The Family in America Joseph M. Hawes,Elizabeth F. Shores,2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses

that come with change **Religious Vitality in Christian Intentional Communities** Mark Killian, 2017-09-25 Through ethnographic research Killian examines vitality in Philadelphia and Berea two Christian Intentional Communities whose participants live in close proximity with one another to achieve religious values Pulling from Anthony Giddens theory of structuration Killian argues that the vitality of both communities cannot be reduced to deterministic structural individual or organizational causes Rather vitality in these communities is affected by all of these causes in relationship to one another In other words it is not that each explanation matters e g social structures matter organizational behaviors matter individual religious choices matter but that these explanations matter to each other e g social structures matter to individual choices individual choices matter to organizational behaviors and social structures matter to organizational choices etc To make this argument Killian develops the idea of the vitality nexus the interconnected relationship between the various explanations of religious vitality **New York Court of Appeals. Records and Briefs.** New York (State)., *The Business of Marketing, Entrepreneurship, and Architecture of Communal Societies in the 1960s and 1970s* Rahima Schwenkbeck, 2021-11-13 This book provides an in depth history of three US based communal societies that operated in the late 1960s and 1970s Soul City Stelle and Twin Oaks with an emphasis on their financing marketing and entrepreneurship processes These communities reflect the diversity of people who were dissatisfied with the direction in which American society was heading often underpinned by concerns over racism sexism the environment and capitalism and decided to take the radical step of joining a communal society A moral economy approach offers a lens on how these communities were prevented from fully realizing their visions due to the confines of capitalism as embedded in banking practices zoning laws and systemic racism [The Humanity of Cities](#) John Gulick, 1989 I recommend this book highly to social scientists who are looking for a review or refresher course in urbanology advanced undergraduate students and introductory graduate students As our American college student bodies become more culturally diverse *The Humanity of Cities* provides a welcome respite from the usual culture bound texts that give limited attention for effect only of the stereotypical Third World Contemporary Sociology Gulick's style is to develop each topic by presenting appropriate case studies He manages to include an enormous range of studies and he wisely reaches out beyond anthropology to the many fields that concern themselves with urban life This book is consequently an excellent compilation of the recent history of theoretical and empirical research on cities The 28 page bibliography is itself a tour de force American Anthropologist Combining major urban theories with empirical studies from around the world the author offers poignant glimpses into urban life including the streets of San Francisco as seen through the eyes of a proud garbage collector the marketplace of Ibadan as seen by a petty food trader the curiously empty streets of Fun city a California retirement community and Cairo's teeming cemetery the City of the Dead filling with the living The problems of urban life are shown to be more a result of worldwide forces rather than the intrinsic nature of cities This major new and timely contribution to the field is a most useful way to introduce urban scholars planners and students in a variety of

disciplines to The Humanity of Cities A complete teachers manual makes this the perfect text **Multi-Unit Housing in Urban Cities** Katy Chey, 2017-11-06 This book investigates the development of multi unit housing typologies that were predominant in a particular city from the 1800s to present day It emphasises the importance of understanding the direct connection between housing and dwelling in the context of a city and the manner in which the city is an instructional indication of how a housing typology is embodied The case studies presented offer an insight into why a certain housing type flourished in a specific city and the variety span across cities in the world where distinct housing types have prevailed It also pursues how housing types developed evolved and helped define the city looks into how dwellers inhabited their dwellings and analyses how the housing typologies correlates in a contemporary context The typologies studied are back to backs in Birmingham tenements in London Haussmann Apartment in Paris tenements in New York tong lau in Hong Kong perimeter block linear block and block edge in Berlin perimeter block and solitaire in Amsterdam space enclosing structure in Beijing micro house in Tokyo and high rise in Toronto
