## **Sharks Fins Millet:**

**Shark's Fins and Millet** Ilona Ralf Sues, 1944      **The Raider** Stephen R. Platt, 2025-05-13 The extraordinary life of forgotten World War II hero Evans Carlson commander of America's first special forces secret confidant of FDR and one of the most controversial officers in the history of the Marine Corps who dedicated his life to bridging the cultural divide between the United States and China He was a gutsy old man A corker said another You couldn't find anyone better They talked about him in hushed tones This Major Carlson wrote one of the officers in a letter home is one of the finest men I have ever known These were the words of the young Marines training to be among the first U.S. troops to enter the Second World War and the Major Carlson they spoke of was Evans Carlson a man of mythical status even before the war that would make him a military legend By December of 1941 at the age of forty five Carlson had already faced off against Sandinistas in the jungles of Nicaragua and served multiple tours in China where he embedded with Mao's Communist forces during the Sino Japanese War Inspired by their guerilla tactics and their collaborative spirit which he'd call gung ho introducing the term to the English language and driven by his own Emersonian ideals of self reliance Carlson would go on to form his renowned Marine Raiders the progenitors of today's special operations forces who fought behind Japanese lines on Makin Island and Guadalcanal showing Americans a new way to do battle In *The Raider* Cundill Prize winning historian Stephen R Platt gives us the first authoritative account of Carlson's larger than life exploits the real story based on years of research including newly discovered diaries and correspondence in English and Chinese with deep insight into the conflicted idealism about the Chinese Communists that would prove Carlson's undoing in the McCarthy era Tracing the rise and fall of an unlikely American war hero *The Raider* is a story of exploration of cultural misunderstanding and of one man's awakening to the sheer breadth of the world      **Through the Looking Glass** Paul French, 2009-05-01 The convulsive history of foreign journalists in China starts with newspapers printed in the European factories of Canton in the 1820s It also starts with a duel between two editors over the future of China and ends with a fistfight in Shanghai over the revolution This book tells the story of China's foreign journalists      **The China Mystique** Karen J. Leong, 2005-07-25 Focusing on three women Pearl S Buck Anna May Wong Mayling Soong this book studies the shifting images of China in American culture particularly during the 1930s 40s      **Americans and Chinese Communists, 1927-1945** Kenneth E. Coble, 1986 A common generalization about the Nationalist Government in China during the 1927 1937 decade has been that Chiang Kai shek's regime was closely allied with the capitalists in Shanghai This book brings to light a different picture that Nanking sought to control the capitalists politically to prevent them from having a voice in the political structure and to milk the wealth of the urban economy for government coffers This study documents major political conflicts between the capitalists and the government and demonstrates that the regime

gradually suppressed the main organizations of the capitalists and gained control of many of their financial and industrial enterprises This is the first systematic examination of the political role of the Shanghai capitalists during the Nanking decade A number of related issues the operation of the government bond market the role of the Shanghai underworld and its ties to Chiang Kai shek the personalities and policies of key government officials such as TV Soong and H H Kung the Japanese attempt to control the economic policies of the Nanking government and the growth of bureaucratic capitalism are brought into focus **The Shanghai Capitalists and the Nationalist Government, 1927-1937** Parks M. Sbrega, 2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA's fight against Japan in the Second World War Including books articles and declassified documents up to the end of 1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories historiographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military aspects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru      **Shanghai on Strike** Elizabeth J. Perry, 1993 This work is an important addition to the rather limited literature on the social history of China during the first half of the twentieth century It draws on abundant sources and studies which have appeared in the People's Republic of China since the early 1980s and which have not been systematically used in Western historiography China has undergone a series of fundamental political transformations from the 1911 Revolution that toppled the imperial system to the victory of the communists all of which were greatly affected by labor unrest This work places the politics of Chinese workers in comparative perspective and a remarkably comprehensive and nuanced picture of Chinese labor emerges from it based on a wealth of primary materials It joins the concerns of new labor history for workers culture and shopfloor conditions with a more conventional focus on strikes unions and political parties As a result the author is able to explore the linkage between social protest and state formation      **Shark's Fins and Millet** Ilona Ralf Sues, 1944      **The Dark Valley** Piers Brendon, 2007-12-18 The 1930s were perhaps the seminal decade in twentieth century history a dark time of global depression that displaced millions paralyzed the liberal democracies gave rise to totalitarian regimes and ultimately led to the Second World War In this sweeping history Piers Brendon brings the tragic dismal days of the 1930s to life From Stalinist pogroms to New Deal programs Brendon re-creates the full scope of a slow international descent towards war Offering perfect sketches of the players riveting descriptions of major events and crises and telling details from everyday life he offers both a grand rousing narrative and an intimate portrait of an era that make sense out of the fascinating complicated and profoundly influential years of the 1930s      Smokeless Sugar Emily M. Hill, 2010 Part history part biography and part mystery story Smokeless Sugar reveals how the concept of a national economy took shape in China by investigating the 1936 execution of Feng Rui a provincial official who introduced modern sugar milling in Guangdong Examining the circumstances of Feng Rui's arrest on charges of corruption Emily Hill traces the construction of a Chinese national economy through cross border interactions between industry and agriculture and between China and Japan She makes the case that Feng was in fact a scapegoat in a multi-sided power struggle in which political leaders vied with commercial players for access to China's markets and tax revenues This illuminating study challenges conventional wisdom about the effectiveness of the Republican

state in promoting national unity during the Nanjing decade and highlights continuities in official economic policies from the 1930s to the Communist era *Making the Foreign Serve China* Anne-Marie Brady, 2003-09-08 This book provides the first detailed analysis of a crucial and distinctive element of Chinese foreign policy Anne Marie Brady follows the development of the Chinese Communist Party's foreign affairs system since 1921 focusing on waishi the external policies intended to influence and control both foreigners themselves as well as Chinese citizens contact with and perception of outsiders The term also comprises China's external relations both official state to state and so called unofficial or people to people diplomacy In effect waishi activities encompass all matters related to foreigners and foreign things not merely diplomacy By managing the foreign presence in China and China's contacts with the outside world and by controlling the Chinese population the author argues that waishi has proven to be one of the most effective tools in the CCP's repertoire for building and then sustaining its hold on power Drawing for the first time on policy documents that underpin the phenomena they describe Brady analyzes trends and developments in waishi during each chronological period The book elucidates how the CCP's policies evolved In the 1930s the need for a broad united front in international relations warred with the desire to control the foreign presence in China in the 1940s and 1950s the Sino Soviet alliance and ridding China of the traces of the semi colonial past took precedence in the 1960s the Sino Soviet split led to China's claim as the center of world revolution and in the past twenty years of reform the focus has been the ongoing quest to create a modern nation state as China opens up to the outside world The author considers waishi's deeper meaning as an overriding approach to the foreign which links state to state diplomacy with the management of the foreign presence in China Her groundbreaking research is based on a previously unexplored genre of waishi materials almost all classified in Chinese extensive interviews with waishi officials and foreign participant Communist Propaganda United States.
