### **What Counsellors and Spiritual Directors Can Learn from Each Other**

Peter Madsen Gubi, 2017-04-21 This new collection explores the intersection of spiritual direction and counselling. It considers the ways in which they can enhance each other to provide better therapeutic and pastoral care.

**Main Challenges for Christian Theology Today** Christophe Chalamet, Lit Verlag, 2020-10 In this volume on the basis of three consultations which took place in Seoul and Geneva 2016 2017 2018 theologians from Yonsei University's College of Theology in Seoul South Korea and from the Theological Faculty at the University of Geneva reflect together on three of the main challenges facing Christian theology today. First questions related to religious pluralism and multiple religious belonging are addressed. Second the promise of an enhanced human being through technology and other means is discussed. Third the reality of the threat humanity represents to our ecosystem is considered. Each of these themes is examined from a Korean as well as from a Western European perspective for Christian theology in our day can no longer afford to remain limited to its own geographical context.

### **Exploring Therapy, Spirituality and Healing**

William N. West, 2010-12-13 What place does spiritual need and healing have in the counselling room? Denying the spiritual dimension of personal distress can be potentially hurtful to clients but the issue of spirituality is also fraught with professional and ethical issues for therapists. This book draws on original research to move the debate about spiritual need forwards in relation to therapeutic practice supervision and training. An international team of contributors offer a diverse range of perspectives to critically explore a wide spectrum of spiritual issues including prayer, pastoral care and traditional healing. Edited by a leading figure in the field, this book illuminates experiences of both clients and practitioners through detailed case vignettes. Draws on cutting edge research in this growing field. Invites readers to address their own therapeutic practice with hands-on discussion points. This measured and thoughtful approach provides a fascinating insight to an often complex and controversial topic. As such the book is essential reading for trainees and practitioners of counselling and psychotherapy.

**Psychotherapy and Spiritual Direction** Lynette Harborne, 2018-03-22 This book explores the similarities and differences between the practice of psychotherapy and spiritual direction and suggests that whilst there may be distinctions between the two activities the process is essentially the same. The purpose of the book is to improve the understanding between therapists and spiritual directors to encourage dialogue and discussion between them as well as to offer challenges and learning to both. In the process of exploring the interface between the practice of therapy and the practice of spiritual direction questions arise about how to address issues of spirituality in a psychological context and psychological issues in a spiritual context. A brief overview of the historical background to spiritual direction is given and attention drawn to the links between this tradition and the development of psychotherapy. Spiritual issues that may arise in therapy together with psychological issues that occur during spiritual direction are discussed leading on to a comparison between dark night of the soul experiences and clinical depression.

human beings and our relationships with each other The counselling profession is committed to being non directive and non judgmental But what happens when prayer is part of the counsellor s life Or part of the client s Or both Sharing Spaces is a practical and insightful contribution to an under explored area looking at ways in which prayer can inform and nourish the counselling process as well as ways in which the two areas can be difficult to integrate **Black Couples Therapy**
