OECD, 2020-02-17 The report presents a diagnosis of Portugal multi level governance in international perspectives and highlights the strengths and challenges of the system It then presents three potential policy paths of regional reform for Portugal As the options are not mutually exclusive they could work as complements to each other The report analyses the conditions under which the reforms may deliver more economic efficiency and regional equity Regionalisation of Globalised Innovation Ulrich Hilpert, 2003-10-23 While processes of
