Past Martha J. Cutter, Cathy J. Schlund-Vials, 2018-04-01 Redrawing the Historical Past examines how multiethnic graphic novels portray and revise U S history This is the first collection to focus exclusively on the interplay of history and memory in multiethnic graphic novels Such interplay enables a new understanding of the past The twelve essays explore Mat Johnson and Warren Pleece's Incognegro Gene Luen Yang's Boxers and Saints GB Tran's Vietnamera Scott McCloud's The New Adventures of Abraham Lincoln Art Spiegelman's post Maus work and G Neri and Randy DuBurke's Yummy The Last Days of a Southside Shorty among many others The collection represents an original body of criticism about recently published works that have received scant scholarly attention The chapters confront issues of history and memory in contemporary multiethnic graphic novels employing diverse methodologies and approaches while adhering to three main guidelines First using a global lens contributors reconsider the concept of history and how it is manifest in their chosen texts Second contributors consider the ways in which graphic novels as a distinct genre can formally renovate or intervene in notions of the historical past Third contributors take seriously the possibilities and limitations of these historical revisions with regard to envisioning new different or even more positive versions of both the present and future As a whole the volume demonstrates that graphic novelists use the open and flexible space of the graphic narrative page in which readers can move not only forward but also backward upward downward and in several other directions to present history as an open realm of struggle that is continually being revised Contributors Frederick Luis Aldama Julie Buckner Armstrong Katharine Capshaw Monica Chiu Jennifer Glaser Taylor Hagood Caroline Kyungah Hong Angela Lafien Catherine H Nguyen Jeffrey Santa Ana and Jorge Santos **Comics for Film, Games, and Animation** Tyler Weaver, 2013-05-07 In recent years a new market of

comics so much so that you won't be able to wait to bring that medium into your story toolbox U.S. Militarism and the Terrain of Memory John Bechtold, 2024-08-01 This book analyzes how the Iraqi city of Fallujah became registered as a setting for military heroics in American memory. In 2004 the U.S. military conducted two disastrous assaults in Fallujah, Iraq. More than 1,000 citizens were killed and according to the military's own estimate upwards of 200,000 people were displaced because of the violence. Yet despite this human catastrophe the kind of information that emerged in the public domain during the battle foregrounded the soldier's experience in war while effacing the destruction of Iraqi bodies. This tendency to foreground the soldier body is a direct result of the military's intervention in what they conceptualize as the information environment. This book draws from the second assault in Fallujah as a case study to explicate the military's investment in this perspectival space which is a consequence both of the mediatization of contemporary war and of the need to influence knowledge considered unfavorable to military operations. In short the military enlists the media in their targeting process to produce information that is then deployed as persuasive force to modify the beliefs of specific target populations. When the cultural texts produced by the media are remediated in the public domain after war they can be thought of as martial constructs because they originated during war through the military's systemized attempt to influence knowledge. That is these texts trace to a specific battlefield objective. This book reframes the notion of propaganda as a generalized public relations strategy into a more acute and coordinated attempt to decontextualize specific knowledge in the information environment. This book will be of much interest to students of media and communication studies, war studies, memory studies and international relations Empire of the Superheroes Mark Cotta Vaz, 2021-01-05 Superman may be faster than a speeding bullet but even he can't outrun copyright law. Since the dawn of the pulp hero in the 1930s publishers and authors have fought over the privilege of making money off of comics and the authors and artists usually have lost. Jerry Siegel and Joe Shuster, the creators of Superman, got all of 130¢ for the rights to the hero. In *Empire of the Superheroes* Mark Cotta Vaz argues that licensing and litigation do as much as any ink-stained creator to shape the mythology of comic characters. Vaz reveals just how precarious life was for the legends of the industry. Siegel and Shuster and their heirs spent seventy years battling lawyers to regain rights to Superman. Jack Kirby and Joe Simon were cheated out of their interest in Captain America and Kirby's children brought a case against Marvel to the doorstep of the Supreme Court. To make matters worse the infant comics medium was nearly strangled in its crib by censorship and moral condemnation. For the writers and illustrators now celebrated as visionaries the golden age of comics felt more like hard times. The fantastical characters that now earn Hollywood billions have all too human roots. *Empire of the Superheroes* digs them up, detailing the creative martyrdom at the heart of a pop culture powerhouse *True Believer: The Rise and Fall of Stan Lee* Abraham Riesman, 2022-03-01 The definitive revelatory biography of Marvel Comics icon Stan Lee, a writer and entrepreneur who reshaped global pop culture at a steep personal cost. HUGO AWARD FINALIST, EISNER AWARD NOMINEE. *True Believer* is in every imaginable way the
