Rational Classification of Literature for Shelving and Cataloguing Books in a Library Frederic Beecher

Perkins,2017-11-20 Excerpt from A Rational Classification of Literature for Shelving and Cataloguing Books in a Library With Alphabetical Index A copy of this edition is sent free to each person who had one of the first edition with my revised compliments The only important change is the substitution of a series of numbers in each of the eight classes to be used with the letter designating that class instead of the single series of numbers used in the first edition Objections were made to this long single series by others and I object to it myself About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Book on the Bookshelf* Henry

Petroski,2010-12-01 From the author of the highly praised *The Pencil* and *The Evolution of Useful Things* comes another captivating history of the seemingly mundane the book and its storage Most of us take for granted that our books are vertical on our shelves with the spines facing out but Henry Petroski inveterately curious engineer didn't As a result readers are guided along the astonishing evolution from papyrus scrolls boxed at Alexandria to upright books shelved at the Library of Congress Unimpeachably researched enviably written and charmed with anecdotes from Seneca to Samuel Pepys to a nineteenth century bibliophile who had to climb over his books to get into bed *The Book on the Bookshelf* is indispensable for anyone who loves books **A Rational Classification of Literature for Shelving and Cataloguing Books in a Library**
