow in the Department of Philosophy He also practises law as a barrister

**The Oxford Handbook of the History of Ethics** Roger Crisp, 2013-01-31 Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live The Oxford Handbook of the History of Ethics explores the history of philosophical ethics in the western tradition from Homer until the present day It provides a broad overview of the views of many of the main thinkers schools and periods and includes in addition essays on topics such as autonomy and impartiality The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades

**The Darkened Light of Faith** Melvin L. Rogers, 2023-09-26 A powerful new account of what a group of nineteenth and twentieth century African American activists intellectuals and artists can teach us about democracy Could the African American political tradition save American democracy African Americans have had every reason to reject America's democratic experiment Yet African American activists intellectuals and artists who have sought to transform the United States into a racially just society have put forward some of the most original and powerful ideas about how to make America live up to its democratic ideals In The Darkened Light of Faith Melvin Rogers provides a bold new account of African American political thought through the works and lives of individuals who built this vital tradition a tradition that is urgently needed today The book reexamines how figures as diverse as David Walker Frederick Douglass Anna Julia Cooper Ida B Wells W E B Du Bois Billie Holiday and James Baldwin thought about the politics people character and culture of a society that so often dominated them Sharing a light of faith darkened but not extinguished by the tragic legacy of slavery they resisted the conclusion that America would always be committed to white supremacy They believed that democracy is always in the

process of becoming and that they could use it to reimagine society But they also saw that achieving racial justice wouldn't absolve us of the darkest features of our shared past and that democracy must be measured by how skillfully we confront a history that will forever remain with us An ambitious account of the profound ways African Americans have reimagined democracy The Darkened Light of Faith offers invaluable lessons about how to grapple with racial injustice and make democracy work

**Tragic Views of the Human Condition** Lourens Minnema, 2013-06-06 Can tragic views of the human condition as known to Westerners through Greek and Shakespearean tragedy be identified outside European culture in the Indian culture of Hindu epic drama In what respects can the Mahabharata epic's and the Bhagavadgita's views of the human condition be called tragic in the Greek and Shakespearean senses of the word Tragic views of the human condition are primarily embedded in stories Only afterwards are these views expounded in theories of tragedy and in philosophical anthropologies Minnema identifies these embedded views of human nature by discussing the ways in which tragic stories raise a variety of anthropological issues issues such as coping with evil suffering war death values power sacrifice ritual communication gender honour injustice knowledge fate freedom Each chapter represents one cluster of tragic issues that are explored in terms of their particular Greek English Indian settings before being compared cross culturally In the end the underlying question is are Indian views of the human condition very different from Western views
