Sheer Will:

Heidegger: Off the Beaten Track Martin Heidegger, 2002-08-29 This collection of texts originally published in German under the title *Holzwege* is Heidegger's first post war book and contains some of the major expositions of his later philosophy. Of particular note are *The Origin of the Work of Art* perhaps the most discussed of all of Heidegger's essays and *Nietzsche's Word: God is Dead* which sums up a decade of Nietzsche research. Although translations of the essays have appeared individually in a variety of places this is the first English translation to bring them all together as Heidegger intended. The text is taken from the last edition of the work which contains the author's final corrections together with important marginal annotations that provide considerable insight into the development of his thought. This fresh and accurate new translation will be an invaluable resource for all students of Heidegger whether they work in philosophy, literary theory, religious studies or intellectual history.

On the Death of the Pilgrim: The Postcolonial Hermeneutics of Jarava Lal Mehta Thomas B. Ellis, 2012-11-28 This searching examination of the life and philosophy of the twentieth century Indian intellectual Jarava Lal Mehta details among other things his engagement with the oeuvres of Martin Heidegger, Hans Georg Gadamer and Jacques Derrida. It shows how Mehta's sense of cross cultural philosophy and religious thought were affected by these engagements and maps the two key contributions Mehta made to the sum of human ideas. First, Mehta outlined what the author dubs a postcolonial hermeneutics that uses the ethnotrope of the pilgrim to challenge the philosophical hermeneutic emphasis on supplementation and augmentation. For Mehta, the hermeneutic encounter ruptures rather than supplements the self. Secondly, Mehta extended this concept of hermeneutics to interrogate the Hindu tradition, arriving at the concept of the negative messianic. In contrast to Derrida's emphasis on the one to come, Mehta shows how the Hindu bhakti model represents the very opposite that is the withdrawn other, identifying thereby the ethical pitfalls of deconstructivism's emphasis on the messianic tradition. This is the only full length study in English of this high profile Hindu philosopher.
