**The Shaping of Ireland** William Nolan, 1986      **Ireland's Great Famine, Britain's Great Failure** William H. A.

Williams, 2022-02-08 This book provides readers with a unique in depth understanding of the background to the Irish Famine and a detailed account of the crisis as well as the immediate and long term results of the catastrophe In addition to exploring the ecological and agriculture factors this work shows how cultural economic and political influences shaped British attitudes and policies When the entire potato crop failed in the fall of 1846 what began as an ecological disaster quickly became a political one Hampered by long standing prejudice and Anglo Irish tensions the British government s various attempts to deal with the humanitarian crisis were muddled by competing economic and social goals Among these was the idea that the Famine represented an opportunity to purge Ireland of fragmented land holding and potato dependency by encouraging an English type market driven agriculture Changes did occur but the government s imperial dreams eventually ran up against Irish realities      *Toward Spatial Humanities* Ian N. Gregory, Alistair Geddes, 2014-04-14 The application of Geographic Information Systems GIS to issues in history is among the most exciting developments in both digital and spatial humanities

Describing a wide variety of applications the essays in this volume highlight the methodological and substantive implications of a spatial approach to history They illustrate how the use of GIS is changing our understanding of the geographies of the past and has become the basis for new ways to study history Contributors focus on current developments in the use of historical sources and explore the insights gained by applying GIS to develop historiography *Toward Spatial Humanities* is a compelling demonstration of how GIS can contribute to our historical understanding      *Creating Irish Tourism* William H. A. Williams, 2011-10-01 Based on the accounts of British and Anglo Irish travelers *Creating Irish Tourism* charts the development of tourism in Ireland from its origins in the mid eighteenth century to the country s emergence as a major European tourist destination a century later The work shows how the Irish tourist experience evolved out of the interactions among travel writers landlords and visitors with the peasants who as guides jarvis venders porters and beggars were as much a part of Irish tourism as the scenery itself      Housing, Architecture and the Edge Condition Ellen Rowley, 2018-11-02

This book presents an architectural overview of Dublin s mass housing building boom from the 1930s to the 1970s During this period Dublin Corporation built tens of thousands of two storey houses developing whole communities from virgin sites and green fields at the city s edge while tentatively building four storey flat blocks in the city centre Author Ellen Rowley examines how and why this endeavour occurred Asking questions around architectural and urban obsolescence she draws on national political and social histories as well as looking at international architectural histories and the influence of post war reconstruction programmes in Britain or the symbolisation of the modern dwelling within the formation of the modern nation Critically the book tackles this housing history as an architectural and design narrative It explores the role of the architectural community in this frenzied provision of housing for the populace Richly illustrated with architectural drawings

and photographs from contemporary journals and the private archives of Dublin based architectural practices this book will appeal to academics and researchers interested in the conditions surrounding Dublin's housing history

**Tourism, Landscape, and the Irish Character** William Williams, 2012-02-24 Picturesque but poor abject yet sublime in its Gothic melancholy the Ireland perceived by British visitors during the eighteenth and nineteenth centuries did not fit their ideas of progress propriety and Protestantism The rituals of Irish Catholicism the lamentations of funeral wakes the Irish language they could not comprehend even the landscapes were all strange to tourists from England Wales and Scotland Overlooking the acute despair in England's own industrial cities these travelers opined in their writings that the poverty bog lands and ill thatched houses of rural Ireland indicated moral failures of the Irish character *Current Geographical Publications* University of Wisconsin--Milwaukee. Library, 1988

**The Land and People of County Meath, 1750-1850** Peter Connell, 2004 The 1750s marked the beginning of a period of dramatic growth in the Irish population when the Irish economy became increasingly shaped by the demands of the Industrial Revolution in Britain This monograph traces how these great changes were played out on the rolling plains of Co Meath Long characterized as a rich county dominated by strong farmers involved in the fattening of beef cattle the picture that emerges is a much more complex one Making use of a wide range of sources including estate records and the surviving manuscript census of 1821 for the Navan baronies this book explores the relative position of the different classes in rural society over the period It suggests that by the 1840s a large proportion of the population had been marginalized by changes in the economy by the decline in the domestic linen industry and by the growing demand for land The Great Famine is set in this context and portrayed as the denouement of Meath s landless labourers and cottiers The geography of the thousands of mud cabins that disappeared from the landscape in these years is explored as a lost and largely forgotten generation that succumbed to the workhouse death and emigration
