Portal Hypertension in the 21st Century R.J. Groszmann, J. Bosch, 2011-06-27 Portal hypertension is the most important complication of a great variety of both acute and chronic liver diseases Nevertheless hepatic cirrhosis is the most frequent cause of portal hypertension Gastrointestinal bleeding due to rupture of oesophageal varices is without doubt the most severe complication of portal hypertension At present great advances are being made in the pathophysiology and in the development of new therapeutic tools for controlling and preventing this severe clinical event This book contains the papers presented and discussed during the Symposium on Portal Hypertension in the 21st Century held in Montr al Canada in April 2004 and sponsored by Axcan Pharma Inc and NicOx S A There are eight sections covering basic mechanisms new drugs prevention and current treatment of variceal bleeding prevention of recurrent bleeding and hepatic hemodynamic monitoring An international faculty of authors have contributed chapters at an outstanding scientific level which will be vital reading for scientists and clinicians alike

Fine Chemicals Manufacture A. Cybulski, 2001 The sector of fine chemicals including pharmaceuticals agrochemicals dyes and pigments fragrances and flavours intermediates and performance chemicals is growing fast For obvious reasons chemistry is a key to the success in developing new processes for fine chemicals However as a rule chemists formulate results of their work as recipes which usually lack important information for process development *Fine Chemicals Manufacture Technology and Engineering* is intended to show what is needed to make the recipe more useful for process development purposes and to transform the recipe into an industrial process that will be safe environmentally friendly and profitable The goal of this book is to form a bridge between chemists and specialists of all other branches involved in the scale up of new processes or modification of existing processes with both a minimum effort and risk and maximum profit when commercializing the process New techniques for scale up and optimization of existing processes and improvements in the utilization of process equipment that have been developed in recent years are presented in the book
