Shame Management Through Reintegration:

Shame Management Through Reintegration Eliza Ahmed, 2001-10-15 This 2001 book is a follow on to John Braithwaite's best selling and influential Crime Shame and Reintegration. Shame management is becoming a central concept in theoretical and practical terms. This book makes a major contribution to the advancement of shame in a theoretical sense. For criminology as well as for psychology, sociology and other areas, this accessible book serves as an introduction to the concepts of shame, guilt and embarrassment. Presenting research by the Restorative Justice Centre at the Australian National University, the book contributes immeasurably to the development of practical alternatives to common sanctions in an effort to reduce crime and other social problems. Written by the key exponents of restorative justice, the book is an important re-statement of the theory and practice of shaming. It will develop important and often controversial debates about punishment, shaming and restorative justice to a new level. **Repositioning Restorative Justice** Lode Walgrave, 2012-12-06

Restorative justice has become an increasingly important element in reform and change to criminal justice systems throughout the western world and there are many reasons for satisfaction with the progress that has been made from the point of view of victims, offenders, the level and incidence of reoffending and in terms of public opinion. At the same time there has been cause for concern, not least to do with the confusion of aims that has accompanied the rapid spread of restorative justice practices, an over-estimate of its possibilities, a blurring of concepts and a lack of attention to legal rights and processes. This book, based on papers presented at the 5th international conference held at Leuven, Belgium in 2002, aims to provide an overview of recent experience of restorative justice in the light of these concerns. The central theme is the positioning or repositioning of restorative justice in contexts where it can offer hope to communities both fearful of crime and looking for more socially constructive responses to crime. At the same time, restorative justice practitioners seek definition in relation to the kinds of crime it is appropriate to apply restorative justice to, how it relates to different forms of punishment, to rehabilitation and how it fits in with criminal justice systems and the law of different countries, how to reconcile the informal participatory philosophy of restorative justice with formal legal processes and the need for legal safeguards. [Encyclopedia of Victimology and Crime Prevention](#) Bonnie S. Fisher, Steven P. Lab, 2010-02-02 Victimology and crime prevention are growing interrelated areas cutting across several disciplines. Victimology examines victims of all sorts of criminal activity from domestic abuse to street violence to victims in the workplace who lose jobs and pensions due to malfeasance by corporate executives. Crime prevention is an important companion to victimology because it offers insight and techniques to prevent situations that lead to crime and attempts to offer ideas and means for mitigating or minimizing the potential for victimization. In many ways the two fields have developed along parallel yet separate paths and the literature on both has been scattered across disciplines as varied as sociology, law and criminology, public health and medicine, political science and public policy, economics, psychology and human services and more. The Encyclopedia of Victimology and Crime Prevention

Families Shamed Rachel Condry, 2013-01-10 This book examines the experiences of relatives of those accused or convicted of serious crimes such as murder manslaughter rape and sex offences A broader literature exists on prisoners families but few studies have looked specifically at those related to serious offenders or considered their experience other than as prison visitors Many of the difficulties faced by mundane prisoners families are magnified for the relatives of serious offenders first by the length of sentence and secondly by the seriousness and stigmatizing impact through association of the offence itself Families Shamed draws upon intense qualitative research which combines long searching interviews with the relatives of serious offenders with ethnographic fieldwork over a period of several years The book focuses on how relatives made sense of their experiences individually and collectively how they described the difficulties they faced whether they were blamed and shamed and in what manner how they understood the offence and the circumstances which had brought it about and how they dealt with the contradiction inherent in supporting someone and yet not condoning his or her actions This is the first book to tell the story of serious offenders families the difficulties they face and their attempts to overcome them At the same time a focus on offenders families also draws our attention to the ways in which women are affected by crime illuminating the broader effects of crime and the criminal justice process on the proportionately greater number of women involved It contributes also to wider debates about the social organization of the meanings of crime and questions the tenability of some core policy assumptions about offenders and their families the relationship between the state and the family and its bearing especially on expectations about family responsibilities

increasing concerns about the moral status of its political elite and extreme hostility between political blocs leading to polarized views on governance This book will be of interest to academics specializing in empirical moral studies and investigating public discussions in contentious and polarized societies *Criminal Justice Theory, Volume 26* Cecilia Chouhy, Joshua C. Cochran, Cheryl Lero Jonson, 2020-02-14 Criminal Justice Theory Explanations and Effects undertakes a systematic study of theories of the criminal justice system which historically have received very little attention from scholars This is a glaring omission given the risk of mass imprisonment the increasing presence of police in inner city communities and the emergence of new policy initiatives aimed at improving the quality and effectiveness of the administration of justice Fortunately however a number of disparate theoretical works have appeared that seek to provide insight into the nature and impact of criminal justice Based on 13 original essays by influential scholars this volume pulls together the most significant of these perspectives thus creating a state of the art assessment of contemporary criminal justice theory Criminal justice theory can be divided into two main categories The first includes works that seek to explain the operation of the criminal justice system Most of these contributions have grappled with the core reality of American criminal justice its rising embrace of punitiveness and the growth of mass imprisonment The second category focuses on works that identify theories that have often guided efforts to reduce crime The issue here focuses mainly on the effects of certain theoretically guided criminal justice interventions The current volume is thus organized into these two categories explanations and effects The result is an innovative and comprehensive book that not only serves researchers by advancing scholarship but also is appropriate for advanced undergraduate or graduate classroom use *The Oxford Handbook of Criminology* Alison Liebling, Shadd Maruna, Lesley McAra, 2023 With contributions from leading authorities this is the definitive guide to current criminological theory research and policy The Oxford Handbook of Criminology provides a comprehensive collection of chapters covering the core and emerging topics studied on criminology courses indispensable to students academics and professionals alike 43 chapters written by over 85 leading academics exploring relevant theory cutting edge research policy developments and current debates encouraging students to appreciate the diverse and interdisciplinary nature of criminological discourse Includes detailed references to aid further research Chapters updated to reflect recent cases statistics and scholarship as well as significant current events such as Covid 19 and social justice movements New chapters added presenting research on topical issues including victimology hate crime desistance cybercrime atrocity crimes convict criminology security and smart cities prison abolitionism comparative criminology sex offending and network criminology Digital formats and resources The seventh edition is available for students and institutions to purchase in a variety of formats and is supported by online resources The e book offers a mobile experience and convenient access along with functionality tools navigation features and links that offer extra learning support www.oxfordtextbooks.co.uk/ebooks The accompanying online resources include essay questions and links to useful websites for each chapter along with guidance on answering essay questions and access to

chapters from previous editions *Acknowledging, Supporting and Empowering Workplace Bullying Victims* Jillian Williamson Yarbrough, 2023-09-12 This book identifies potential support for workplace victimization through an examination of employee s needs and needs based motivation theories Based on contemporary research in victimology and long standing needs based theories it outlines how workplace bullying victims needs can be identified and how victims of workplace harassment can be empowered through the development and attainment of their unmet needs The volume will be of interest to practitioners at the intersection of organizational and forensic psychology practitioners examining lacking needs as motivators for workplace bullying or harassment Strengths-Based Approaches to Crime and Substance Use David Best, Charlotte Colman, 2019-09-30 Although there is a strong and growing literature in the two areas of desistance and addiction recovery they have developed along parallel pathways with little systematic assessment of the empirical evidence about the co occurrence of the relationship or how one area can learn from the other This book aims to fill that gap by bringing together emerging literature on the relationship between offending and substance use Instead of focusing on the active period of its onset and persistence this book examines the mechanisms that support desistance addiction recovery and the common themes of reintegration and rehabilitation With contributions from a wide range of international experts in the fields of desistance and addiction recovery the book focuses on a strengths based relational and community focused approach to long term change in offending and drug using populations as well as the shared barriers to effective reintegration for both This book will be highly informative for a wide audience from academics and students interested in studying desistance and recovery to those working in addiction services and the criminal justice system as well as policy makers and the people undertaking their own journeys to desistance and recovery Emotions, Crime and Justice Susanne Karstedt, Ian Loader, Heather Strang, 2011-04-01 The return of emotions to debates about crime and criminal justice has been a striking development of recent decades across many jurisdictions This has been registered in the return of shame to justice procedures a heightened focus on victims and their emotional needs fear of crime as a major preoccupation of citizens and politicians and highly emotionalised public discourses on crime and justice But how can we best make sense of these developments Do we need to create emotionally intelligent justice systems or are we messing recklessly with the rational foundations of liberal criminal justice This volume brings together leading criminologists and sociologists from across the world in a much needed conversation about how to re calibrate reason and emotion in crime and justice today The contributions range from the micro analysis of emotions in violent encounters to the paradoxes and tensions that arise from the emotionalisation of criminal justice in the public sphere They explore the emotional labour of workers in police and penal institutions the justice experiences of victims and offenders and the role of vengeance forgiveness and regret in the aftermath of violence and conflict resolution The result is a set of original essays which offer a fresh and timely perspective on problems of crime and justice in contemporary liberal democracies *The Justice System and the Family* Sheila Royo

Turner,Jan E. Stets,2005-03-14 All social relations involve emotional responses from the simplest face to face encounter through the mobilization of social movements to the commitments that individuals develop for culture and society The social world is thus dependent upon the arousal of emotions and equally significant conflict and change in societies is ultimately driven by emotional arousal Thus it is important to understand how human emotions influence and are influenced by the social world This understanding takes us into the sociology of emotions that has emerged as a distinct area of inquiry over the last thirty years Realist Criminology R. Matthews,2014-07-07 This book challenges contemporary criminological thinking providing a thorough critique of mainstream criminology including both liberal criminology and administrative criminology It sets a new agenda for theoretical and practical engagement and for creating a more effective and just criminal justice system
