Nuer Religion:

Nuer Religion Edward Evan Evans-Pritchard, 1962 **Nuer Religion** E. E. Evans-Pritchard, 2015-06-26 Excerpt from *Nuer Religion* I have previously written two books on the Nuer a cattle herding people dwelling in the swamps and savannah of the southern Anglo Egyptian Sudan The *Nuer A Description of the Modes of Livelihood and Political Institutions of a Nilotic People* was published in 1940 and *Kinship and Marriage among the Nuer* in 1951 The present volume *Nuer Religion* completes a study of the Nuer which began in 1930 Accounts of religion in writings on the Nuer are generally meagre and superficial The only detailed treatment is in Father J P Crazzolara's *Zur Gesellschaft und Religion der Nuer* 1953 much of which appeared earlier in volume viii of Father W Schmidt's *Der Ursprung der Gottesidee* 1949 Those who read his account will see that it differs in many respects from what I now present though less with regard to fact than in emphasis and interpretation Although Nuer religious ideas and practices were a part of their way of life which greatly interested me it was that to which I was able to give least attention during my short residence of a year in Nuerland It was necessary to learn their language and to study their manner of livelihood and their family kinship and political activities before giving close attention to the more difficult problems of their religious thought These tasks all the heavier in the arduous conditions in which they had to be carried out left me little time to pursue anything which could be called a systematic inquiry into religious matters What I record I witnessed myself or is information given spontaneously during talks about other and more practical affairs or in comment on some event or experience Such observations may however be more valuable in a study of religious thought than those derived from purposive inquiry This is especially so when a people lack as the Nuer do anything which offers easy scope for such an inquiry for they have nothing which can properly be called dogma liturgy and sacraments in *sensu stricto* and they lack a developed religious cult and mythology This is doubtless one of the reasons why for the most part those who have written about the Nuer have said so little about their religion About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Encyclopedia of African Religion Molefi Kete Asante, Ama Mazama, 2008-11-26 Numerous titles focusing on particular beliefs in Africa exist including Marcel Griaule's *Conversations with Ogotemmeli* but this one presents an unparalleled exploration of a multitude of cultures and experiences It is both a gateway to deeper exploration and a penetrating resource on its own This is bound to become the definitive scholarly resource on African religions Library Journal Starred Review Overall because of its singular focus reliability and scope this encyclopedia will prove invaluable where there is considerable

interest in Africa or in different religious traditions Library Journal As the first comprehensive work to assemble ideas concepts discourses and extensive essays in this vital area the Encyclopedia of African Religion explores such topics as deities and divinities the nature of humanity the end of life the conquest of fear and the quest for attainment of harmony with nature and other humans Editors Molefi Kete Asante and Ama Mazama include nearly 500 entries that seek to rediscover the original beauty and majesty of African religion Features Offers the best representation to date of the African response to the sacred Helps readers grasp the enormity of Africa's contribution to religious ideas by presenting richly textured concepts of spirituality ritual and initiation while simultaneously advancing new theological categories cosmological narratives and ways to conceptualize ethical behavior Provides readers with new metaphors figures of speech modes of reasoning etymologies analogies and cosmogonies Reveals the complexity texture and rhythms of the African religious tradition to provide scholars with a baseline for future works The Encyclopedia of African Religion is intended for undergraduate and graduate students in fields such as Religion Africana Studies Sociology and Philosophy **Nuer Religion (Classic Reprint)** E. E.

Evans-Pritchard, 2017-09-16 Excerpt from Nuer Religion This difficulty is not easily overcome because it is not merely a matter of definitions but involves also personal judgement It would be useless to deny this and rash to ignore it It may be said that in describing and interpreting a primitive religion it should make no difference whether the writer is an agnostic or a Christian Jew Muslim Hindu or whatever he may be but in fact it makes a great deal of difference for even in a descriptive study judgement can in no way be avoided Those who give assent to the religious beliefs of their own people feel and think and therefore also write differently about the beliefs of other peoples from those who do not give assent to them This is not the place to discuss further this difficulty I merely wish to recognize that it exists and that it introduces into writings about religion complications which are not present when writing about for example kinship or husbandry I am of course well aware that Nuer religion is very unlike what we know in general about Negro religions One cannot even say that it is a typical Nilotic religion It is certainly very unlike the religion of the Anuak of the Luo of Kenya of the Acholi of the Alur or of the Shilluk Indeed only the religion of the Dinka can be said to have strongly marked affinities with it and it can be further said that in some respects the religions of these two peoples resemble less other Negro religions than some of the historic religions They have features which bring to mind the Hebrews of the Old Testament Professor C G Seligman clearly sensed this as his account of the Dinka and Nuer shows and Iviiss Ray Huffman an American Presbyterian missionary who spent many years among the Nuer remarks that the missionary feels as if he were living in Old Testament times and in a way this is true 1 When therefore I sometimes draw comparisons between Nuer and Hebrew conceptions it is no mere whim but is because I myself find it helpful and I think others may do so too in trying to understand Nuer ideas to note this likeness to something with which we are ourselves familiar without being too intimately involved in it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a

Indigenous Religions Graham Harvey,2000-01-01 Indigenous religions are the majority of the world s religions This Companion shows how much they can contribute to a richer understanding of human identity action and relationships An international team of contributors discuss representative indigenous religions from all continents The book is in three parts Persons Powers and Gifts Relevant to everyone interested in human religiosity today Anthropological Studies of Religion Brian Morris,1987-02-27 A lucid outline of explanations of religious phenomena offered by such great thinkers as Hegel Marx and Weber The Religion of Paul the Apostle John Ashton,University Lecturer in New Testament Studies John Ashton,2000-01-01 Paul the Apostle has traditionally been viewed as a thinker and theologian and scholars have focused almost exclusively on his ideas rather than on his religious experience In this book a leading New Testament scholar challenges this view of Paul John Ashton demonstrates how closely Paul s own career resembles that of a typical shaman and he shows how every important aspect of Paul s life and ministry may be illuminated by focusing on his experience Drawing not only on Paul s letters but also on contemporary writings in the Jewish and Hellenistic worlds Ashton discusses a number of important issues relevant to the understanding of Paul and to the origins of Christianity whether Paul is properly described as a convert a mystic an apostle a prophet or a charismatic what his attitude was to the Jewish traditions he inherited why he felt called upon to preach not to his fellow Jews but to the Gentiles what accounts for the remarkable success of his strange new Gospel and how we can explain his language of spirit possession Christ lives in me In addressing these issues Ashton demonstrates that to regard Christianity simply as a religion of the word is to ignore a vital truth about its origins **The Slain God** Timothy Larsen,2014-08-28 Throughout its entire history the discipline of anthropology has been perceived as undermining or even discrediting Christian faith Many of its most prominent theorists have been agnostics who assumed that ethnographic findings and theories had exposed religious beliefs to be untenable E B Tylor the founder of the discipline in Britain lost his faith through studying anthropology James Frazer saw the material that he presented in his highly influential work The Golden Bough as demonstrating that Christian thought was based on the erroneous thought patterns of savages On the other hand some of the most eminent anthropologists have been Christians including E E Evans Pritchard Mary Douglas Victor Turner and Edith Turner Moreover they openly presented articulate reasons for how their religious convictions cohered with their professional work Despite being a major site of friction between faith and modern thought the relationship between anthropology and Christianity has never before been the subject of a book length study In this groundbreaking work Timothy Larsen examines the point where doubt and faith collide with anthropological theory and evidence **Lugbara**
