Shaping A Monastic Identity Liturgy And History At The Imperial Abbey Of Farfa 10001125:

Shaping a Monastic Identity Susan Boynton, 2006 During the eleventh and early twelfth centuries the imperial abbey of Farfa was one of the most powerful institutions on the Italian peninsula In this period many of the lands of central Italy fell under its sway and it enjoyed the protection of the emperor until the 1120s when it passed gradually into the control of the papacy At the same time the monastery was an influential religious center and the monks of Farfa filled their days with the celebration of the liturgy through prayers processions sermons chants and hymns Susan Boynton a historian of medieval music addresses several of the major themes of present day medieval historiography through a close study of the liturgical practices of the abbey of Farfa Boynton s findings are a striking demonstration of the local nature of liturgical practices in the centuries before church ritual was controlled and codified by the papacy Boynton shows that the liturgy was highly flexible continually adapting to the monastery s changing circumstances The monks regularly modified traditional forms to reflect new realities often in the service of Farfa s power and prestige Equally fascinating is Boynton s examination of the process by which Farfa like other monasteries cathedral chapters and royal houses constantly rewrote its history particularly the stories of its founding as part of the continuous negotiation of power that was central to medieval politics and culture

Noone, Daniele Filippi, 2017-09-18 How did Catholicism sound in the early modern period What kinds of sonic cultures developed within the diverse and dynamic matrix of early modern Catholicism And what do we learn about early modern Catholicism by attending to its sonic manifestations Editors Daniele V Filippi and Michael Noone have brought together a variety of studies ranging from processional culture in Bavaria to Roman confraternities and catechetical praxis in popular missions that share an emphasis on the many and varied modalities and meanings of sonic experience in early modern Catholic life Audio samples illustrating selected chapters are available at the following address <https://doi.org/10.6084/m9.figshare.5311099> Contributors are Egberto Berm dez Jane A Bernstein Xavier Bisaro Andrew Cichy Daniele V Filippi Alexander J Fisher Marco Gozzi Robert L Kendrick Tess Knighton Ignazio Macchiarella Margaret Murata John W O Malley S J Noel O Regan Anne Pi jus and Colleen Reardon *Cistercian Stories for Nuns and Monks* Martha G. Newman, 2020-10-30 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order s illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland His extant texts reflect his interactions with non Cistercian monasteries and with Langheim s patrons rather than celebrating Bernard of Clairvaux Engelhard was conservative interested in maintaining traditional Cistercian patterns of thought Nonetheless by

offering to women a collection of narratives that explore the oral qualities of texts the nature of sight and the efficacy of sacraments Engelhard articulated a distinctive response to the social and intellectual changes of his period In analyzing Engelhard s stories Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay neither scholastic nor unlearned and neither solely male nor only female His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on sacerdotal action By encouraging nuns and monks to imagine connections between heaven and earth Engelhard taught faith as a learned disposition Newman s study demonstrates that scholastic questions about signs sacraments and sight emerged in a narrative form within late twelfth century monastic communities

Carolingian Reforms Renie S. Choy, 2016-12-15 In early medieval Europe monasticism constituted a significant force in society because the prayers of the religious on behalf of others featured as powerful currency The study of this phenomenon is at once full of potential and peril rightly drawing attention to the wider social involvement of an otherwise exclusive group but also describing a religious community in terms of its service provision Previous scholarship has focused on the supply and demand of prayer within the medieval economy of power patronage and gift exchange *Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms* is the first volume to explain how this transactional dimension of prayer factored into monastic spirituality Renie S Choy uncovers the relationship between the intercessory function of monasteries and the ascetic concern for moral conversion in the minds of prominent religious leaders active between c 750 820 Through sustained analysis of the devotional thought of Benedict of Aniane and contemporaneous religious reformers during the reigns of Charlemagne and Louis the Pious Choy examines key topics in the study of Carolingian monasticism liturgical organization and the intercessory performances of the Mass and the Divine Office monastic theology and relationships of prayer within monastic communities and with the world outside Arguing that monastic leaders showed new interest on the intersection between the interiority of prayer and the functional world of social relationships this study reveals the ascetic

Mobile Saints Kate Craig,2021-04-21 Mobile Saints examines the central medieval ca 950 1150 CE practice of removing saints relics from rural monasteries in order to take them on out and back journeys particularly within northern France and the Low Countries Though the permanent displacements of relics translations have long been understood as politically and culturally significant activities these temporary circulations have received relatively little attention Yet the act of taking a medieval relic from its home even for a short time had the power to transform the object the people it encountered and the landscape it traveled through Using hagiographical and liturgical texts this study reveals both the opportunities and tensions associated with these movements circulating relics extended the power of the saint into the wider world but could also provoke public displays of competition mockery and resistance By contextualizing these effects within the discourses and practices that surrounded traveling relics Mobile Saints emphasizes the complexities of the central medieval cult of relics and its participants while speaking to broader questions about the role of movement in negotiating the relationships between sacred objects space and people

Waugh,2014-03-26 This innovative and multidisciplinary collection visits representations and interpretations of Mary Magdalene in the medieval and early modern periods questioning major scholarly assumptions behind the examination of female saints and their depictions in medieval artworks literature and music Mary Magdalene s many and various characterizations from reformed prostitute to conversion figure to devotee of Christ to apostle to the apostles to spiritual advisor to the Prince of Marseilles to hermit in the desert to list just a few examples mean that the many conflicted representations of Mary Magdalene apply to a staggering variety of cultural material including art liturgy music literature theology hagiography and the historical record Furthermore Mary Magdalene has grown into an extremely popular and controversial figure due to recent books and movies concerning her and due to a groundswell of general speculation concerning her relationship to Jesus was she his acquaintance follower companion wife family member or lover This volume employs a broad spectrum of theoretical methodologies in order to present poststructuralist postcolonial postmodernist hagiographic and feminist readings of the figure of Mary Magdalene addressing and interrogating her conflicting roles and the precise relationship between her sacred and secular representations The Care of Nuns Katie Ann-Marie

Bugyis,2019-04-01 In her ground breaking new study Katie Bugyis offers a new history of communities of Benedictine nuns in England from 900 to 1225 By applying innovative paleographical codicological and textual analyses to their surviving liturgical books Bugyis recovers a treasure trove of unexamined evidence for understanding these women s lives and the liturgical and pastoral ministries they performed She examines the duties and responsibilities of their chief monastic officers abbesses prioresses cantors and sacristans highlighting three of the ministries vital to their practice liturgically reading the gospel hearing confessions and offering intercessory prayers for others Where previous scholarship has argued that the various reforms of the central Middle Ages effectively relegated nuns to complete dependency on the sacramental ministrations of priests Bugyis shows that in fact these women continued to exercise primary control over their spiritual care Essential to this argument is the discovery that the production of the liturgical books used in these communities was carried out by female scribes copyists correctors and creators of texts attesting to the agency and creativity that nuns exercised in the care they extended to themselves and those who sought their hospitality counsel instruction healing forgiveness and intercession *The Oxford Handbook of Christian Monasticism* Bernice M. Kaczynski,2020-09-29 The Handbook takes as its

subject the complex phenomenon of Christian monasticism. It addresses for the first time in one volume the multiple strands of Christian monastic practice. Forty-four essays consider historical and thematic aspects of the Catholic, Eastern Orthodox, Oriental Orthodox, Protestant, and Anglican traditions, as well as contemporary new monasticism. The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day. Taken together, they offer not a narrative survey but rather a map of the vast terrain. The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism. It presents the work of both academic and monastic authors, and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view. The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues. They indicate developing trends in their areas of specialisation. The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies. In today's world, where there is increasing interest in all world monasticisms, where scholars are adopting more capacious global approaches to their investigations, and where monks and nuns are casting a fresh eye on their ancient traditions, this publication is especially timely.
