**People** Jane Hughes, Geraldine Lyte, 2015-09-08 *Developing Nursing Practice with Children and Young People* explores the context of children's nursing in light of recent policy changes and looks at contemporary issues and emerging roles within the field Divided into four parts Part One focuses on the emergence of children's nursing in healthcare detailing events and developments that have shaped the role of children's nurses Part Two examines many aspects of practice for registered practitioners in nursing ranging from acute care settings to children's nurses developing roles in primary care mental health and with children and young people with special health and social needs Part Three then provides a detailed analysis of advanced practice in children's nursing The advanced skills portfolio is presented in depth augmented by exemplars of a number of advanced practice roles which have already been established Finally Part Four builds on the previous three parts by offering several case studies from practice including accounts from children young people and families as well as assistant practitioners and student nurses The text concludes by focusing on the longer term scope for children's nurses **Children of the Land** Glen H. Elder Jr., Rand D. Conger, 2014-08-11 A century ago most Americans had ties to the land Now only one in fifty is engaged in farming and little more than a fourth live in rural communities Though not new this exodus from the land represents one of the great social movements of our age and is also symptomatic of an unparalleled transformation of our society In *Children of the Land* the authors ask whether traditional observations about farm families strong intergenerational ties productive roles for youth in work and social leadership dedicated parents and a network of positive engagement in church school and community life apply to three hundred Iowa children who have grown up with some tie to the land The answer as this study shows is a resounding yes In spite of the hardships they faced during the agricultural crisis

of the 1980s these children whose lives we follow from the seventh grade to after high school graduation proved to be remarkably successful both academically and socially A moving testament to the distinctly positive lifestyle of Iowa families with connections to the land this uplifting book also suggests important routes to success for youths in other high risk settings

Thompson,Peter Aspinall,Simon Bell,2010-04-23 Our modern lifestyles often cause us to spend more time sitting behind a desk than being active outdoors At the same time our general health is deteriorating The alarming rise in obesity sedentary lifestyles and mental ill health across the developed world has resulted in an urgent desire to understand how the environment in particular the outdoor environment influences health This book addresses the growing interest in salutogenic environments landscapes that support healthy lifestyles and promote well being and the need for innovative methods to research them Drawing on multidisciplinary approaches from environmental psychology health sciences urban design landscape architecture and horticulture it questions how future research can be better targeted to inform policy and practice in health promotion The contributing authors are international experts in researching landscape health and the environment drawn together by OPENspace directors who have a unique reputation in this area This pioneering book is a valuable resource for postgraduate researchers and practitioners in both environmental and health studies      **Young Children's**

**Emotional Experiences** Jane Murray,Ioanna Palaologou,2020-06-29 Based on a rich seam of research evidence this book leverages value in engaging with scientific enquiry to further understanding of young children s emotional experiences Early childhood development has featured increasingly prominently on international policymakers agenda in recent years Yet whilst policy foregrounds economic imperatives including academic attainment school readiness and time bound outcomes similar attention has not been afforded to the potential value of nourishing affective engagements that may secure emotional capital for infants and young children This collection from the field of early childhood is therefore timely Its chapters are based on empirical evidence derived from contemporary scientific studies and address challenges and opportunities inherent in young children s emotional experiences in diverse twenty first century early childhood education and care contexts The authors provoke debate discussion and critique and they ask significant questions of the policymakers practitioners and

carers who may influence young children's lives and their emotional experiences. The findings that are presented in the chapters indicate overall that a test-based approach may detract from young children's emotional development as well as the positive affective experiences in early childhood which have potential to provide an important foundation for a fulfilling life. This book was originally published as a special issue of Early Child Development and Care. **Counseling Children and Adolescents** Sondra Smith-Adcock, Catherine Tucker, 2023-03-28 Counseling Children and Adolescents Second Edition reviews the most relevant theoretical approaches for counseling children: CBT, emotion-focused therapy, play therapy, systems theory, and developmental theories, and focuses on connecting key theories to application via case studies. The book has an integrated framework that focuses on development and diversity. In addition, a unique aspect of this text is its focus on neuroscience, the developing brain, and the impact of early childhood trauma on development. Updates to the second edition include new coverage of the multicultural ethical decision model, intersectionality, implicit bias, the impact of the COVID-19 pandemic, and new research and citations.
