Battle on the Lomba 1987 David Mannall, 2014-11-19 A South African national serviceman recounts becoming a

soldier and an ensuing David and Goliath face off against Angolan armed forces in 1987 The climactic death throes of Soviet Communism during the 1980s included a last gasp attempt at strategic franchise expansion in southern Africa Channeled through Castro s Cuba oil rich Angolan armed forces FAPLA received billions of dollars of advanced weaponry and thousands of armored vehicles Their intent to eradicate the US backed Angolan opposition UNITA then push southwards into South Africa s protectorate SWA Namibia ostensibly as liberators 1985 saw the first large scale mechanized offensive in southern African history Russian Generals planned and oversaw the offensive but didn t account for the tenacity of UNITA supported by the South African Defense Forces SADF or the rainy season The 85 offensive floundered in the mud and FAPLA returned to their capital Luanda The South Africans stood down confident their covert support for UNITA had demonstrated the folly of prosecuting war so far from home against Africa s military Superpower However they were mistaken Fidel and FAPLA immediately redoubled their efforts strengthening fifteen battalions with even more Soviet hardware while Russian and Cuban specialists oversaw troop training As Cuban and Angolan fighter pilots honed their skills over the skies of Northern Angola David Mannall a normal seventeen year old kid completing high school was preparing for two years of compulsory military service before beginning Tertiary education Through a series of fateful twists he found himself leading soldiers in several full scale armored clashes including the largest and most decisive battle on African soil since World War II This is a David and Goliath story that has never been truthfully told The author reveals how Charlie Squadron comprising just twelve 90mm AFVs crewed by thirty six national servicemen as part of the elite sixty one Mechanized Battalion engaged and effectively annihilated the giant FAPLA 47th Armored Brigade in one day 3 October 1987 Their 90mm cannons were never designed as tank killers but any assurances that it would never be used against heavy armor were left in the classroom during the three month operation and never more starkly than the decisive Battle on The Lomba River The Communist backed offensive died that day along with hundreds of opposition fighters 47th Brigade survivors abandoned their remaining equipment eventually joining the 59th Brigade in what became a full scale retreat of over ten thousand soldiers to Cuito Cuanevale The myth perpetuated by post apartheid politicians goes something like this The SADF force that destroyed 47th Brigade on 3 October numbered 6 000 men and that all the hard yards were run by the long suffering UNITA The inconvenient truth is that there were just 36 South African boys on the frontline that day but it is also true to say they would never have achieved such a stunning victory without the support of many more This is their story *Blood Lines* Nelson DeMille,Alex DeMille,2024-10-08 Special Agents Scott Brodie and Maggie Taylor are on the hunt for the cold blooded murderer of one of their fellow agents Five months after a dangerous mission in Venezuela Army Criminal Investigation agents Scott Brodie and Maggie Taylor reunite to investigate of their own CID Special Agent Harry Vance of the 5th MP Battalion an accomplished counterterrorism agent who had been stationed in western Germany and whose body was discovered in a city park in the heart of Berlin s Arab refugee community The authorities suspect this is an act of Islamic

terrorism but Brodie and Taylor soon believe there is more to this case Brodie and Taylor become immersed in the many conflicts and contradictions of modern Germany the refugee crisis the dark legacy of the Cold War and the Stasi secret police and the imminent threats of a rising neo Nazi movement Meanwhile they butt heads with authorities both local and at home and face a possible threat from American intelligence agents who fear that Brodie and Taylor might have learned too much about U S clandestine operations during their mission in Venezuela

Sierra Quest Edward Etzkorn,2005-04 An engaging tale spun from the author s wilderness experience and his imaginative treatment of a male female relationship in the making Jerry Schad author of the Afoot and Afield series September 29 1991 Roy Ogilvie walks out of a Fresno bank to his waiting getaway car with nearly 1 million By the end of the day his stolen airplane has crashed into the side of a mountain in the remote Sierra Nevada Mountains Searchers find the wreckage but not Roy or any trace of the stolen money September 28 2003 Nathan Rubideau knows where the searchers went wrong With his present life in shambles he sees the million dollar treasure as his ticket to a new life Only his inexperience in the wilderness has the potential to spoil his plan As he gazed satisfied out the cockpit window he pulled back on the control lever The forest petered out and the land began to lump itself into weird shapes of granite Ahead rose even higher peaks that would force him to climb even higher Once over the Sierra crest he d be home free He could glide down into any desert town he wished He was just zipping the bag shut and marveling at its weight when the plane s nose took an almost imperceptible dip and the engine made a spluttering sound A man not accustomed to small planes might not have noticed but nothing about a plane escaped Roy s attention With a stab of fear he glanced at the fuel gauge Its pointer had settled on E

Photography and Failure Kris Belden-Adams,2020-08-06 Throughout photography s history failure has played an essential recurring part in the development and perceived value of this medium Exploring a range of failures individual and institutional technological and historiographical Photography and Failure asks what it means to fail and considers how this narrative of failure has shaped our understanding of photography From the trial and error beginnings of photochemistry to poor business decisions influenced by fickle public opinion and taste the founders and early practitioners of photography frequently faced bankruptcy and ignominy Alongside these individual failures this collection of essays examines the role of museums in rediscovering preserving and presenting photographs within institutions as well as technological limitations such as the problematic panoramic lens or the digital archival failures of Snapchat Moving beyond the physical photograph and these processes the book also investigates the limitations of photographs themselves as purveyors of truth time space documentary realism and social change whether these failures are used to effect or not Finally the book probes the historiographical failures affecting the discipline drawing on key debates such as the perceived over emphasis on European and American photography and the place of photography theory in contemporary art practice Blurring the boundaries between traditional binaries of art and non art photography amateur and professional practice and individual and corporate perspectives Photography and Failure presents a new

approach to understanding and evaluating photographic history
