Love Sick One Woman's Journey Through Sexual Addiction:

Love Sick Sue William Silverman, 2008-02-17 Now a Lifetime Television original movie airing April 2008 with Sally Pressman star of *Army Wives* In this powerful memoir a woman learns to value herself as a whole person rather than as a sexual object Sue William Silverman tells of her roller coaster life of sex and self destructive behavior Finally addicted to danger itself she seeks the help of a trusted therapist to discover what love really means Addicted? Marilyn Freimuth, 2008-05-29 Despite our associating addictions with crazy out of control behavior most addictions go unrecognized Those who suffer from addictions often misinterpret their symptoms as a sign of some other problem Health care professionals who are entrusted by society to identify such problems routinely fail to do so When addictions are recognized they are confined to substance use which overlooks the wide array of activities that engage people in an addictive manner Further when addictions are detected they are in their most advanced and difficult to treat phases In large part this is due to the all or none way we think about addiction either you are addicted or not In reality an addiction does not emerge fully formed what starts out as just having fun gradually over time becomes a problem To limit the devastation created by late stage addictions and reap the benefits of early detection this book provides questionnaires that screen for a wide array of chemical and behavioral addictions at all stages of development Much in the same way we learned the early warning signs of cancer this book explores different ways to recognize the early and often subtle signs of addiction Unlike cancer where people rush to get treatment facing an addiction is associated with guilt and ambivalence To navigate these feelings and get help the book provides a step by step guide for how to prepare the addicted person be it oneself or someone else to change an addiction **Selected Misdemeanors** Sue William Silverman, *Desire* Susan Cheever, 2009-10-06 We've all felt the giddy flutter of excitement when our new lover walks into the room Waited by the phone changed our plans But are we in love or is there something darker at work In *Desire Where Sex Meets Addiction* Susan Cheever explores the shifting boundaries between the feelings of passion and addiction desire and need and she raises provocative and important questions about who we love and why Elegantly written and thoughtfully composed Cheever's book combines unsparing and intimate memoir interviews and stories hard science and psychology to explore the difference between falling in love and falling prey to an addiction Part one defines what addiction is and how it works the obsession the betrayals the broken promises to oneself and others Part two explores the possible causes of addiction is it nature or nurture a permanent condition or a temporary derangement Part three considers what we can do about it including a provocative suggestion about how we describe and treat addiction and a look at the importance of community and storytelling In the end there are no easy answers A straight look about some crooked feelings *Desire* shows us the difference between the addiction that cripples our emotions and healthy empowering love that enhances our lives **You Need Help!** Mark S Komrad, 2012-07-31 If you feel that a friend or loved one has a problem and needs professional help this step by step guide will give you the tools to

approach engage and support him or her Just about everyone knows a relative friend or coworker who is exhibiting signs of emotional or behavioral turmoil Yet figuring out how to reach out to that person can feel insurmountable We know it is the right thing to do yet many of us hesitate to take action out of fear of conflict hurt feelings or damaging the relationship Through a rich combination of user friendly tools and real life stories Mark S Komrad MD offers step by step guidance and support as you take the courageous step of helping a friend who might not even recognize that he or she is in need He guides you in developing a strong course of action starting by determining when professional help is needed then moves you through the steps of picking the right time making the first approach gathering allies selecting the right professional and supporting friends or relatives as they go through the necessary therapeutic process to resolve their problems Included are scripts based on Komrad s work with his own patients designed to help you anticipate next steps and arm you with the tools to respond constructively and compassionately You will also find the guidance and information needed to understand mental illness and get past the stigma still associated with it so you can engage and support your loved one with insight and compassion in his or her journey toward emotional stability and health
