Sharing Of Scripture A Deus:

Sharing of Scripture Clarence Roberts, Edith Roberts, 1978 **The Humanity of Christ** Paul Dafydd Jones, 2008-09-01
Drawing on the best English and German language scholarship to date this book offers a novel interpretation of Barth's mature Christology. Examining the entirety of the Dogmatics it provides a nuanced analysis of Barth's treatment of the Chalcedonian Definition, the enhypostasis-anhypostasis pairing and various Protestant scholastic Christological distinctions, an examination of the co-inherence of Barth's doctrines of God and Christ which contributes to current debates about Barth's doctrine of election and a lengthy account of the Christology of Church Dogmatics IV that foregrounds Barth's understanding of Christ's human involvement in the drama of reconciliation. Throughout the text the author shows convincingly that Barth's emphasis on Christ's divinity goes hand in hand with a dogmatically rich and often startling account of Christ's humanity. The text does not confine itself to the Church Dogmatics. It also situates Barth in the context of the wider Christian tradition and modern western philosophy of religion. Thus Barth is set in conversation with a wide range of thinkers including Anselm of Canterbury, Martin Luther, John Calvin, Friedrich Schleiermacher, G. W. F. Hegel, Gottfried Thomasius and Harry Frankfurt. In addition, the text makes a number of constructive gestures showing a particular interest in feminist and liberationist trajectories of thought. The final chapter considers the standing of Barth's Christology today and its pertinence for theological ethics and political theology.

The People of God's Presence Terry L. Cross, 2019-10-15 In an age when the church is sometimes viewed as irrelevant and inauthentic, leading Pentecostal theologian Terry Cross calls the people of God to a radical change of structure and mission based on theological principles. Cross, whose work is respected by scholars from across the ecumenical landscape, offers an introduction to ecclesiology that demonstrates how Pentecostals can contribute to and learn from the church catholic. A forthcoming volume by the author, *Serving the People of God's Presence*, will focus on the role of leadership in the church.

Shape of Catholic Theology Aidan Nichols, 2003-08-28 This study is an introduction to Catholic theology designed both for the theological student and for the general reader willing to make a certain effort. After introducing the idea of theology and the virtues desirable in the budding theologian, the bulk of the book falls into the five sections: 1. the role of philosophy in theology; 2. the use of the Bible in theology; 3. the resources of tradition, liturgy and sacred art; 4. Fathers, Councils and Creeds; the sense of the faithful; 5. two aids to discernment in short history of Catholic theology from the New Testament to the present day. The conclusion considers the features of pluralism and unity which should typify Catholic theology as a whole and suggests how unity may avoid becoming uniformity without pluralism becoming anarchy.

A Theory of Everything (That Matters) Alister McGrath, 2019 Einstein's revolutionary scientific ideas have transformed the world, ushering in the nuclear age. Is there any place for faith in such a world? This volume is a must read for anyone who wants to understand the role of faith in a world where science and technology govern lives.

The New Science of Giambattista Vico Giambattista Vico,2016-04-15 A pioneering treatise that aroused great controversy when it was first published in 1725 Vico s New Science is acknowledged today to be one of the few works of authentic genius in the history of social theory It represents the most ambitious attempt before Comte at comprehensive science of human society and the most profound analysis of the class struggle prior to Marx

The New Science Giambattista Vico,2025-07-29 The New Science by Giambattista Vico is a groundbreaking work that redefines the understanding of history culture and human development through a philosophical and philological lens Written in 1725 and later revised the book challenges Enlightenment rationalism by proposing that the true foundation of knowledge lies in the historical evolution of human societies and the symbolic worlds they create Vico

introduces a cyclical theory of history asserting that societies move through recurring stages divine heroic and human each marked by distinct forms of language law and social order Through this framework The New Science emphasizes the importance of myth religion and poetry in shaping early human consciousness and argues that reason alone cannot fully capture the complexity of human experience Vico s concept of verum factum the idea that truth is verified through creation not mere observation places human history and its artifacts at the center of philosophical inquiry Since its publication The New Science has been recognized as a pioneering text in the development of the human sciences Its innovative approach to understanding civilization as a product of human imagination and collective memory laid the groundwork for disciplines such as anthropology sociology and historical epistemology Vico s insights continue to influence contemporary debates on culture identity and the role of narrative in constructing knowledge The lasting relevance of The New Science lies in its profound exploration of the interplay between thought and history and its insistence that human meaning is born not in abstraction but in lived shared experience By foregrounding the poetic and symbolic dimensions of human life Vico invites readers to reconsider the origins of knowledge and the enduring patterns that shape societies across time

Scripture in the Jewish and Christian Traditions Frederick E. Greenspahn,1982 Richard P McBrien Ancient Scripture in the modern world Krister Stendahl *The Mission Field* ,1870 *Dictionary of Scripture and Ethics* Joel B. The Italian Reformers and the Zurich Church, c.1540-1620 Mark Taplin,2017-05-15 Recently scholars have become increasingly aware of Zurich s role as an intellectual and cultural centre of the European Reformation This study focuses on a little known aspect of the Zurich church s international activity its relationship with Italian speaking evangelicals during the period 1540 1620 The work assesses the importance of Zwinglian influences within the early Italian evangelical movement and Zurich s contribution to the spread of the Reformation in Italian speaking territories such as Locarno and southern Graub nden It shows how following the establishment of the Roman Inquisition in July 1542 senior Zurich churchmen emerged as important points of contact for Italian reformers in exile A central concern of the study is the threat to the integrity of the Zwinglian settlement posed by religious radicals within the Italian exile community Although the radicals were relatively few in number their activities had a profound influence on the way in which the community as a whole came to be perceived by the Swiss and other Reformed churches In Zurich the turning point was a series of doctrinal disputes during the mid sixteenth century which culminated in the dissolution of the city s Italian church in November 1563 The alliance forged in the course of those disputes between the leadership of the Zurich church and theologically conservative Italian exiles became the basis for close co operation in subsequent decades Drawing heavily on unpublished sources from Swiss archives the volume sheds light on the processes by which the boundaries of Reformed orthodoxy came to be defined In particular it demonstrates the importance of theological

controversy and polemic as catalysts for the systematisation of doctrine during this period

Antitrinitarianism and Unitarianism in the Early Modern World Kazimierz Bem, Bruce Gordon, 2024-11-23 This collection offers an innovative and fresh interpretation of Antitrinitarian and rational dissent in the early modern world The central themes focus on the fierce debates surrounding Antitrinitarianism and Unitarianism that emerged from the Reformation and the lived cultures of these dissenting movements The chapters take an interdisciplinary approach addressing ideas in context their reception and appropriation and the diverse and often conflicting visions of Christianity Drawing on previously unused sources many from Eastern Europe and often in inaccessible languages this book challenges our understanding of dissent as marginal and eccentric and places it at the center of contesting convictions about the nature of religious reform

Medieval Liturgical Chant and Patristic Exegesis Emma Hornby, 2009 A sensitive and detailed investigation of the complex relationship between text and music in medieval chant How do text and melody relate in western liturgical chant Is the music simply an abstract vehicle for the text or does it articulate textual structure and meaning These questions are addressed here through a case study of the second mode tracts lengthy and complex solo chants for Lent which were created in the papal choir of Rome before the mid eighth century These partially formulaic chants function as exegesis with non syntactical text divisions and emphatic musical phrases promoting certain directions of inner meditation in both performers and listeners Dr Hornby compares the four second mode tracts representing the core repertory to related ninth century Frankish chants showing that their structural and aesthetic principles are neither Frankish nor a function of their notation in the earliest extant manuscripts but are instead a well remembered written reflection of a long oral tradition stemming from Rome Dr EMMA HORNBY teaches in the Department of Music at the University of Bristol

A Religious Encyclopædia, Or, Dictionary of Biblical, Historical, Doctrinal, and Practical Theology Schaff, 1883 *Paratexts of the English Bible, 1525-1611* Debora Shuger, 2022 Studies paratexts found in sixteenth century English bibles from prefaces dedications and annotations to prayers diagrams and woodcuts to shed light on the materiality of surviving bibles and on their publication histories but also on Reformation theology and the history of the English church *A Religious Encyclopædia* Schaff-Herzog encyclopedia, 1882
