Subject Guide to Books in Print, 1984 State Capitalism and Working-class Radicalism in the French Aircraft Industry Herrick Chapman, 1991-01-01 Using the example of the aircraft industry which takes him like an arrow to the heart of many of the key conflicts in French life between 1936 and 1948 Herrick Chapman has written a penetrating and exceptionally well documented account of the way that France developed her present style of industrial relations in which the state plays such a central role. No book I know so successfully integrates the history of aviation with the political and social history of France. Both thorough and thoughtful it is an impressive achievement. Robert Wohl University of California Los Angeles An unusual innovative book based on impressive research that throws new light in a major way on twentieth century French politics and society one of the most interesting and original monographs in modern French history in a long time. Robert O Paxton Columbia University This is a breakthrough of considerable importance. Chapman will become the leading North American perhaps even English speaking historian of contemporary France.
