The Secret Astrology of the Bible Michael Ledo, 2010-05-02 The Secret Astrology of the Bible by Michael Ledo is a landmark book that will change the way the scholarly community and the general public views the Bible history and myth Epic in scope this provocative book explores the connections between religious belief and cosmic theory even as it attempts to explain contradictions and irregularities in the text The Bible states Ledo was constructed as a living document with much of its text expanded as time went on If readers stripped away this added material they could actually be left with an Early Bronze Age text over a thousand years older than what is currently accepted by scholars This text suggests Ledo would be a veritable cosmic myth which follows the constellations with stories in a contiguous fashion that combine both history and myth Originally sold as On Earth as it is in Heaven The Cosmic Roots of the Bible Flying Serpents and Dragons R. A. Boulay, 1999-07 A highly original work that deals a shattering blow to all our preconceived notions about our past and human origins Worldwide legends refer to giant flying lizards and dragons that came to this planet and founded the ancient civilizations of Mesopotamia Egypt India and China Who were these reptilian creatures What was the real reason for mans creation Why did Adam lose his chance at immortality in the Garden of Eden Who were the Nefilim who descended from heaven and mated with human women Why did the serpent take such a bad rap in history Why didnt Adam and Eve wear clothes What were the crystals or stones that the gods fought over Why did the ancient Sumerians call their major gods USHUMGAL which means literally great fiery flying serpent What were the boats of heaven in ancient Egypt and the sky chariots of the Bible This book tells it all
