

The New Buddhism

THE WESTERN TRANSFORMATION
OF AN ANCIENT
TRADITION

JAMES WILLIAM COLEMAN

New Buddhism The Western Transformation Of An Ancient Tradition

David L. McMahan

New Buddhism The Western Transformation Of An Ancient Tradition:

The New Buddhism James William Coleman,2001 This text outlines the development and spread of ancient Buddhism It describes its journey west and its evolution here sketching the lives and teachings of some of Western Buddhism s most important figures Traditions and Transformations Michaela Hailbronner,2015 **The Making of Buddhist**

Modernism David L. McMahan,2008-11-14 In this book David McMahan charts the development of modern Buddhism He presents modern Buddhism as a complex historical process constituted by a variety of responses to some of the most important concerns of the modern era **The Oxford Handbook of Buddhist Practice** Paula Kane Robinson Arai,Kevin

Trainor,2022 Foregrounds the impact of embodiment in Buddhism Highlights the diversity and fluidity of Buddhist identities The most comprehensive available volume on Buddhist practice Book jacket **Debating Yoga and Mindfulness in**

Public Schools Candy Gunther Brown,2019-03-27 Yoga and mindfulness activities with roots in Asian traditions such as Hinduism or Buddhism have been brought into growing numbers of public schools since the 1970s While they are commonly assumed to be secular educational tools Candy Gunther Brown asks whether religion is truly left out of the equation in the context of public school curricula An expert witness in four legal challenges Brown scrutinized unpublished trial records informant interviews and legal precedents as well as insider documents some revealing promoters of Vedic victory or stealth Buddhism for public school children The legal challenges are fruitful cases for Brown s analysis of the concepts of religious and secular While notions of what makes something religious or secular are crucial to those who study religion they have special significance in the realm of public and legal norms They affect how people experience their lives raise their children and navigate educational systems The question of religion in public education Brown shows is no longer a matter of jurisprudence focused largely on the establishment of a Protestant Bible or nonsectarian prayer Instead it now reflects an increasingly diverse American religious landscape Reconceptualizing secularization as transparency and religious voluntarism Brown argues for an opt in model for public school programs **Encountering Buddhism in**

Twentieth-Century British and American Literature Lawrence Normand,Alison Winch,2013-10-24 Encountering Buddhism in Twentieth Century British and American Literature explores the ways in which 20th century literature has been influenced by Buddhism and has been in turn a major factor in bringing about Buddhism s increasing spread and influence in the West Focussing on Britain and the United States Buddhism s influence on a range of key literary texts will be examined in the context of those societies evolving modernity Writers discussed include T S Eliot Hermann Hesse Virginia Woolf Jack Kerouac Allen Ginsberg J D Salinger Iris Murdoch Maxine Hong Kingston This book brings together for the first time a series of context rich interpretations that demonstrate the importance of literature in this ongoing cultural change in Britain and the United States **Democracy and Morality** Patti Tamara Lenard,Margaret Moore,2024-02-14 Democracy is a dominant

principle and practice to legitimate political power in the modern world and yet its relationship with other moral traditions is

not well understood some but not all commitments with it feminism Classical and Egalitarian variants of Liberalism Ethical theories by their very nature are universal theories and tend to be suspicious of democratic legitimacy arguments since the people who are the source of democratic legitimacy might support some things that are contrary to justice as described in the tradition Yet appeal to democracy remains one of the most powerful appeals to legitimize political power in the contemporary world This volume is interested in the relationship between democracy and moral traditions whose origins either precede the democratic ideal of legitimacy Buddhism Christianity Confucianism Hinduism Islam Judaism Natural Law or developed in some sense along side the democratic ideal and share some of its commitments This volume explores the relationship between these moral traditions and democracy including the way in which the moral and religious perspectives have adapted in their encounter with democratic ideals and have themselves modified democratic theory and practice This is a work in comparative ethics The contributors each an expert in one of these traditions show how that traditions has confronted democracy and considers different dimensions in which the traditions have engaged with the tradition To orient the engagement between democratic principles and the moral traditions the contributors focus on various dimensions in which the two have engaged The contributors consider their tradition s views of participation including eligibility for participation and opportunities to do so including people with quite different world views the scope of democracy as conceived by the tradition including how the democratic people interact or ought to interact with adherents of other traditions and whether some of the pillars of moral tradition have themselves helped to inform democratic principles and practices in communities where the ethical tradition is dominant For example if there are traditions of consultation and of appropriate authority in a moral tradition does this operate as a resource for democracy itself and if so has it changed the way democracy is practiced in these societies What emerges is a rich and nuanced tapestry that testifies to the interaction of moral traditions and democracy and the various relationships between these traditions and democratic theory and practice

The Oxford Handbook of Global Religions Mark Juergensmeyer, 2011-08-25 This is a reference for understanding world religious societies in their contemporary global diversity Comprising 60 essays the volume focuses on communities rather than beliefs symbols or rites The contributors are leading scholars of world religions many of whom are also members of the communities they study

The Oxford Handbook of Religion and Race in American History Kathryn Gin Lum, Paul Harvey, 2018-03-01 The Oxford Handbook of Religion and Race in American History brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview for those interested in the role of religion and race in American history Thirty four scholars from the fields of History Religious Studies Sociology Anthropology and more investigate the complex interdependencies of religion and race from pre Columbian origins to the present The volume addresses the religious experience social realities theologies and sociologies of racialized groups in American religious history as well as the ways that religious myths institutions and practices contributed to their racialization Part One

begins with a broad introductory survey outlining some of the major terms and explaining the intersections of race and religions in various traditions and cultures across time Part Two provides chronologically arranged accounts of specific historical periods that follow a narrative of religion and race through four plus centuries Taken together The Oxford Handbook of Religion and Race in American History provides a reliable scholarly text and resource to summarize and guide work in this subject and to help make sense of contemporary issues and dilemmas

The hippie trail Sharif Gemie, Brian Ireland, 2017-11-10 This is the first history of the Hippie Trail It records the joys and pains of budget travel to Kathmandu India Afghanistan and other points east in the 1960s and 1970s Written in a clear simple style it provides detailed analysis of the motivations and the experiences of hundreds of thousands of hippies who travelled eastwards The book is structured around four key debates were the travellers simply motivated by a search for drugs Did they encounter love or sexual freedom on the road Were they basically just tourists Did they resemble pilgrims It also considers how the travellers have been represented in films novels and autobiographical accounts and will appeal to those interested in the Trail or the 1960s counterculture as well as students taking courses relating to the 1960s
