**Sharaf Politics** Sharon D. Lang, 2013-10-18 This book examines the Arabic conflict resolution method known as sulha In this process notable male elders mediate conflicts between and within Arab communities A lengthy process of political jockeying culminates in a ceremony that peaks when enemies shake hands and publicly forgive the crimes of the other The reality of actual sulha deviates considerably from the ideal but both the official framework and the actual events point to a deep seated valorization of peace and reconciliation in Israeli Palestinian society **Classless Politics** Hesham

Sallam, 2022-10-25 Since the 1970s the Egyptian state has embarked on a far reaching and destabilizing project of economic liberalization reneging on its commitments to social welfare Despite widespread socioeconomic grievances stemming from these policies class politics and battles over wealth redistribution have largely been sidelined from elite led national politics Instead conflicts over identity have raged as Islamist movements became increasingly prominent political players Classless Politics offers a counterintuitive account of the relationship between neoliberal economics and Islamist politics in Egypt that sheds new light on the worldwide trend of more identity less class Hesham Sallam examines why Islamist movements have gained support at the expense of the left even amid conflicts over the costs of economic reforms Rather than highlighting the stagnancy of the left or the agility of Islamists he pinpoints the historical legacies of authoritarian survival strategies As the regime resorted to economic liberalization in the 1970s it tacitly opened political space for Islamist movements to marginalize its leftist opponents In the long run this policy led to the fragmentation of opponents of economic reform the increased salience of cultural conflicts within the left and the restructuring of political life around questions of national and religious identity Historically rich and theoretically insightful this book demonstrates how the participation of Islamist groups shapes the politics of neoliberal reform and addresses why economic liberalization since the 1970s has contributed to the surge in culture wars around the world today Values, Political Action, and Change in the Middle East and the Arab Spring

Gelfand, 2017-01-18 Although many have tried the spontaneity of the Arab Spring uprisings and the unpredictability of its diverse geographical outcomes have resisted explanation For social scientists part of the challenge has been how to effectively measure and analyze the empirical data while another obstacle has been a lack of attention to the worldviews value orientations and long term concerns from the people of the Middle East and North Africa In order to meet these challenges head on Mansoor Moaddel and Michele J Gelfand have assembled an international team of experts to explore and employ a new and diverse set of frameworks in order to explain the dynamics of cross national variation values political engagement morality and development in these regions To this end the authors address a wide range of questions such as To what extent do recent events reflect changes in values among the Middle Eastern publics Are youth uniformly more supportive of change than the rest of the population To what extent are changes in values connected to changes in identities How do we explain the process of change in the long term As Moaddel and Gelfand remark in their book s

women scholars on the lives of Palestinians within the state of Israel Most media coverage and research on the experience of Palestinians focuses on those living in the West Bank or the Gaza Strip while the sizable number of Palestinians living within Israel rarely garners significant academic or media attention Offering a rich and multidimensional portrait of the lived realities of Palestinians within the state of Israel Displaced at Home gathers a group of Palestinian women scholars who present unflinching critiques of the complexities and challenges inherent in the lives of this understudied but important minority within Israel The essays here engage topics ranging from internal refugees and historical memory to women's sexuality and the resistant possibilities of hip hop culture among young Palestinians Unique in the collection is sustained

attention to gender concerns which have tended to be subordinated to questions of nationalism statehood and citizenship The first collection of its kind in English *Displaced at Home* presents on the ground examples of the changing political social and economic conditions of Palestinians in Israel and examines how global national and local concerns intersect and shape their daily lives the volume is distinctive in bringing together the historical and the contemporary the dramatic and the mundane In their combination of empirical innovation and theoretical sophistication these chapters and the volume as a whole make an important contribution to the academic scholarship of and about the Palestinians *Review of Middle East Studies* By intertwining the themes of ethnicity and gender *Displaced at Home* breaks new ground presenting a counter narrative to studies that posit the Palestinian citizens of Israel only as manipulated and victimised as well as to Palestinian nationalist histories which present society as monolithic The fact that all twelve contributors are Palestinian women citizens of Israel gives their research an immediacy and authenticity that make the book engrossing as well as highly informative *Jordan Times* Informative insightful and thought provoking Mary N Layoun author of *Wedded to the Land* *Gender Boundaries and Nationalism in Crisis* This groundbreaking book helps to fill a huge gap in research on Palestinians in Israel Amal Amireh author of *The Factory Girl* and *the Seamstress* *Imagining Gender and Class in Nineteenth Century American Fiction* [The Discourse of Palestinian-Israeli Relations](#) Sean F. McMahon, 2010-04-15 This Foucault inspired analysis of the degeneration of the Oslo Process into direct Palestinian Israeli violence critically examines the ideas and practices that define Palestinian Israeli relations The text offers a radically different peace proposal that moves far beyond exhausted calls for confidence building measures and or an end to settlement construction **Political Handbook of the World 2022-2023** Tom Lansford, 2023-06-09 The *Political Handbook of the World 2022 2023* provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2022 2023 edition continues to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Tom Lansford has compiled in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this update will aim to include coverage of current events issues crises and controversies from the course of the last two years [The Annual Obituary](#) ,1980 *Shiism and Politics in the Middle East* Laurence Louer, 2021-12-01 In this timely book completed before the current outbreak of unrest in Bahrain that has formed part of the Arab Spring Laurence Louer explains the background of the Bahraini conflict in the context of the wider issue of Shiism as a political force in the Arab Middle East amongst other issues relating to the role of Shiite Islamist movements in regional politics Her study shows how Bahrain s troubles are a phenomenon based on local perceptions of injustice rather than on the foreign policy of Shiite Iran More generally the book

shows that though Iran's Islamic Revolution had an electrifying effect on Shiite movements in Lebanon Iraq the Gulf and Saudi Arabia local political imperatives have in the end been the crucial factor in the direction they have taken In addition the overwhelming influence of the Shiite clerical institution has been diminished by the rise to prominence of lay activists within the Shiite movements across the Middle East and the emergence of Shiite anti clericalism This book contributes to dispelling the myth of the determining power of Iran in the politics of Iraq Bahrain and other Arab states with significant Shiite populations

**Gaza Under Hamas** Bjorn Brenner, 2016-12-18 Hamas is designated a terrorist organization by Israel the EU the USA and the UN It has made itself notorious for its violent radicalism and uncompromising rejection of the Jewish state So after its victory in the 2006 elections the world was watching How would Hamas govern Could an Islamist group without any experience of power and with an unwavering ideology manage to deal with day to day realities on the ground Bjorn Brenner investigates what happened after the elections and puts the spotlight on the people over whom Hamas rules rather than on its ideas Lodging with Palestinian families and experiencing their daily encounters with Hamas he offers an intimate perspective of the group as seen through local eyes The book is based on hard to secure interviews with a wide range of key political and security figures in the Hamas administration as well as with military commanders and members of the feared Qassam Brigades Brenner has also sought out those that Hamas identifies as local trouble makers the extreme Salafi Jihadis and members of the now more quiescent mainstream Fatah party led by Mahmoud Abbas The book provides a new interpretation of one of the most powerful forces in the Israel Palestine arena arguing that the Gazan Islamists carry a potential to be much more flexible and pragmatic than anticipated if they would think they stand to gain from it Gaza under Hamas investigates the key challenges to Hamas's authority and reveals why and in what ways ideology comes second to power consolidation

Gender, Sexualities and Law Jackie Jones, Anna Grear, Rachel Anne Fenton, Kim Stevenson, 2011-03-17 Bringing together an international range of academics Gender Sexualities and Law provides a comprehensive interrogation of the range of contemporary issues both topical and controversial raised by the gendered character of law legal discourse and institutions The gendering of law persons and the legal profession along with the gender

bias of legal outcomes has been a fractious but fertile focus of reflection. It has moreover been an important site of political struggle. This collection of essays offers an unrivalled examination of its various contemporary dimensions focusing on issues of theory and representation, violence, both national and international reproduction and parenting and partnership, sexuality, marriage and the family. *Gender Sexualities and Law* will be invaluable for all those engaged in research and study of the law and related fields as a form of gendered power. *Palestine and the Gulf States* Rosemarie Said Zahlan, 2009-05-07 This final book from Rosemarie Said Zahlan, renowned scholar of Middle East Politics and History, explores the relationships between Palestine and the Gulf since the 1930s. These relationships have ebbed and flowed, crisscrossed barriers and events and taken on different forms. They have pervaded national, regional and international relationships, have been bilateral and multilateral in nature and have appeared and disappeared unexpectedly from the public arena. Surprisingly, this network of links and relationships has remained largely unknown. Rosemarie Said Zahlan fills this critical gap and demonstrates how the regional Gulf politics and great power intervention in this part of the world will long continue to be impacted by the abiding non-resolution of the Palestinian problem. *The Accidental Tourist, Wilfrid Scawen Blunt, and the British Invasion of Egypt in 1882* Michael D. Berdine, 2020-11-25 This fascinating account highlights the extent the world's major powers will go to as they seek to insure their own interests and agendas despite the wishes of those whose countries they invade and occupy. The Accidental Tourist profiles Wilfrid Scawen Blunt's involvement in the so-called Arabi Revolt in 1882. It addresses Blunt's tireless efforts on behalf of the Egyptian Nationalists to mediate the differences between Britain and Egypt and prevent a British invasion of Egypt. It highlights what amounted to a government cover-up of the actions of certain governmental officials to precipitate the invasion by falsifying intelligence information and manipulating the press. It also takes to task the scholarly tradition of maligning Blunt and questioning the accuracy of his version of the events of 1882. Blunt was branded a traitor in the House of Commons. This book was written to set the record straight. It is ideal reading for those interested in the field of Middle Eastern Imperial or Colonial history and will provide readers with a better understanding of the real story of imperialism that went on at the time and is still going on in the Middle East today. **Reporting Political Islam and Democracy** Mohammed-Ali Abunajela, Nael Jebri, 2020-05-14 For over a decade Al Jazeera Arabic occupied an unprecedented position among Arab audiences and families. Its attractive and daring news coverage has inspired millions of Arabs and led other news channels to follow suit by changing their reporting narrative and presentational style. However, in the aftermath of the Arab uprisings in 2011, the close adoption of the Arab uprisings in general and the Egyptian one in particular made the channel fall into the eye of the public storm through its extensive 24-hour coverage. This book assesses whether the channel systematically provided a platform for certain ideologies or ignored others and if and how Al Jazeera's language had shifted after the 2011 Arab uprisings. It also explores the rationale behind adopting particular editorial principles featured in the analyses and scrutinises the findings within the framework of media, religion and democratisation.

**Democracy and Reform in the Middle East and Asia** Amin Saikal, Amitav Acharya, 2013-12-23 The protests that swept across the Middle East and North Africa in late 2010 and 2011 confounded long time observers of the region in both the media and academia After addressing the conditions in the Middle East and North Africa that produced these attempts at revolution Amin Saikal and Amitav Acharya explore the global impact of the protests both in terms of their ideological influence on opposition groups and the prospects for democratic transition in a variety of authoritarian and semi authoritarian governments Democracy and Reform in the Middle East and Asia commences with a comprehensive attempt to understand the cultural economic and political background out of which the uprisings in Egypt Tunisia and Libya emerged It then expands outwards investigating the impact of the Arab uprisings on a regional level in other Middle Eastern and north African states such as Iran Morocco and Algeria and on a more global level in the Asian states of China Malaysia Singapore Indonesia and the former Soviet Muslim republics Saikal and Acharya bring a global perspective to the still unfolding wave of calls for more meaningful political participation which continues to make itself felt in the Middle East to shed light upon the ideal role of both regional and international actors in promoting sustainable transitions from authoritarianism to democracy This book not only offers explanations for why certain countries were more susceptible to the spread of the uprisings in the Middle East and North Africa but also contrasts the organic and grassroots vehicles for democratization characteristic of the most recent Arab uprisings with the Western model of externally imposed regime change to illustrate the conditions necessary for a successful democratic transition Touching on perennial issues in politics for example democracy authoritarian rule and social protest this book is vital for researchers of politics and international relations

*To Make the Earth Whole* Marc Gopin, 2009-06-15 To Make the Earth Whole studies the art of citizen diplomacy\_a process that can address clashes of religion and culture across regional lines even when traditional negotiations between governments can fail While faith and regional differences have been sources of division around the world in recent decades millions of citizens are also creating bonds of friendship and collaboration that are forming the basis of a global community Drawing on the experiences gleaned from years practicing citizen diplomacy in some of the world's most politically charged climates scholar practitioner of conflict resolution and rabbi Marc Gopin describes his work in Syria as a central case study of the book The author outlines the strategic basis for creating community across lines of enmity the social network theory to explain how this happens and the long term vision required for a progressive but inclusive global community that respects religious communities even as it limits their coercive power over others This powerful and practical book outlines an incremental and evolutionary strategy of positive change that stands a strong chance of success even in today's most conservative and repressive religious and political contexts To Make the Earth Whole also examines the ethical challenges of citizen diplomacy from the perspectives of both Western and Eastern philosophies and religions The world's wisdom traditions are essential in devising a way for citizens to develop the foundations for global community

**The Real Stories behind Honour Killing**

Shahnaz Shoro,2019-03-01 Honour killing as it is widely understood is the cold blooded murder of a woman or a man involved with her by the male members of her household in order to cleanse the reputation of the family clan community or tribe This violent tradition in the name of religion custom and culture continues to be carried out in a significantly large part of the world The majority of people still believe that honour killings happen for reasons such as marriage from choice or a love affair of a kinswoman rape a demand for divorce from a woman or the birth of a female child all of which are perceived as bringing shame on the family However current research on honour killing suggests that there are a number of intriguing and very cleverly knitted plots of jealousy greed violence and murder which show that in the name of honour various other purposes are being served and people are killed in ways which give the impression that they are honour killings By collecting data from people involved in such situations this book opens a Pandora s box showing that such killings are carried out not to assuage the hurt honour of a patriarchal society but to serve a variety of malign intentions goals and agendas It will serve to let the world comprehend the phenomenon of honour related violence where culture and crime unite under the umbrella of highly discriminating laws against women This book consists of twenty six testimonies from those involved in honour killings bringing together interviews with killers victims and the falsely accused

**Honour Killing in the Second Decade of the 21st Century** Shahnaz Shoro,2017-08-21 Honour killing is considered the worst form of domestic violence against human beings particularly against women It is clear that societies across the world through their laws and their courts continue to countenance legal defences which overwhelmingly benefit males committing violence against females Despite the statistics that honour killings are being reported from all over the world the greatest number of shocking reports of honour killings come from Muslim countries Unfortunately Pakistan is among those countries where women are facing various forms of violence in the name of religion customs and traditions and cases of honour killing are regularly reported there It is imperative to understand and see killings in the name of honour from the perspective of those who have been directly affected by the socio religious cultural norms which condone them The findings gathered here show that honour killing is not only family or community violence or a tradition to preserve honour but that behind these killings ulterior purposes are being served and therefore the number of the killings is increasing every year in Pakistan This book will allow the reader to understand precisely the menace of honour killing and to consider how it can be addressed to save innocent lives and to stop these severe violations of human rights
