British Burma in the New Century, 1895-1918 Stephen L Keck,2015-10-06 British Burma in the New Century draws upon neglected but talented colonial authors to portray Burma between 1895 and 1918 which was the apogee of British governance These writers most of them Burmaphiles wrote against widespread misperceptions about Burma **Prisms on the Golden Pagoda** Thamarr Taman,U Shwe Ohn,Widura Thakin Chit Maung,Robert H. Taylor,Derek Tonkin,Lian H. Sakhong,2014-08-18 Just as the prismatic effects of glass mosaics or mirrors produce the spectrums of colour that give Myanmar s pagodas their glittering iridescence Prisms on the Golden Pagoda offers a spectrum of views on the country s national reconciliation process Because many of Myanmar s outlying ethnic groups straddle the country s borders with neighbouring countries in South and Southeast Asia and with China the outcome of this process is crucial not only for the country s current domestic liberalization but also for regional geopolitics The editor of this volume Kyaw Yin Hlaing is a US trained academic who currently serves as an advisor to Myanmar s President He has assembled contributions from veteran activists such as the Shan leader U Shwe Ohn the Chin politician Lian H Sakhong Widura Thakin Chit Maung once leader of Burma s Red Socialists and Thamarr Taman formerly a senior civil servant Commentary by the editor and by Robert H Taylor and British diplomat turned activist Derek Tonkin explains the context and significance of these materials By showing how the national reconciliation effort has been viewed inside the country the contributors provide an important insider s perspective on Myanmar s difficult legacies of violence and separatism World Monarchies and Dynasties John Middleton,2015-06-01 Throughout history royal dynasties have dominated countries and empires around the world Kings queens emperors chiefs pharaohs czars whatever title they ruled by monarchs have shaped institutions rituals and cultures in every time period and every corner of the globe The concept of monarchy originated in prehistoric times and evolved over centuries right up to the present Efforts to overthrow monarchies or evade their rule such as the American French Chinese and Russian revolutions are considered turning points in world history Even today many countries retain their monarchies although in vastly reduced form with little political power One cannot understand human history and government without understanding monarchs and monarchies This fully illustrated encyclopedia provides the first complete survey of all the major rulers and ruling families of the world past and present No other reference work approaches the topic with the same sense of magnitude or connection to historical context Arranged in A Z format for ease of access World Monarchies and Dynasties includes information on major monarchs and dynasties from ancient time to the present This set includes overviews of reigns and successions genealogical charts and dynastic timelines addresses concepts problems and theories of monarchy provides background and information for further research highlights important places structures symbols events

and legends related to particular monarchs and dynasties includes a master bibliography and multiple indexes **Myanmar in the Fifteenth Century** Michael A. Aung-Thwin, 2017-05-31 When the great kingdom of Pagan declined politically in the late thirteenth and early fourteenth centuries its territory devolved into three centers of power and a period of transition occurred Then two new kingdoms arose the First Ava Dynasty in Upper Myanmar and the First Pegu Dynasty in Lower Myanmar Both originated around the second half of the fourteenth century reached their pinnacles in the fifteenth and declined before the first half of the sixteenth century was over Their story is the only missing piece in Myanmar's mainstream historiography a gap this book is designed to fill Renowned historian Michael Aung Thwin reconstructs the chronology of this nearly two hundred year period while challenging a number of long held beliefs Contrary to conventional histories he contends that Ava was the continuation of an old kingdom Pagan led by its traditional ethno linguistic group the Burmese speakers while Pegu was a new kingdom led by more recent arrivals the Mon speakers Although both kingdoms shared many cultural components of the classical Pagan tradition Ava was inland and agrarian while Pegu was maritime and commercial so that each was shaped by very different geopolitical and economic environments In that difference rests the dynamism of their upstream downstream relationship which thereafter became a regular historical pattern in Myanmar history represented today by inland Naypyidaw and coastal Yangon Original in conception and impressive in scope this well written book not only fills in the history of early modern Myanmar but places it in a broad interpretive context based on years of familiarity with a wealth of primary sources Full of arresting anecdotes and colorful personalities it represents an important contribution to Myanmar studies that will not easily be superseded **A Sense of Place and Belonging** Klemens Karlsson, 2025-03-15 A Sense of Place and Belonging examines a marginalized society Chiang Tung Keng Tung in the Eastern Shan State of Myanmar between the dominant cultures of the Burmese Chinese and Siamese Thai Chiang Tung sits at the historic borderland known as the Golden Triangle an area marked by drug trade human trafficking and civil war Hiding a glorious literary and visual cultural tradition from the fourteenth century Chiang Tung is remarkable for how well it has maintained its Buddhist culture in the turbulent history of war and forced resettlement that formed northern Southeast Asia Klemens Karlsson examines the connection between the Buddhist traditions the ancient cult of territory spirits a cult of the earth place and village that forms a kind of religious map and the monsoon culture of wet rice irrigation Tying together myths and memories told by local people and written in local chronicles with the unique performance of the Songkran festival which dramatizes a symbolic agreement between Tai Khuen people and the indigenous Lua Lawa people A Sense of Place and Belonging presents a historical political religious and cultural context connecting the present with the past the local with the global and tradition with change and transformation **Burmese Lives** Wen-Chin Chang, Eric Tagliacozzo, 2014-05 This volume explores the life stories of ordinary Burmese by drawing on the narratives of individual subjects and using an array of interdisciplinary approaches The constituted stories highlight the protagonists survival strategies in everyday life that

demonstrate their constant courage and frustration in dealing with numerous social injustices and adversities **Who Hollered Fore? Lean:Controlling Processes** Don Tapping,2005 **Dictionary of Ming Biography, 1368-1644**

Association for Asian Studies. Ming Biographical History Project Committee,Luther Carrington Goodrich,1976 Based largely upon original Ming documents the Dictionary explores the lives of nearly 650 representative figures both Chinese and foreign who influenced the course of almost three hundred years of Chinese history The articles span all classes professions and fields of endeavor from emperors to artists soldiers to missionaries concubines physicians and pirates *Data Papers* Sao Saimong Mangrai,Cornell University. Southeast Asia Program,1965 *History of the Shan State* Aung Tun (U Sai),2009 The Shan are the largest of the many national ethnic groups residing in the Union of Myanmar After migrating from their early home in the Hwangho Yangtze region of China they settled in the eastern part of today s Myanmar primarily in the Shan Plateau around the first century AD The Shan dominated the political stage for a few centuries founding three historically important dynasties in the heartland of Myanmar at Pinya Sagaing and Inwa Shan history then merges with that of Myanmar until after World War II and Myanmar s independence from the British when the Shan initiated efforts to establish an autonomous state Sai Aung Tun deftly traces the cultural and political history of the Shan people from their origins to Myanmar independence and up to the constitutional crisis of 1962 His work highlights particularly the political affairs of the Shan state from 1946 to 1962 He details the Second Pang Long Conference of 1947 which brought about the historic agreement of all the nationalities of Myanmar to work together for independence He examines the significant role played by the Shan people in the debate on whether Myanmar should adopt a federal system of administration and their efforts to draft a new constitution He concludes with an account of the military coup of 1962 which effectively sabotaged the constitutional reform process a stalemate that still persists today Unique among Shan histories is the in depth analysis of the Kuomintang incursion into the Shan States in the early 1950s with its political military and economic consequences Sai Aung Tun has amassed a substantial amount of primary materials in the text proper including verbatim excerpts from conference interviews and speeches as well as a rich collection of official documents minutes and reports in the appendixes The historical critique of existing constitutional weaknesses will be of interest to those who advocate the drafting of a new constitution in Myanmar The pleas for unity and goodwill among the ethnic groups made by various leaders nearly half a century ago will resonate with readers today This comprehensive reference work will be an invaluable resource for all Shan scholars and Myanmar observers and an excellent addition to any reference collection on Southeast Asia **Lak Chang** Yos Santasombat,2008-12-01 The Thai Yunnan Project is proud to present this English language version of Professor Yos Santasombat s fascinating ethnography of the Tai in Daikong southwestern China It represents a significant contribution to the ethnographic record of the Tai peoples The village of Lak Chang is located close to the edge of the Tai world and is increasingly embraced by Chinese influence Professor Yos skilfully weaves ethnographic and historical writing to chart the

course of Lak Chang's incorporation into the modern Chinese state. This has been a painful history but what emerges in this account is a sense of Tai cultural identity that is vigorous and adaptive. The Tai ethnic category is thus a complex and dynamic construct which takes place within the context of changing power relations and socio-economic conditions where the past is reconstructed to give meaning to the present and hope for the future. In his account of the labours, rituals and beliefs of the Tai villagers of Daikong, Professor Yos brings contemporary ethnic identity to their life. Among the patchwork paddyfields and haphazard laneways of Lak Chang, we come to a greater understanding of how global and regional processes of modernisation are managed and selectively incorporated by one local community.

The Making of Modern Burma

Thant Myint-U, Thant Myint-U., 2001-03-26. Burma has often been portrayed as a timeless place, a country of egalitarian Buddhist villages ruled successively by autocratic kings, British colonialists and most recently a military dictatorship. *The Making of Modern Burma* argues instead that many aspects of Burmese society today, from the borders of the state to the social structure of the countryside to the very notion of a Burmese identity, are largely the creations of the nineteenth century, a period of great change away from the Ava-based polity of early modern times and towards the British Burma of the 1900s. The book provides a sophisticated and much-needed account of the period and as such will be an important resource for policy makers and students as a basis for understanding contemporary politics and the challenges of the modern state. It will also be read by historians interested in the British colonial expansion of the nineteenth century.

China's Encounters on the South and Southwest

James A. Anderson, John K. Whitmore, 2014-11-06. *China's Encounters on the South and Southwest: Reforging the Fiery Frontier Over Two Millennia* discusses the mountainous territory between lowland China and Southeast Asia, what we term the Dong world, and varied encounters by China with this world's many elements. The essays describe such encounters over the past two millennia and note various asymmetric relations that have resulted therefrom. Local populations, indigenous chiefs, state officials and rulers have all acted to shape this frontier, especially after the Mongol incursions of the thirteenth century drastically shifted it. This process has moved from the alliances of the Dong world to the indirect rule of the Tusi native official, age to the Qing and recent Gaitu Guiliu efforts at direct rule by the state, placing regular officials in charge there. The essays detail the complexities of this frontier through time, space and personality, particularly in those instances as today on land and sea when China elects to pursue an aggressive policy in this direction.
