Louisiana Sugar Plantations During The Civil War:

Louisiana Sugar Plantations During the American Civil War Charles Pierce Roland, 1957 This early work by the esteemed historian Charles P. Roland draws from an abundance of primary sources to describe how the Civil War brought south Louisiana's sugarcane industry to the brink of extinction and disaster to the lives of civilians both black and white. A gifted raconteur, Roland sets the scene where the Louisiana cane country formed a favored and colorful part of the Old South and then unfolds the series of events that changed it forever: secession, blockade, invasion, occupation, emancipation, and defeat. Though sugarcane survived, production did not match prewar levels for twenty-five years. Roland's approach is both illustrative of an earlier era and remarkably seminal to current emancipation studies. He displays sympathy for plantation owners' losses but he considers as well the sufferings of women slaves and freedmen, yielding a rich study of the social, cultural, economic, and agricultural facets of Louisiana's sugar plantations during the Civil War. *Louisiana Sugar Plantations During the Civil War* Charles P. Hewitt, Arthur W. Bergeron, 2002

Louisianians in the Civil War brings to the forefront the suffering endured by Louisianians during and after the war, hardships more severe than those suffered by the majority of residents in the Confederacy. The wealthiest southern state before the Civil War, Louisiana was the poorest by 1880. Such economic devastation negatively affected most segments of the state's population, and the fighting that contributed to this financial collapse further fragmented Louisiana's culturally diverse citizenry. The essays in this book deal with the differing segments of Louisiana's society and their interactions with one another. Louisiana was as much a multicultural society during the Civil War as the United States is today. One manner in which this diversity manifested itself was in the turning of neighbor against neighbor. This volume lays the groundwork for demonstrating that strongholds of Unionist sentiment existed beyond the mountainous regions of the Confederacy and to a lesser extent that foreigners and African Americans could surpass white native-born Southerners in their support of the Lost Cause. Some of the essays deal with the attitudes and hardships the war inflicted on different classes of civilians: sugar planters, slaves, Union sympathizers,

and urban residents especially women while others deal with specific minority groups or with individuals Written by leading scholars of Civil War history Louisianians in the Civil War provides the reader a rich understanding of the complex ordeals of Louisiana and her people Students scholars and the general reader will welcome this fine addition to Civil War studies Publishers website Food and Agriculture during the Civil War R. Douglas Hurt, 2016-01-11 This book provides a perspective into the past that few students and historians of the Civil War have considered agriculture during the Civil War as a key element of power The Civil War revolutionized the agricultural labor system in the South and it had dramatic effects on farm labor in the North relating to technology Agriculture also was an element of power for both sides during the Civil War one that is often overlooked in traditional studies of the conflict R Douglas Hurt argues that Southerners viewed the agricultural productivity of their region as an element of power that would enable them to win the war while Northern farmers considered their productivity not only an economic benefit to the Union and enhancement of their personal fortunes but also an advantage that would help bring the South back into the Union This study examines the effects of the Civil War on agriculture for both the Union and the Confederacy from 1860 to 1865 emphasizing how agriculture directly related to the war effort in each region for example the efforts made to produce more food for military and civilian populations attempts to limit cotton production cotton as a diplomatic tool the work of women in the fields slavery as a key agricultural resource livestock production experiments to produce cotton tobacco and sugar in the North and the adoption of new implements

Slavery on Louisiana Sugar Plantations Vernie Alton Moody, 1924 Civil War and Agrarian Unrest Enrico Dal Lago, 2018-03-15 Between 1861 and 1865 both the Confederate South and Southern Italy underwent dramatic processes of nation building with the creation of the Confederate States of America and the Kingdom of Italy in the midst of civil wars This is the first book that compares these parallel developments by focusing on the Unionist and pro Bourbon political forces that opposed the two new nations in inner civil conflicts Overlapping these conflicts were the social revolutions triggered by the rebellions of American slaves and Southern Italian peasants against the slaveholding and landowning elites Utilizing a comparative perspective Enrico Dal Lago sheds light on the reasons why these combined factors of internal opposition proved fatal for the Confederacy in the American Civil War while the Italian Kingdom survived its own civil war At the heart of this comparison is a desire to understand how and why nineteenth century nations rose and either endured or disappeared

Records of Antebellum Southern Plantations from the Revolution Through the Civil War, Series I, 2012 The 1868 St. Bernard Parish Massacre C. Dier, 2011-02-11 The slaughter of newly liberated African Americans just days before a Reconstruction Era election is recounted in this true crime history Louisiana 1868 With the Civil War over a victorious Ulysses S Grant was riding a wave of popularity straight to the White House But former Confederates across the South feared what Reconstruction might look like under President Grant Days before the tumultuous election Louisiana s St Bernard Parish descended into chaos As African American men gained the right to vote white Democrats of the parish feared

losing their majority Armed groups mobilized to suppress these recently emancipated voters Freed people were dragged from their homes and murdered in cold blood Many fled to the cane fields to hide from their attackers The reported number of those killed varies from 35 to 135 Though efforts were made to cover up the tragedy its implications reverberated throughout the South and lingered for generations In this authoritative chronicle historian Chris Dier reveals the horrifying true story behind the St Bernard Parish Massacre *Lost Plantation* Marc R. Matrana,2006-01-01 Along the fertile banks of the Mississippi River across from New Orleans planter Camille Zeringue transformed a mediocre colonial plantation into a thriving gem of antebellum sugar production complete with a columned mansion known as Seven Oaks Under the moss strewn oaks the privileged master nurtured his own family but enslaved many others Excelling at agriculture business an ambitious canal enterprise and local politics Zeringue ascended to the very pinnacle of southern society But his empire soon came crashing down After the ravages of the Civil War and a nasty battle with a railroad company the family eventually lost the great estate Seven Oaks ultimately ended up in the hands of distant railroad executives whose only desire was to rid themselves of this heap of history *Lost Plantation The Rise and Fall of Seven Oaks* tells both of Zeringue s climb to the top and of his legacy s eventual ruin Preservationists and community members abhorred the railroad s indifferent attitude and the question of the plantation mansion s fate fueled years of fiery political battles These hard fought confrontations ended in 1977 when the exasperated railroad executives sent bulldozers through the decaying house By analyzing one failed effort *Lost Plantation* provides insight into the complex workings of American historical preservation efforts as a whole while illustrating how southerners deal with their multifaceted past The rise and fall of Seven Oaks is much more than just a local tragedy it is a glaring example of how any community can be robbed of its history Now as parishes around New Orleans recognize the great aesthetic and monetary value of restoring plantation homes and attracting tourism Jefferson Parish mourns a manor lost Marc R Matrana Westwego Louisiana is a local historian and preservationist See the author s site

Butlers of Iberville Parish, Louisiana David D. Plater,2015-11-18 In 1833 Edward G W and Frances Parke Butler moved to their newly constructed plantation house Dunboyne on the banks of the Mississippi River near the village of Bayou Goula Their experiences at Dunboyne over the next forty years demonstrated the transformations that many land owning southerners faced in the nineteenth century from the evolution of agricultural practices and commerce to the destruction wrought by the Civil War and the transition from slave to free labor and finally to the social political and economic upheavals of Reconstruction In this comprehensive biography of the Butlers David D Plater explores the remarkable lives of a Louisiana family during one of the most tumultuous periods in American history Born in Tennessee to a celebrated veteran of the American Revolution Edward Butler pursued a military career under the mentorship of his guardian Andrew Jackson and during a posting in Washington D C met and married a grand niece of George Washington Frances Parke Lewis In 1831 he resigned his commission and relocated Frances and their young son to Iberville Parish where the couple began a sugar cane plantation As their land holdings grew they amassed more enslaved laborers and improved their social prominence in Louisiana s antebellum society A staunch opponent of abolition Butler voted in favor of Louisiana s withdrawal from the Union at the state s Secession Convention But his actions proved costly when the war cut off agricultural markets and all but destroyed the state s plantation economy leaving the Butlers in financial ruin In 1870 with their plantation and finances in disarray the Butlers sold Dunboyne and resettled in Pass Christian Mississippi where they resided in a rental cottage with the financial support of Edward J Gay a wealthy Iberville planter and their daughter in law s father After Frances died in 1875 Edward Butler moved in with his son s family in St Louis where he remained until his death in 1888 Based on voluminous

primary source material The Butlers of Iberville Parish Louisiana offers an intimate picture of a wealthy nineteenth century family and the turmoil they faced as a system based on the enslavement of others unraveled

Reconstruction in the Cane Fields John C. Rodrigue, 2001-05-01 In *Reconstruction in the Cane Fields* John C Rodrigue examines emancipation and the difficult transition from slavery to free labor in one enclave of the South the cane sugar region of southern Louisiana In contrast to the various forms of sharecropping and tenancy that replaced slavery in the cotton South wage labor dominated the sugar industry Rodrigue demonstrates that the special geographical and environmental requirements of sugar production in Louisiana shaped the new labor arrangements Ultimately he argues the particular demands of Louisiana sugar production accorded freedmen formidable bargaining power in the contest with planters over free labor Rodrigue addresses many issues pivotal to all post emancipation societies How would labor be reorganized following slavery's demise Who would wield decision making power on the plantation How were former slaves to secure the fruits of their own labor He finds that while freedmen's working and living conditions in the postbellum sugar industry resembled the prewar status quo they did not reflect a continuation of the powerlessness of slavery Instead freedmen converted their skills and knowledge of sugar production their awareness of how easily they could disrupt the sugar plantation routine and their political empowerment during Radical Reconstruction into leverage that they used in disputes with planters over wages hours and labor conditions Thus sugar planters far from being omnipotent overlords who dictated terms to workers were forced to adjust to an emerging labor market as well as to black political power The labor arrangements particular to postbellum sugar plantations not only propelled the freedmen's political mobilization during Radical Reconstruction Rodrigue shows but also helped to sustain black political power at least for a few years beyond Reconstruction's demise in 1877 By showing that freedmen under the proper circumstances were willing to consent to wage labor and to work routines that strongly resembled those of slavery *Reconstruction in the Cane Fields* offers a profound interpretation of how former slaves defined freedom in slavery's immediate aftermath It will prove essential reading for all students of southern African American agricultural and labor history
