The Individual without Passions Elena Pulcini, 2012-08-09 The Individual without Passions Modern Individualism and the Loss of the Social Bond offers an innovative look at an extremely timely and important issue individualism from the point of view of a theory of passions This book underlines the importance of the

problem of the passions in both forming individual identity and building the social bond Drawing inspiration from classic authors that represent fundamental milestones along the route of modern individualism from Montaigne to Hobbes from Locke to Smith from Rousseau to Tocqueville *The Individual without Passions* puts forward new hypotheses that contrast with the consolidated views of contemporary reflection both modern and postmodern Elena Pulcini argues that passions are crucial not only when they are strong *homo oeconomicus* but also when absent or weak *homo democraticus* in both cases producing pathological effects on the Self and the social bond Finally this book underlines that the image of the modern individual does not end with the egoistical passions and that it is possible to reactivate empathetic and solidaristic passions furthermore it proposes the hypothesis that the solidaristic passions go to fight the egoistical passions This hypothesis seems confirmed and is most evident in the phenomenon of the gift as interpreted by Marcel Mauss and his contemporary heirs the hidden testimony of a desire for belonging which enables us to propose a new figure of the individual *homo reciprocus*

"Soziale Pathologie". Die kritische Dimension von Axel Honneths Gesellschaftstheorie Alexander Hermert, 2020-02-26 Studienarbeit aus dem Jahr 2019 im Fachbereich Philosophie Philosophie des 20. Jahrhunderts Note 1,3 Rheinisch-Westfälische Technische Hochschule Aachen Institut für Politikwissenschaft Veranstaltung Politische Anthropologie Sprache Deutsch Abstract Vor dem Hintergrund der Theorie der Anerkennung von Axel Honneth zeichnet sich die Diagnose von sozialen Pathologien in erster Instanz verstanden als elementare Beeinträchtigung einer ungebrochenen Anerkennung als Kern der gesellschaftskritischen Dimension seiner Theorie aus Doch welche kritischen Implikationen resultieren aus der Theorie der Anerkennung im Allgemeinen und welche genaue Bedeutung kommt dem Begriff der sozialen Pathologie schlussendlich zu Inwiefern lässt sich deshalb sein Status als zentrales Moment sozialphilosophischer Reflexion nachvollziehen und rechtfertigen Diese Fragen will die vorliegende Hausarbeit beantworten Um dieser Frage nachzugehen

soll in einem ersten Schritt auf methodologischer Ebene die eigene Verortung Honneths in die Tradition der Kritischen Theorie nachgezeichnet werden um zu zeigen dass die Übernahme der Idee einer immanent ansetzenden aber dennoch kontexttranszendierenden Kritik im Zentrum seiner Interpretation steht Dieses von Georg Friedrich Wilhelm Hegel inspirierte Kritikmodell ist allerdings auf die Explikation einer normativ begründeten Gesellschaftstheorie angewiesen um einen Begründungshorizont für das transzendierende Moment der Kritik bereitzustellen Daher wird anschließend die Theorie der Anerkennung als ebensolche Gesellschaftstheorie vorgestellt und in ihren Grundzügen erläutert Denn nur auf Grundlage des normativen Fundaments eines moraltheoretischen Monismus lässt sich der besondere Anspruch von Honneths Gesellschaftskritik verständlich machen Die Rekonstruktion der kritischen Implikationen insbesondere in Hinblick auf ihre gerechtigkeits-theoretischen Konsequenzen soll daher im vierten Kapitel federführend sein Anschließend sollen die herausgearbeiteten Implikationen mit dem Begriff der sozialen Pathologie in Verbindung gebracht werden und seine Bedeutung für die Interpretation sozialphilosophischer Kritik abschließend resümiert werden Auf Grundlage der bis dahin erarbeiteten Ergebnisse soll Honneths kritische Theorie der Gesellschaft nicht nur dahingehend überprüft werden ob der gesetzte Anspruch auch schlussendlich verwirklicht werden konnte über diese Rekapitulation hinaus soll in Form einer Einbindung in den umliegenden Diskussionszusammenhang ein Ausblick mit besonderem Augenmerk auf die Potenziale des Konzepts der sozialen Pathologie gewährt werden

Multiple Experiences of Modernity Oliver Kozlarek, 2014 Contemporary theories of modernity recognize the plurality or multiplicity of modernities Often the differences are seen as institutional or cultural differences Although this sort of research is important it cannot be ignored that it does not provide a clear understanding of the human consequences The tradition that today is known under the name of Critical Theory on the contrary has been interested always first of all in the human consequences This book wants to follow this ambition The question it tries to search answers for is what are the experiences that human beings are making in and within global modernity Another question is important what are the affinities and what are the differences Also Critical Theory was mainly interested in the Western experiences with and within global modernity The book will challenge this limited view by looking how modernities is experienced in other parts of the world

Following the tradition of critical theory the volume enquires into the experiences people make with and in global modernity It thereby seeks to draw attention to both affinities and differences in these experiences and to depart from the western horizon of experience and consider other forms of experience Current theories of modernity are based on the assumption of the diversity of modernity This diversity is frequently understood to be the outcome of institutional and cultural differences

Re-Presenting the Good Society Maeve Cooke, 2006-04-07 A proposal for negotiating the tension between an anti authoritarian impulse and a guiding idea of context transcending validity in critical social theory

Contemporary critical social theories face the question of how to justify the ideas of the good society that guide their critical analyses. Traditionally these more or less determinate ideas of the good society were held to be independent of their specific sociocultural context and historical epoch. Today such a concept of context transcending validity is not easy to defend. The linguistic turn of Western philosophy signals the widespread acceptance of the view that ideas of knowledge and validity are always mediated linguistically and that language is conditioned by history and context. In *Re Presenting the Good Society* Maeve Cooke addresses the justificatory dilemma facing critical social theories: how to maintain an idea of context transcending validity without violating anti-authoritarian impulses. In doing so she not only clarifies the issues and positions taken by other theorists including Richard Rorty, Jürgen Habermas, Axel Honneth and Judith Butler but also offers her own original and thought provoking analysis of context transcending validity. Because the tension between an anti-authoritarian impulse and a guiding idea of context transcending validity is today an integral part of critical social theory, Cooke argues that it should be negotiated rather than eliminated. Her proposal for a concept of context transcending validity has as its central claim that we should conceive of the good society as re-presented in particular constitutively inadequate representations of it. These re-presentations, Cooke argues provocatively, are regulative ideas that have an imaginary, fictive character.

High-speed Society Hartmut Rosa, 2010-11-01. Everywhere life seems to be speeding up: we talk of fast food and speed dating. But what does the phenomenon of social acceleration really entail and how new is it? While much has been written about our high speed society in the popular media, serious academic analysis has lagged behind and what literature there is comes more from Europe than from America. This collection of essays is a first step toward exposing readers on this side of the Atlantic to the importance of this phenomenon and toward developing some preliminary conceptual categories for better understanding it. Among the major questions the volume addresses are these: Is acceleration occurring across all sectors of society and all dimensions of life, or is it affecting some more than others? Where is life not speeding up and what results from this disparity? What are the fundamental causes of acceleration as well as its consequences for everyday experience? How does it affect our political and legal institutions? How much speed can we tolerate? The volume tackles these questions in three sections. Part 1 offers a selection of astute early analyses of acceleration as experienced in the late nineteenth and early twentieth centuries. Part 2 samples recent attempts at analyzing social acceleration, including translations of the work of leading European thinkers. Part 3 explores acceleration's political implications.

The Owl's Flight Stefania Achella, Francesca Iannelli, Gabriella Baptist, Serena Feloj, Fiorinda Li Vigni, Claudia Melica, 2021-10-25. This book presents a unique rethinking of G. W. F. Hegel's philosophy from unusual and controversial perspectives in order to liberate new energies from his philosophy. The role Hegel ascribes to women in the shaping of society and family, the reconstruction of his anthropological and psychological perspective, his approach to human nature, the relationship between mental illness and social disease, the role of the unconscious and the relevance of intercultural and interreligious pathways

All these themes reveal new and inspiring aspects of Hegel's thought for our time
