Sharing Visions:

Sharing Visions Ralph Milton, 2003 The Bible is filled with many familiar stories of mystical experiences Moses and the burning bush Samuel in the temple the angel's visit to Mary and Paul's Damascus road experience are just a few examples and many modern Christians have equally powerful experiences of the Lord's life changing power and presence In this follow up volume to Vision Stories 84 contributors share their authentic intensely personal accounts of encountering the divine including visions healing miracles and answers to prayer Each vignette manifests the indescribable joy comfort and peace we experience in God's presence And because each personal story also illustrates a scripture passage from Cycle C of the Revised Common Lectionary Sharing Visions is an especially valuable resource for lectionary preaching But even more it's an inspiring reading for personal devotion and spiritual growth Praise for Vision Stories and Sharing Visions I am rejoicing as I read the testimonies in Sharing Visions and Vision Stories What an inspiration Richard B Wilke Author of the Disciple Bible Study series Storytelling has long been a deep rich resource for sharing our faith with one another In Sharing Visions John Sumwalt connects readers with the power of stories for recognizing and celebrating God's presence in the midst of our daily lives Through reading and reflecting on these stories readers are invited into God's ongoing story of creation redemption and empowerment Carol F Krau Director of Christian Formation and Spiritual Leadership General Board of Discipleship United Methodist Church This dynamic moving and deeply authentic collection of true stories will carry readers on a powerful journey of healing and inspiration Sharing Visions will appeal to Catholic and Protestant alike Deacon Eddie Ensley Author of Visions The Soul's Path To The Sacred At long last someone has demonstrated the courage to lift the veil of silence that so often covers the mystical experiences of ordinary people By denying the reality of these experiences we have denied spiritual sustenance and growth to many Vision Stories is a forerunner of the feast that is to come for all who earnestly seek to walk with God Reuben P Job Author of A Guide to Spiritual Discernment This wonderful collection of stories reminds us of a fact our world desperately needs to know that God is alive and well and ready to be at work in our daily lives J Ellsworth Kalas Author of New Testament Stories from the Back Side A noted storyteller John E Sumwalt is the pastor of Wauwatosa Avenue United Methodist Church in Milwaukee Wisconsin The author of CSS acclaimed Lectionary Stories series Sumwalt leads seminars and retreats on sharing and understanding visions He and his wife Jo Perry Sumwalt also are the editors of the online service StoryShare

Taylor, 2015-10-28

According to management and psychology courses as well as legions of consultants in organizational psychology shared vision in dyads teams and organizations can fill us with hope and inspire new possibilities or delude us into following false prophets However few research studies have empirically examined the impact of shared vision on key organizational outcomes such as leadership effectiveness employee engagement organizational citizenship coaching and organizational change As a result the field of organizational psychology has not yet established a causal pattern of whether if and how shared vision helps dyads teams and organizations function more effectively The lack of empirical work around shared vision is surprising given its long standing history in the literature Bennis and Nanus 1982 showed that distinctive leaders managed attention through vision The practitioner literature has long proclaimed that vision is a key to change while Conger and Kanungo 1998 discussed its link to charismatic leadership Around the same time positive psychology appeared in the forms of Appreciative Inquiry Cooperrider Sorensen Whitney Yaeger 2000 and Positive Organizational Scholarship Cameron Dutton Quinn 2003 In this context a shared vision or dream became a legitimate antecedent to sustainable change But again empirical measurement has been elusive More recently shared vision has been the focus of a number of dissertations and quantitative studies building on Intentional Change Theory ICT Boyatzis 2008 at dyad team and organization levels of social systems These studies are beginning to lay the foundations for a systematic body of empirical knowledge about the role of shared vision in an organizational context For example we now know that shared vision can activate neural networks that arouse endocrine systems and allow a person to consider the possibilities of a better future Jack Boyatzis Leckie Passarelli Khawaja 2013 Additionally Boyatzis Akrivou 2006 have discussed the role of a shared vision as the result of a well developed set of factors that produce a desired image of the future Outside of the organizational context positive visioning has been known to help guide future behavior in sports psychology Loehr Schwartz 2003 medical treatment Roffe Schmidt Ernst 2005 musical performance Meister Krings Foltys Boroojerdi Muller Topper Thron 2004 and academic performance Curry Snyder Cook Ruby Rehm 1997 This Research Topic for Frontiers in Psychology is a collection of 14 original papers examining the role of vision and shared vision on a wide variety of desired dependent variables from leadership effectiveness and executive performance to organizational engagement citizenship and corporate social responsibility and how to develop it through coaching *Transformation Design* Wolfgang Jonas, Sarah Zerwas, Kristof von Anshelm, 2015-11-27 Transformation design is looking for new ways to change our behavior and society through new forms of innovation The existing user oriented approach of design must therefore be extended to one that is society oriented The concept of transformation is based on the anthropologist Karl Paul Polanyi and his book *The Great Transformation* 1944 which described the emergence of the now

almost undisputed and globally widespread western market logic the transformation of societies with markets into market societies which he calls dislodgment of the markets Meanwhile leading think tanks are referring to Polanyi They are calling for a new social contract and the re embedding of the market into society What are the possible instruments and contributions of design for this new Great Transformation The variety of the above questions answers theories methods ideas and projects suggests that transformation design is not in fact a discipline in itself but that it will lead to a fruitful discourse The book attempts to form an initial position in terms of this ambitious and ethical design perspective It also seeks to inspire the international debate to push for a project of responsible design
