

A dramatic landscape featuring a jagged, dark mountain peak in the foreground. The sky is a vibrant mix of orange, red, and purple, suggesting a sunset or sunrise. The overall mood is contemplative and inspiring.

We do not escape into
philosophy, psychology, and art –
we go there to restore our
shattered selves into whole ones.

Shattered Selves

Susan J. Hekman

Shattered Selves:

Shattered Selves James M. Glass, 1993 *Elaborate Selves* E Mark Stern, 2013-12-16 In this fascinating volume Anthony Molino interviews some of today's foremost thinkers in psychoanalysis and psychotherapy. Organized around the fertile and controversial concept of multiplicity, *Elaborate Selves* explores the life work and thought of a diverse group of therapists who have played key roles in furthering postmodern perspectives on self experience. Through five engaging conversations, readers discover how discontinuities in self experience reflect phenomena that are both fundamental to formations of human identity and central to an understanding of contemporary relationships. Throughout the strands of these interviews, theory and practice come alive in a multivocal exploration at the intersections of culture and history, ideology and instinct, biology and fantasy, nostalgia and hope, and ultimately of trauma and treatment. *Elaborate Selves* explores the postmodern concern with the notion of a multiple or fragmented self. In this context, the stories, lives, and selves of the very therapists interviewed are seen to reflect predicaments and tensions of the culture at large. Each interview explores a therapist's unique contribution to the field while making connections between efforts and theories that at a first glance appear remarkably diverse. Among these are the constructivism of Jungian Buddhist and feminist Polly Young-Eisendrath, the inspired object relations theorizing of Christopher Bollas, and the mystic sensibilities of Michael Eigen. Readers will find that the depth and complexities of the following issues are rendered in a language that is at once both compelling and accessible: contemporary theories of the self and implications for clinical practice; psychoanalysis and postmodernism; psychoanalysis and spirituality; myth and ritual as a basis for self knowledge and group psychotherapy. A fundamental text for clinicians and students of all schools of psychoanalysis, contemporary social theory, philosophy, and religious thought, *Elaborate Selves* is a major contribution to the ever-growing genre of the interview. Indeed, the interviews collected in this unique volume offer more than an exciting exploration of a singular group of life experiences. They probe beyond the biographical to illustrate connections between personal and intellectual history and between life experience, culture, and the production of knowledge in an increasingly complex world.

Private Selves, Public Identities Susan J. Hekman, 2010-11-01 In an age when we are all multiculturalists now, as Nathan Glazer has said, the politics of identity has come to pose new challenges to our liberal polity and the presuppositions on which it is founded. Just what identity means and what its role in the public sphere is are questions that are being hotly debated. In this book, Susan Hekman aims to bring greater theoretical clarity to the debate by exposing some basic misconceptions about the constitution of the self that defines personal identity, about the way liberalism conceals the importance of identity under the veil of the abstract citizen, and about the difference and interrelationship between personal and public identity. Hekman's use of object relations theory allows her to argue against the postmodernist resort to a fictive subject for a core self that is socially constructed in the early years of childhood but nevertheless provides a secure base for the adult subject. Such a self is social, particular, embedded, and connected—a stark contrast to the neutral and

disembodied subject posited in liberal theory This way of construing the self also opens up the possibility for distinguishing how personal identity functions in relation to public identity Against those advocates of identity politics who seek reform through the institutionalization of group participation Hekman espouses a vision of the politics of difference that eschews assigning individuals to fixed groups and emphasizes instead the fluidity of choice arising from the complex interaction between the individual's private identity and the multiple opportunities for associating with different groups and the public identities they define Inspired by Foucault's argument that power is everywhere Hekman maps out a dual strategy of both political and social cultural resistance for this new politics of identity which recognizes that with significant advances already won in the political legal arena attitudinal change in civil society presents the greatest challenge for achieving more progress today in the struggle against racism sexism and other forms of oppression **Self-Knowledge and the Self** David A

Jopling,2002-09-11 In this clear and reasoned discussion of self knowledge and the self the author asks whether it is really possible to know ourselves as we really are He illuminates issues about the nature of self identity which are of fundamental importance in moral psychology epistemology and literary criticism Jopling focuses on the accounts of Stuart Hampshire Jean Paul Sartre and Richard Rorty and dialogical philosophical psychology and illustrates his argument with examples from literature drama and psychology **Beside One's Self** Catherine Robinson,2011-05-24 What is it to feel homeless How does it feel to be without the orienting geography of home Going beyond homelessness as a housing issue this book uniquely explores the embodied emotional experiences of homelessness In doing so Robinson reveals much about existing gaps in service responses in community perceptions and in the ways in which homelessness most often becomes visible as a problem for policy makers She argues that the emotional dimension of displacement must be central to contemporary practices of researching understanding writing and responding to homelessness She situates the issue of homelessness at the nexus of important broader intellectual and methodological developments that take bodily and spatial experience as their starting point Drawing on field research and interviews Robinson details the lives of homeless individuals in Sydney Australia The moving narratives of these individuals bear witness to the key experiences of corporeal fragmentation geographical detachment and social alienation At the book's core lies a call to legitimize scholarly work that focuses on emotions particularly trauma facilitating researchers and policy makers to explore new avenues for evaluating service delivery **Beside One's Self** bridges the divide between research that has policy implications and research that makes theoretical contributions

the Self Robert W. Rieber,2006-08-03 For more than a hundred years dissociative states sometimes referred to as multiple personality disorder have fascinated the public as well as scientists The precise nature of this disorder is a controversial one dividing clinicians theorists and researchers Challenging the conventional wisdom on all sides Robert Rieber s Bifurcation of the Self traces the clinical and social history of dissociation in a provocative examination of this widely debated phenomenon At the core of this history is a trio of related evolutions hypnosis concepts of identity and dissociation beginning with nineteenth century hysterics and culminating in the modern boom in Dissociative Identity Disorder DID diagnoses and the parallel rise in childhood abuse repressed memory cases Rieber does not argue the non existence of DID rather he asserts that it is a rare disorder exaggerated by dissociation advocates and exploited by the media In doing so he takes on some of the most difficult questions in the field How crucial is memory to a person s identity Can two or more autonomous personalities actually exist in the same body If trauma causes dissociation why aren t there more DID cases Why are DID cases prevalent in some eras but not in others Does dissociative disorder belong in the DSM The book is rigorously illustrated with two centuries worth of famous cases including Christine Beauchamp Ansel Bourne Eve Black Eve White and most notably the woman known as Sybil whose story is covered in depth with newly revealed manuscripts And Rieber reviews the current state of DID related controversy from the professionals who feel that the condition is underreported to those who consider it a form of malingering so that readers may draw their own conclusions *Motherhood and Creativity in*

Contemporary Self-Life Writing Alice Braun,2024-08-21 This book aims to study the representation of motherhood in self life writing by English speaking authors It highlights the particular issues women writers are faced with when they try to combine their vocation as artists with their duties to their children For those women who claim their right to be both mothers and writers several cultural myths need to be taken down chief among which is the representations that we have of what being an artist should be like as well as the role a mother should have towards her children This book looks at self life writing by women from English speaking countries to reveal the common themes and tropes which recur in texts written on the subject of motherhood by looking at them from both a literary and a cultural perspective It also aims to demonstrate that a new generation of women writers is taking up the subject and forging a new literary tradition **Public Reason** Fred M. Frohock,2019-06-07 In this meditation on the different ways in which contemporary society construes the notion of political reason Fred M Frohock offers an alternative to the merit forms of reasoning prominent in liberal democracies He argues that

divisive issues such as abortion and physician assisted suicide resist rational closure reasonable individuals often reach different and contradictory conclusions The temptation is to abandon reason and depict governing as an exercise of pure power What resources do we have Frohock asks to develop a version of public reason which can succeed even in the deep pluralism anticipated in democratic practices Frohock makes a provocative argument the effects of divisive beliefs can be mitigated with a version of public reason defined as mediated speech acts These acts are dialogues on the model of a guided conversation in which collective terms dominate simple merit adjudication This type of public reasoning requires a survey of considerations beyond the merits of the case at hand Frohock s book combines theory and illustrative cases to present an unusually broad survey of public reasoning in which abstract arguments are developed in the context of highly charged contemporary issues

Psychosocial Pathways Towards Reinventing the South African University Sabrina Liccardo, 2020-11-02 This book proposes a conceptual empirical framework for exploring forms of continuity and change along psychosocial pathways in South African universities It illustrates how the psychosocial pathways are grounded in the symbolic narratives and knowledges of young scientists engineers and architects all interlocutors in the research from which this book is based Alala Mamoratwa Welile Odirile Kaiya Amirah Takalani Nosakhele Naila Ambani Khanyisile Itumeleng Ethwasa and Kgnaya provide collective standpoints in the multiplicities within and between the lived lives and told stories of young Black South African women in Science Technology Engineering and Mathematics STEM fields In doing so this compelling work advances possibilities for demythologising scientific endeavour as a white male achievement and shifting knowledge communities across gendered racialised class and national divides This book presents an innovative narrative methodology utilising the myth of the Minotaur to examine the state of the university at the heart of the hierarchical labyrinth in post apartheid South Africa Throughout the work the author wrestles with and self reflexively highlights her own positionality as a white middle class South African woman to examine how this affects the production of this research in ways which serve to preserve the colonial knowledge system With the rise of the Rhodes Must Fall and Fees Must Fall student movement in South Africa demanding for the fall of institutionalised racial hierarchies the author uses the cover image of narrative formations in the spirit of exploration to think with and through undulating networked forms that could possibly forge new psychosocial pathways towards decolonising and reinventing South African universities This work offers a unique conceptual and methodological resource for students and scholars of psychosocial and narrative theory as well as those who are concerned about the politics of higher education both in South Africa and in other contexts around the world

Hollywood on Stage Kimball King, 2013-07-04 Playwrights have been depicting Hollywood as a cultural desert and an industry of profit driven philistines ever since the early days of the movies This collection of original essays covers the period from the 1920s to the present but concentrates on such contemporary playwrights as David Mamet Sam Shepard David Rabe Arthur Kopit and Adrienne Kennedy A substantial proportion of the volume is devoted to a discussion of the way in which

these authors deconstruct Hollywood myths to reveal painful social and psychological issues in American life providing a deeper and darker picture than the simple satires of movie making in the 1920s and 1930s or Odets's comparison of the commercially debased Hollywood with the higher purer art of the theatre To complete and further complicate the picture the volume concludes with essays on the African American experience gay writers and feminist writing as seen through the lens of Marlane Myer's *ETTA JENKS* It is obvious that the legitimate stage remains a watchdog and constant critic of what is possibly the world's most powerful cultural phenomenon This book will be eagerly read by all students of film theatre and 20th century literature *Pillar of Salt* Janice Haaken, 1998 Introduces the controversy over recollections of childhood sexual abuse as the window onto a broader field of ideas concerning memory storytelling and the psychology of women
