Shanghai Linda Cooke Johnson,1995 Contrary to pervasive conventional views that Shanghai was little more than a fishing village prior to its opening as a Western treaty port in 1843 this social history of Shanghai shows that the city was a major commercial port long before the arrival of the British The author traces the development of Shanghai from market town in the Song dynasty and county seat in the Yuan period to a center of cotton production in the Ming era and important port city in the Qing dynasty By the early nineteenth century Shanghai was among the twenty or so largest cities in China Drawing on diverse Chinese materials gazetteers tariff manuals and other internal sources the author presents a China centered perspective that stresses trends and continuities in the history of the Chinese city and situates the arrival of the West in the context of existing Chinese institutions government policies and commercial establishments **Wartime**

**Shanghai and the Jewish Refugees from Central Europe** Irene Eber,2012-04-02 The study discusses the history of the Jewish refugees within the Shanghai setting and its relationship to the two established Jewish communities the Sephardi and Russian Jews Attention is also focused on the cultural life of the refugees who used both German and Yiddish and on their attempts to cope under Japanese occupation after the outbreak of the Pacific War Differences of identity existed between Sephardi and Ashkenazi Jews religious and secular aside from linguistic and cultural differences The study aims to

In recent decades China has used urbanization as an economic development tool to reconstruct the country s traditional institutions culture and society The downside of these many changes is that they have presented the country s government with a massive challenge how can it maintain basic stability China s Urban Future and the Quest for Stability examines the complexities of Chinese cities Together the essays in this book explore how the relatively recent onset of urbanization has

altered the country and how that experience is similar to and distinct from developments in other times and places Each chapter analyzes one facet of China's transformation focusing on three main themes urbanization and the rapid growth of Chinese cities mobility in both the abstract and the literal sense and marginalization evidenced by growing residential segregation in cities and diminishing access to education health care and jobs Underlying these themes is the issue of governance the systems by which a state attempts to maintain control and achieve its ends often in ways that differ significantly from what one might expect An up to date concise and multidisciplinary collection China's Urban Future and the Quest for Stability discusses the social economic and political forces at work in the urbanization of a modern superpower

China's Contested Capital Charles D. Musgrove, 2013-07-31 When the Chinese Nationalist Party nominally reunified the country in 1928 Chiang Kai shek and other party leaders insisted that Nanjing was better suited than Beijing to serve as its capital For the next decade until the Japanese invasion in 1937 Nanjing was the model capital of Nationalist China the center of not just a new regime but also a new modern outlook in a China destined to reclaim its place at the forefront of nations Interesting parallels between China s recent rise under the Post Mao Chinese Communist Party and the Nationalist era have brought increasing scholarly attention to the Nanjing Decade 1927 1937 however study of Nanjing itself has been neglected Charles Musgrove brings the city back into the discussion of China s modern development

focusing on how it was transformed from a factional capital with only regional influence into a symbol of nationhood a city where newly forming ideals of citizenship were celebrated and contested on its streets and at its monuments China's Contested Capital investigates the development of the model capital from multiple perspectives It explores the ideological underpinnings of the project by looking at the divisive debates surrounding the new capital's establishment as well as the ideological discourse of Sun Yat Sen used to legitimize it In terms of the actual building of the city it provides an analysis of both the scientific methodology adopted to plan it and the aesthetic experiments employed to construct it Finally it examines the political and social life of the city looking at not only the reinvented traditions that gave official spaces a sacred air but also the ways that people actually used streets and monuments including the Sun Yat Sen Mausoleum to pursue their own interests often in defiance of Nationalist repression Contrary to the conventional story of incompetence and failure Musgrove shows that there was more to Nationalist Party nation building than simply paper plans that never came to fruition He argues rather that the model capital essentially legitimized a new form of state power embodied in new symbolic systems that the Communist Party was able to tap into after defeating the Nationalists in 1949 At the same time the book makes the case that although it was unintended by party planners who promoted single party rule Nanjing's legitimacy was also a product of protests and contestation which the party state only partially succeeded in channeling for its own ends China's Contested Capital is an important contribution to the literature on twentieth century Chinese urban history and the social and political history of one of China's key cities during the Republican period *Shanghaiing Sailors* Mark Strecker, 2014-05-19

Shanghaiing or forcing a man to join the crew of a merchant ship against his will plagued seafarers the world over between 1849 and 1915 Perpetrators were known as crimps and they had no respect for a man's education social status race religion or seafaring experience The merchant ships were involved in the opium tea and gold trades and the practice was spurred by the opening of the Suez Canal A major reason for it was a shortage of sailors and the unwillingness of seamen to sail on certain types of ships They suffered from great deprivations all for a paltry sum usually squandered during shore leave Navies and pirates had their own form of shanghaiing called impressment This work explores the rich history of shanghaiing and impressment with a focus on victims and also considers the 19th century seafarer and the circumstances that made shanghaiing so lucrative **Maiden Voyage** Joshua A. Fogel, 2014-09-19 Japanese from varied domains as well as shogunal officials Nagasaki merchants and an assortment of deck hands made the voyage along with a British crew spending a total of ten weeks observing and interacting with the Chinese and with a handful of Westerners Roughly a dozen Japanese narratives of the voyage were produced at the time recounting personal impressions and experiences in Shanghai The Japanese emissaries had the distinct advantage of being able to communicate with their Chinese hosts by means of the brush conversation written exchanges in literary Chinese For their part the Chinese authorities also created a paper trail of reports and memorials concerning the Japanese visitors which worked its way up and down the bureaucratic chain of command This

was the first official meeting of Chinese and Japanese in several centuries

Singapore in the Global System Peter Preston, 2007-12-21 This book tracks the phases of Singapore's economic and political development arguing that its success was always dependent upon the territories links with the surrounding region and the wider global system and suggests that managing these links today will be the key to the country's future Singapore has followed a distinctive historical development trajectory It was one of a number of cities which provided bases for the expansion of the British empire in the East But the Pacific War provided local elites with their chance to secure independence In Singapore the elite disciplined and mobilized their population and built successfully on their colonial inheritance Today the city state prospers in the context of its regional and global networks and sustaining and nurturing these are the keys to its future But there are clouds on the elite's horizons domestically the population is restive with inequality migration and surplus repression causing concern and internationally the strategy of constructing a business hub economy is being widely copied and both Hong Kong and Shanghai are significant competitors This book discusses these issues and argues that although success is likely to characterize Singapore's future the elite will have to address these significant domestic and international problems

**Popular Music, Cultural Politics and Music Education in China** Wai-Chung

Ho, 2016-12-08 While attention has been paid to various aspects of music education in China to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China Before the implementation of the new curriculum reforms in China at the beginning of the twenty first century there was neither Chinese nor Western popular music in textbook materials Popular culture had long been prohibited in school music education by China's strong revolutionary orientation which feared spiritual pollution by Western cultures However since the early twenty first century education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum In relation to this topic this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education Ho presents music and music education as sociopolitical constructions of nationalism and globalization Moreover how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education as well as the reformation of music education in mainland China is discussed Based on the perspectives of school music teachers and students the findings of the empirical studies in this book address the power and potential use of popular music

in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland

**My Dearest Martha: The Life and Letters of Eliza Hillier** Andrew Hillier, 2021-07-01

For this brief moment the two sisters could be together in heart and affection and through such letters bridge the distance of empire. We often learn about the commerce, diplomacy and military campaigns of the British empire without reference to the intimate side of life in these times: the development of self, the position of women and the importance of family. In this book the story of empire so often told from a man's perspective is given a unique vantage point through Eliza Hillier's letters to her younger sister Martha. Written largely from Hong Kong, Shanghai, England and Siam, the letters allow us to become a member of her family and follow the daily tribulations associated with the life of a young British woman in the port cities of Asia. We are thus able to share Eliza's experiences as she leaves home to embark on married life, starts and raises a family, grieves at the abrupt and tragic loss of her husband Charles Batten Hillier and then sets about rebuilding her life. At once a reflection on the daily components of empire, an entertaining narrative of familial relationships and the story of one woman's inner feelings, *My Dearest Martha* guides us through the vagaries of life for a family who were very much a part of imperial, careering and missionary circles in East and Southeast Asia. The letters are complemented by images and commentary from the author, a descendant of Eliza, providing context and depth which together give us a fuller picture of British colonial life in the mid 1800s from a perspective that will resonate with readers around the world.
