Dallow,2022-05-19 This book traces an evolution of equine and equestrian art in the United States over the last two centuries to counter conventional understandings of subjects that are deeply enmeshed in the traditions of elite English and European culture In focusing on the construction of identity in painting and photography of Blacks women and the animals themselves involved in horseracing rodeo and horse show competition it illuminates the strategic and varying roles visual artists have played in producing cultural understandings of human animal relationships As the first book to offer a history of American equine and equestrian imagery it shrinks the chasm of literature on the subject and illustrates the significance of the genre to the history of American art This book further connects American equine and equestrian art to historical theoretical and philosophical analyses of animals and attests to how the horse endures as a vital meaningful subject within the art world as well as culture at large This book will be of interest to scholars in art history American art gender studies race and ethnic studies and animal studies *The Pictorial Adventures of Margaret Catchpole, the Great Female Horse-thief* Richard
