Summary of Rollo May's Man's Search for Himself Everest Media, 2022-05-13T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The major inner problems of people in our day are unhappiness inability to decide about marriage or vocations general despair and meaninglessness in their lives and so on But what underlies these symptoms 2 The chief problem of people in the middle decade of the twentieth century is emptiness They do not know what they want and they do not have any clear idea of what they feel They feel empty because they do not have any definite experience of their own desires or wants 3 The problem with not knowing what you want is that it is often due to the fact that we live in a time of uncertainty with a future of insecurity facing us no matter how we look at it 4 The modern man is also hollow and this can be seen in the patients that come to psychologists and psychoanalysts for help The typical American character was previously inner directed but is now outer directed He seeks to fit in rather than stand out

Dilemmas of the New World : Man's Search For Himself In The New World Serol Aksel, 2024-09-15 The term New world carries multiple connotations While it traditionally denotes newly discovered territories such as the American continent in this context it signifies the profound and transformative shift that the world has undergone over the past three centuries This shift which finds its roots in the Enlightenment and modernity began to manifest itself more prominently after the First World War While this transformation is often equated with globalization its origins can be traced back to the era of industrialization and the rise of nation states which set the stage for subsequent global shifts Dilemma is a subject of logic but it is also used in daily life In daily use it often evokes contradictory situations It is expected to correspond to inextricable knotted cyclical situations What I mean by the dilemmas of the new world is the social order and view of the universe that humanity has lived in since the age of curiosity that is from the middle of the 18th century to the present day at least ten thousand years since the world transitioned to agricultural society the fact that the understanding of morality and most importantly the meaning it attributes to its existence have brought with them

insurmountable problems despite the changes in direction While this new era was a game changer on the one hand on the other hand the meaning that man attributed to himself in every new thing he discovered with the development of science and technology was shaken Existentialism emerged as a result of this new state of thinking While the new attribution of meaning isolated man on the one hand on the other hand nation states consisting of human communities gathered around a common ideal were established Individual freedoms and gathering around a common goal became in conflict at some points While humanism the most crucial emphasis of the Enlightenment glorified human beings on the one hand on the other hand there were significant obstacles to free thought On the other hand while the religious sentiments to which human beings were attached to give meaning to their existence were shaken new meanings could not be found to replace them While observations and findings show that the earth is far beyond the centre of the universe the discovery that man is descended from animals has deeply affected religious beliefs at least by the world of science and people who believe in the guidance of science For man who had to somehow hold on to life these new teachings could not offer him any In this state the world needed new motives and new beliefs At this very stage capitalism came to the rescue of humanity The new system which pushed man to become a commodity owner did not give him time to question himself *The Courage to Create* Rollo May, 1994-03-17 Extraordinary wise and hopeful nearly poetic meditations Boston Globe What if imagination and art are not as many of us might think the frosting on life but the fountainhead of human experience What if our logic and science derive from art forms rather than the other way around In this trenchant volume Rollo May helps all of us find those creative impulses that once liberated offer new possibilities for achievement A renowned therapist and inspiring guide Dr May draws on his experience to show how we can break out of old patterns in our lives His insightful book offers us a way through our fears into a fully realized self **Journeys of Faith** Mike Brock, 2023-06-20 Journeys of Faith examines the contributions of the leading figures of the humanistic psychology movement with particular attention to their spiritual journeys Rising to prominence in America during the post World War II years humanistic psychology is experiencing a resurgence in the present day in response to the need for a psychological approach that addresses meaning and purpose in life The key players Abraham Maslow Carl Rogers Erich Fromm and Rollo May all rejected the orthodoxy of their religious inheritance in favor of a more humanistic approach and in the process discovered a renewed spirituality that they hoped would address the concerns of a world yearning for something to believe in While the humanistic psychologists confronted the world's problems through the lens of psychology other thinkers such as the evolutionary biologist Julian Huxley approached them through different though equally humanistic perspectives Others still such as Paul Tillich Martin Buber and Pierre Teilhard de Chardin confronted the times through a religious lens The influence of the centuries long Jewish tradition of scholarship and social justice and the frequent examples of friendship and professional cooperation between the secular and the religious worlds provide critical subthemes for the lasting appeal of humanistic psychology **A Young Man's Search of the**

Reality of a God Kingsley B. Garrison Ph.D.,2023-03-15 So God showed up in my life in a mighty way just when I needed Him most I had no money but I had a need He met my need and provided more The Lord had already put in place a plan to deliver me to bless me before I even felt the first clue of a problem Occasionally when I forget the Spirit reminds me what He said I will never leave you or forsake you That s what this book is about my search for God and the truth not my parents truth not my church s truth but the truth according to the Bible **Uprooting the Root of all Evil** John W.

Casperson,2015-12-08 One of the greatest individuals of the twentieth century was the founding father of India Mohandas K Gandhi His vision determination and courage of heart mind and soul were the rocks on which the modern country of India was founded Though he never held political office his moral authority formed the vanguard that would lead the populace of the Indian sub continent to pursue and obtain home rule from the British Crown Mr Gandhi had this to say while still under the yoke of British rule An armed conflict between nations horrifies us But the economic war is no better than an armed conflict This is like a surgical operation An economic war is prolonged torture And its ravages are no less terrible than those depicted in the literature on war properly so called We think nothing of the other because we are used to its deadly effects The movement against war is sound I pray for its success But I cannot help the gnawing fear that the movement will fail if it does not touch the root of all evil greed M K Gandhi Non Violence The Greatest Force I Timothy 9 10 But those who desire to be rich fall into temptation into a snare into many senseless and harmful desires that plunge people into ruin and destruction For the love of money is a root of all kinds of evils Greed comes in two forms greed of power and greed of money Greed for power comes in two forms power over body and power over soul This work will confront the powerbrokers of religion and finance and lay bare their lies and deceit in the realm of both body and soul Each person is a sovereign being After uprooting the root of all evil may each person be able more fully to reclaim their sovereignty over their bodies and souls **The Faith**

Louis A. Marini,2022-04-25 Faith is a word frequently used these days as we continue to struggle through a pandemic that took the lives of over eight hundred thousand Americans and rising Amid unsolved questions posed to the world of medicine in the throes of political and social unrest the darkness of this nightmare has left many with a growing skepticism in the leadership of many traditional institutions of Church and State Why are people so concerned over the existential issues of life and faith during these unprecedented times where the world seems to have gone topsy turvy Louis Marini suggests that faith has always been a multidimensional reality inherent in people s lives People have always aspired to faith to unite a nation in times of distress and social unrest The human act of believing is the first step to walking in faith Believing is always believing in another human being Faith always necessitates and is sustained only in relationships whether faith is solely based upon human interaction or seeking communion with the Divine These reflections open the possibility for discussions that faith is not just a human phenomenon but a natural gift that may transition into a relationship with the Divine Faith which is fundamentally a human reality can become a divine mystery This realization hopefully can console and heal us from the scars

Aquinas and the Theology of the Body Thomas Petri, 2016-04-22 Pope John Paul's Theology of the Body catecheses has garnered tremendous popularity in theological and catechetical circles Students of the Theology of the Body have generally interpreted it as innovative not only in its presentation of the Church's teaching on marriage and sexuality but also as radically advancing that teaching Aquinas and the Theology of the Body offers a somewhat different interpretation Fr Thomas Petri argues that the philosophy and theology of Thomas Aquinas substantially contributed to John Paul's intellectual formation which he never abandoned A correct interpretation of the Theology of the Body requires therefore a thorough understanding of Thomistic anthropology and theology which has been mostly lacking in commentaries on the pope's important contributions on the subject of marriage and sexuality

Journeys of Faith: Religion, Spirituality, & Humanistic Psychology Mike Brock PhD LPC, 2020 Journeys of Faith Religion Spirituality and Humanistic Psychology is about the intersection of a now hallowed approach to psychotherapy today referred to as humanistic or person centered counseling and the broad religious spiritual world that its first practitioners found themselves engaging often much to their surprise What is humanistic psychology Where did it come from How did it replace the two storied therapies Sigmund Freud's psychoanalysis and B F Skinner's behaviorism that had previously dominated counseling And why and how did the practitioners of humanistic psychology find themselves engaging spiritual and religious questions which hitherto had been understood by most psychologists as foreign to their field of interest These are the questions Journeys of Faith Religion Spirituality and Humanistic Psychology addresses Rising to prominence in America during the post World War II years humanistic psychology reached its zenith in the 1950s and 1960s and continued to influence the national

conversation psychologically spiritually politically and culturally throughout the remaining decades of the 20th century During those years it attracted a wide and diverse following becoming a cultural phenomenon that affected everything from counseling and education to parenting religion and business management Its influence continues to be felt today though often unrecognized and uncredited The key players in the humanistic psychology movement Abraham Maslow Carl Rogers Erich Fromm and Rollo May hailed from different sociocultural and religious backgrounds and followed dissimilar though interconnecting professional paths While they were confronting the world's problems through the lens of psychology and psychotherapy other thinkers were approaching them from different perspectives though equally humanistic Among those others the evolutionary biologist Julian Huxley receives special attention as one with particularly useful insights into the intersection of science and spirituality At a time when society is desperate for a sense of centeredness Dr Michael Brock produces for us a comprehensive address to just those factors which make life worth living In *Journeys of Faith Religion Spirituality and Humanistic Psychology* he demonstrates humanity's yearning for the experiential encounter with awe wonder and mystery and provides an assessment of the leading systems of psychological analysis in the modern world that offers scholars practitioners and students insight into the way forward in these times of anxiety and uncertainty A more cogent integration of psychology and spirituality is not presently available Dr John Henry Morgan Ph D Th D D Sc London Psy D FH Oxford Research Professor of Clinical Psychopathology Graduate Theological Foundation Oklahoma Harvard University Postdoctoral Visiting Scholar Mike Brock is a counselor in private practice in Dallas and Carl Ransom Rogers Professor of Counseling Psychology at the Graduate Theological Foundation In addition he teaches in the pastoral ministry program at the University of Dallas His academic background includes degrees in philosophy history counseling and psychology
