

CULTURAL RESEARCH

GOALS AND MEANS

"Know thyself!" These solemn words saluted the ancient Greeks at the entrance to the temple of the Pythian Apollo. And sagest of all Montaigne said that rather than know Christ he would know himself fully. Both the Greeks and Montaigne are right, but we can understand him better and completely unless we also understand others. We must observe our own characteristics against the background of those of other peoples.

It is a characteristic of primitive cultures that it is sufficient with itself. We are the only "proper" people, and to strangers we offer little more than a sharing of the abundance. The Hottentots call all the members of their own group *naam*; likewise in the Hottentots' name for themselves. Both words simply mean "name," or "proper human beings," and a certain note of dislike toward all others is implied. The basic emotion responsible for such designations also prevails on the highest levels of culture. Strangers do not speak a "mother language"; they are "foreigners" (*barbaroi*), as the Hottentots said, or say nothing of "natives" (*autochthones*), the Hottentots name for the Germanic peoples. And, in any case, foreigners are "strangers" (*xenoi*).

If we look beneath the surface, we soon discover, however, that all cultures have a common interest. Everywhere we see, or at least heard about, the Australian boomerang, the sickle-shaped throwing implement which in others is described that it is like to hit the mark it returns to the point of origin. But how many of us know that the Indians of the southwestern United States used the same kind of weapons, that it is found in India and in certain parts of Africa, and is shown in various depicting

Paths Of Culture A General Ethnology:

Paths of Culture Kaj Birket-Smith, 1965 The Paths of Culture Kaj Birket-Smith, 1965 *The paths of culture a general ethnology*, tr Kaj Birket-Smith, Dictionary of Concepts in Cultural Anthropology Robert H. Winthrop, 1991-11-18

The field of cultural anthropology describes and interprets the thought and behavior of contemporary and near contemporary societies Inherently pluralistic it offers a framework in which the distinctive perspectives of each cultural world can be appreciated Robert Winthrop's dictionary describes the major concepts that have shaped the discipline both historically and theoretically It sets modern anthropology in its proper context within the broader intellectual tradition Eighty entries review the key concepts culture race nature symbolism adaptation the primitive etc that have established the fundamental problems and issues guided research and served as the focus for debate in key areas of the discipline The entries which range from 2 000 to 6 000 words in length are both thorough in treatment and contemporary in relevance Some entries are primarily of historical significance while others describe recent developments Each entry contains an annotated bibliography and a guide to additional reading on the subject While this is not primarily a technical lexicon many terms have been glossed and explained Designed to be useful to students of anthropology this dictionary will assist those in other disciplines to find their way through the anthropological labyrinth Cultural Analysis Hans Gullestrup, 2006 With internationalization the world is becoming smaller and the opportunity to meet people from other countries and cultures is becoming more common providing the need for cooperation shared knowledge and cross border trade Individual cultures tend to understand themselves best and base their understanding of the world and its peoples on ideas they each have come to believe irrespective of reality and thus make it difficult to reach a proper understanding of other cultures This book considers intercultural understanding and co action partly by means of general insights into the concept of culture and the dimensions which bring about cultural differences and partly as a methodology to analyze a certain culture whether one's own or others This leads towards an understanding of cultural complexity and cultural differences among people The book provides a discussion of a number of ethical issues which almost invariably will arise when people meet and co act across cultural boundaries Cultural Analysis offers a theoretical abstract proposal for cultural understanding intercultural plurality and complexity The Anthem Companion to Philip Rieff Jonathan B. Imber, 2018-04-10 The Anthem Companion to Phillip Rieff offers the best contemporary work on Phillip Rieff written by the best scholars currently working in this field Original authoritative and wide ranging the critical assessments of this volume will make it ideal for Rieff students and scholars alike Anthem Companions to Sociology offer authoritative and comprehensive assessments of major figures in the development of sociology from the last two centuries Covering the major advancements in sociological thought these companions offer critical evaluations of key figures in the American and European sociological tradition and will provide students and scholars with both an in depth assessment of the makers of sociology and chart their relevance to modern society **Mysticism and Alchemy through the Ages**

Gary Edson, 2012-09-14 An in depth look into the foundations of mysticism and alchemy this book describes both physical and spiritual aspects of the various theories and practices of transformation with attention to the beliefs of Buddhism Christianity Hinduism Islam Judaism Sufism Tantrism Taoism and Yoga The connection between early mystical pursuits and the development of alchemy from ancient China India and Egypt through Moorish Spain and into Latin Europe are illuminated along with the activities of early alchemists The book which is heavily illustrated describes the beliefs experiments and secret messages that drew the believers and dreamers of the world together in search of wealth and immortality

Sociology and Anthropology United States Air Force Academy. Library, 1968 *Special Bibliography Series*, 1957 *The Routledge Dictionary of Anthropologists* Gérald Gaillard, 2004 This detailed and comprehensive guide provides biographical information on the most influential and significant figures in world anthropology from the birth of the discipline in the nineteenth century to the present day Each of the fifteen chapters focuses on a national tradition or school of thought outlining its central features and placing the anthropologists within their intellectual contexts Fully indexed and cross referenced The Routledge Dictionary of Anthropologists will prove indispensable for students of anthropology

Culture Figures Michał Mokrzan, 2024-06-01 Ethnographic research anthropological theory and the understanding of the objects of inquiry are co created through figuration using tropes and rhetorical figures and techniques of persuasion Delving into descriptive ethnography and theoretical texts spanning across classical monographs and recent texts in cultural anthropology Culture Figures places rhetoric and rhetoricity as central to the discipline s self understanding It focuses on how understandings of culture and social life are shaped and conveyed in cultural anthropology through textual rhetoric The book demonstrates how processes of using tropes and modes of persuasion underlie the creation of meanings or misunderstandings in society

Culture: A Drama of Nature and Person Piotr Jaroszyński, 2023-12-11 This monograph represents a rare classical philosophical approach to culture It is grounded in philosophical realism and emphasizes personalism as a true achievement of philosophical anthropology Employing the apparatus of the history of philosophy science and religion the author demonstrates the immense scope of the drama unfolding within human culture In a classical approach evaluation is inevitable with regard to various theories of culture human culture as such and all its main actors Jaroszy ski s work shows that realistic study of what it means to be a human person leads to the most comprehensive

understanding of culture as it is and should be **Religion and Cult** Sigmund Mowinckel, 2012-04-11 In this innovative work Mowinckel employs the phenomenology of religion to investigate how religion was lived and experienced in ancient Israel and Judah Using his considerable expertise he draws important comparisons between the religious practices in the Old Testament and ancient Near Eastern religions Christianity and tribal religions from around the world **Extending the Rafters** Michael K. Foster, Jack Campisi, Marianne Mithun, 1984-01-01 To the Iroquois extending the rafters meant adding onto the longhouse both in the literal sense of making room for new families and in the figurative sense of adding adopted individuals or tribes to the League of Five Nations Similarly this book extends Iroquois studies The distinguished contributors represent such diverse areas of anthropology as ethnology ethnohistory and archaeology They address issues that cut across disciplinary lines making this book a significant state of the art survey The topics explored revolve around the influence contributions field work and teachings of anthropologist William N Fenton a founder of the discipline of ethnohistory The essays run the gamut from prehistory to contemporary political issues from individuals to women and nations and from language to ritual Encyclopedia of the Arctic Mark Nuttall, 2005-09-23 With detailed essays on the Arctic s environment wildlife climate history exploration resources economics politics indigenous cultures and languages conservation initiatives and more this Encyclopedia is the only major work and comprehensive reference on this vast complex changing and increasingly important part of the globe Including 305 maps This Encyclopedia is not only an interdisciplinary work of reference for all those involved in teaching or researching Arctic issues but a fascinating and comprehensive resource for residents of the Arctic and all those concerned with global environmental issues sustainability science and human interactions with the environment **The Feeling Intellect** Philip Rieff, 1990 Collected here for the first time these writings demonstrate the range and precision of Philip Rieff s sociology of culture Rieff addresses the rise of psychoanalytic and other spiritual disciplines that have reshaped contemporary culture *Western Folklore* , 1968 *Names and Nunavut* Valerie Alia, 2008-11 On the surface naming is simply a way to classify people and their environments The premise of this study is that it is much more a form of social control a political activity a key to identity maintenance and transformation Governments legislate and regulate naming people fight to take keep or change their names A name change can indicate subjugation or liberation depending on the circumstances But it always signifies a change in power relations Since the late 1970s the author has looked at naming and renaming cross culturally and internationally with particular attention to the effects of colonisation and liberation The experience of Inuit in Canada is an example of both Colonisation is only part of the Nunavut experience Contrary to the dire predictions of cultural genocide theorists Inuit culture particularly traditional naming has remained extremely strong and is in the midst of a renaissance Here is a ground breaking study by the founder of the discipline of political onomastics Pub website
