New Approaches To Medieval Textuality:

New Approaches to Medieval Textuality Mikle D. Ledgerwood, 1998 Only recently has the study of medieval literature gone beyond approaches pioneered in the nineteenth century The contributors to this volume attack this problem using approaches that range from purely Peircean semiotic to semiotic hermeneutics and reader response One contributor even speaks of the DOS Disk Operating System of certain medieval texts This work aims at establishing new ways of discussing medieval textuality with its complexities being discussed at both textual and global levels Text and Textuality in Early Medieval Iberia Graham Barrett, 2023-06-20 Text and Textuality in Early Medieval Iberia is a study of the functions and conceptions of writing and reading documentation and archives and the role of literate authorities in the Christian kingdoms of the northern Iberian Peninsula between the Muslim conquest of 711 and the fall of the Islamic caliphate at Cordoba in 1031 Based on the first complete survey of the over 4 000 surviving Latin charters from the period it is an essay in the archaeology and biography of text part one concerns materiality tracing the lifecycle of charters from initiation and composition to preservation and reuse while part two addresses connectivity delineating a network of texts through painstaking identification of more than 2 000 citations of other charters secular and canon law the Bible liturgy and monastic rules Few may have been able to read or write yet the extent of textuality was broad and deep in the authority conferred upon text and the arrangements made to use it Via charter and scribe society and social arrangements came increasingly to be influenced by norms originating from a network of texts By profiling the intersection and interaction of text with society and culture Graham Barrett reconstructs textuality how the authority of the written and the structures to access it framed and constrained actions and cultural norms and proposes a new model of early medieval reading As they cited other texts charters circulated fragments of those texts we must rethink the relationship of sources and audiences to reflect fragmentary transmission in a textuality of imperfect knowledge *Rethinking the New Medievalism* R. Howard Bloch, Alison Calhoun, Jacqueline Cerquiglini-Toulet, Joachim Küpper, Jeanette Patterson, 2014-04-30 In the early 1990s Stephen Nichols introduced the term new medievalism to describe an alternative to the traditional philological approach to the study of the romantic texts in the medieval period While the old approach focused on formal aspects of language this new approach was historicist and moved beyond a narrow focus on language to examine the broader social and cultural contexts in which literary works were composed and disseminated Within the field this transformation of medieval studies was as important as the genetic revolution to the study of biology and has had an enormous influence on the study of medieval literature Rethinking the New Medievalism offers both a historical account of the movement and its achievements while indicating in Nichols s innovative spirit still newer directions for medieval studies The essays deal with questions of authorship theology and material philology and are written by members of a wide philological and critical circle that Nichols nourished for forty years Publisher s Web site **New Approaches to Editing Old English Verse** Sarah Larratt Keefer, Katherine O'Brien

O'Keeffe,1998 Seven original essays on the theory practice and future of editing Old English verse **New Approaches to Textual and Image Analysis in Early Jewish and Christian Studies** ,2022-10-17 The digital world pervades the everyday lives of most people and online tools have become an essential part of academic research in many disciplines This reality is true also for biblical studies and related disciplines areas that work with complex literary traditions multiple manuscript cultures and many methodological approaches to the problems at the centre of our discussions This book shines a light on multiple new and emerging approaches to big disciplinary questions in biblical studies and beyond by highlight projects that are using digital tools crafting computer assisted approaches and re thinking the resources fundamental to the history of research *The Routledge Companion to Semiotics and Linguistics* Paul Cobley,2005-11-30 The Routledge Companion to Semiotics and Linguistics opens up the world of semiotics and linguistics for newcomers to the discipline and provides a useful ready reference for the more advanced student **Neo-Latin Philology: Old Tradition, New Approaches** Marc van der Poel,2014-07-04 Material Philology and the study of Renaissance Latin literature Neo Latin Philology Old Tradition New Approaches explores the question whether the approaches developed in the so called New or Material Philology can be applied to the study of Renaissance Latin literature Two contributions in this volume focus on theoretical issues the first presenting a critical assessment of the debate on New Philology in the 1990s the second providing some guidelines for researchers of the materiality of sources The remaining seven contributions discuss various ways in which the material presentation in either manuscript or print played a part in the interpretation of a variety of texts including Basinio of Parma s *Hesperis Niccol Perotti s Cornu copiae* some poems by Janus Secundus a commentary on Horace s *Ars poetica* Otto Venius *Emblemata Horatiana* Johann Lauremberg s play *Pompejus Magnus* and the *Alithinologia* by John Lynch Contributors Haijo Westra University of Calgary H Wayne Storey Indiana University Bloomington Christoph Pieper Leiden University Marianne Pade Academy of Denmark Rome David Rijser University of Amsterdam Werner J C M Gelderblom Radboud University Nijmegen Marc van der Poel Radboud University Nijmegen Tom Deneire Antwerp University Library Nienke Tjoelker Ludwig Boltzmann Institute for Neo Latin Studies Innsbruck *The Ethics of Reading in Manuscript Culture* John Dagenais,1994-02-18 Reexamining the roles played by author reader scribe and text in medieval literary practice John Dagenais argues that the entire physical manuscript must be the basis of any discussion of how meaning was made Medievalists he maintains have relied too heavily on critical editions that seek to create a single definitive text reflecting an author s intentions In reality manuscripts bear not only authorial texts but also a variety of elements added by scribes and readers glosses marginal notes pointing hands illuminations and fragments of other seemingly unrelated works Using the surviving manuscripts of the fourteenth century *Libro de buen amor* a work that has been read both as didactic treatise on spiritual love and as a celebration of sensual pleasures Dagenais shows how consideration of the physical manuscripts and their cultural context can shed new light on interpretive issues that have puzzled modern readers Dagenais also addresses

the theory and practice of reading in the Middle Ages showing that for medieval readers the text on the manuscript leaf including the text of the Libro was primarily rhetorical and ethical in nature It spoke to them directly individually always in the present moment Exploring the margins of the manuscripts of the Libro and of other Iberian works Dagenais reveals how medieval readers continually reshaped their texts both physically and ethically as they read and argues that the context of medieval manuscript culture forces us to reconsider such comfortable received notions as text and literature and the theories we have based upon them **Medieval Translations and Cultural Discourse** Sif Rikhardsdottir,2012 Argues that the many translations of Francophone texts reflect the new cultures of north western Europe in which they appeared demonstrating cultural movement and changes in linguistic and cultural identity Anglo-Saxon England: Volume 28 Michael Lapidge,Malcolm Godden,Simon Keynes,2000-06-22 This volume is framed by articles that throw interesting light on the achievement and reputation of the greatest of Anglo Saxon kings Alfred
