**Writing Women in Modern China** Amy D. Dooling, Kristina M. Torgeson, 1998 The past few years have seen a burgeoning effort to rethink questions of women writing and gender in modern China Here 22 works of fiction drama autobiography essays and poetry each prefaced by the author's photograph and a short biographical sketch introduce women whose literary careers coincided with an era of tremendous social political and cultural turbulence 18 illustrations

**Conduct Books and the History of the Ideal Woman** Tabitha Kenlon, 2020-03-31 The longest running war is the battle over how women should behave Conduct Books and the History of the Ideal Woman examines six centuries of advice literature analyzing the print origins of gendered

expectations that continue to inform our thinking about women's roles and abilities. Close readings of numerous conduct manuals from Britain and America written by men and women explain and contextualize the legacy of sexism as represented in prescriptive writing for women from 1372 to the present. While existing period-specific studies of conduct manuals consider advice literature within the society that wrote and read them, *Conduct Books and the History of the Ideal Woman* provides the only analysis of both the volumes themselves and the larger debates taking place within their pages across the centuries. Combining textual literary analysis with a social history sensibility while remaining accessible to expert and novice, this book will help readers understand the on-going debate about the often contradictory guidelines for female behavior.

**Women in the British Army** Lucy Noakes, 2006-04-18 In this fascinating timely and engaging study Lucy Noakes examines women's role in the army and female military organizations during the First and Second World Wars during peacetime in the interwar era and in the post-war period. Providing a unique examination of women's struggle for acceptance by the British army, Noakes argues that women in uniform during the first half of the twentieth century challenged traditional notions of gender and threatened to destabilise clear-cut notions of identity by unsettling the masculine territory of warfare. Noakes also examines the tensions that arose as the army attempted to reconcile its need for female labour with their desire to ensure that the military remained a male preserve. Drawing on a range of archival sources including previously unpublished letters and diaries, official documents, newspapers and magazines, *Women in the British Army* uncovers the gendered discourses of the army to reveal that it was a key site in the formation of male and female identities. **A Guide to the Best Fiction in English** Ernest Albert Baker, 1913 **Contributions Towards a Bibliography of the Higher Education of Women** Mary Harris Rollins, 1897 Contributions Towards a Bibliography of the Higher Education of Women Association of Collegiate Alumnae (United States), 1897 **Contributions Towards a Bibliography of the Higher Education of Women.
